Radio in the Television Age Pete Fornatale,1983-05-02 A history of modern radio shows why radio survived the advent of television covers radio advertising programming technology and news and discusses radio pioneers noncommercial radio and government deregulation Google Books *Talking Radio: An Oral History of American Radio in the Television Age* Michael C. Keith,2020-07-24 Includes interviews with such well known personalities as Walter Cronkite Dick Clark Steve Allen Art Linkletter Paul Harvey Howard K Smith Ed McMahon Bruce Morrow as well as more than fifty other individuals who were or continue to be actively involved in radio *Television/radio Age* ,1986 *Australian Newspapers in the Television Age, 1956-2006* Rodney Tiffen,2025-04-15 This book looks at Australian newspapers over the half century following the introduction of television in 1956 Through a quantitative study it illuminates how the nature of news has changed and how central journalistic practices have developed It examines newspapers changing size and structure their story priorities their use of visual aids and interpretive frames their changing range and treatment of sources and how these changes affected their political and international coverage The content analysis shows a dominant theme of growth and improvement Newspapers offered their readers much more at the end of the half century than at the beginning The much larger volume of news was presented in more visually attractive and reader friendly ways than before News agendas expanded in response both to changing reader interests and a changing political environment Newspapers had a more active orientation towards using a wider range of sources All papers shared in the major trends but to varying degrees so that by the end of the period there were sharper differences between the papers than at the beginning Mapping the multi dimensional nature of change in this pivotal period lays a groundwork for analysing the changing nature of journalism during the existential crisis that news organisations are now facing during the digital age *European Cinemas in the Television Age* Dorota Ostrowska,2007-02-01 *European Cinemas in the Television Age* is a radical attempt to rethink the post war history of European cinemas The authors approach the subject from the perspective of television s impact on the culture of cinema s production distribution consumption and reception Thus they indicate a new direction for the debate about the future of cinema in Europe In every European country television has transformed economic technological and aesthetic terms in which the process of cinema production had been conducted Television s growing popularity has drastically reshaped cinema s audiences and forced governments to introduce policies to regulate the interaction between cinema and television in the changing and dynamic audio visual environment It is cinematic criticism which was slowest in coming to terms with the presence of television and therefore most instrumental in perpetuating the view of cinema as an isolated object of aesthetic critical and academic inquiry The recognition of the impact of television upon European cinemas offers a more authentic and richer picture of cinemas in Europe which are part of the complex audiovisual matrix including television and new media *Television in the Antenna Age* David Marc,Robert Thompson,2008-04-15 *Television in the Antenna Age* is a

Cohen, 2010-11-16 The Presidency in the Era of 24 Hour News examines how changes in the news media since the golden age of television when three major networks held a near monopoly on the news people saw in the United States have altered the way presidents communicate with the public and garner popular support How did Bill Clinton manage to maintain high approval ratings

during the Monica Lewinsky scandal Why has the Iraq war mired George Bush in the lowest approval ratings of his presidency Jeffrey Cohen reveals how the decline of government regulation and the growth of Internet and cable news outlets have made news organizations more competitive resulting in decreased coverage of the president in the traditional news media and an increasingly negative tone in the coverage that does occur He traces the dwindling of public trust in the news and shows how people pay less attention to it than they once did Cohen argues that the news media's influence over public opinion has decreased considerably as a result and so has the president's ability to influence the public through the news media This has prompted a sea change in presidential leadership style Engaging the public less to mobilize broad support presidents increasingly cultivate special interest groups that often already back the White House's agenda This book carries far reaching implications for the future of presidential governance and American democracy in the era of new media
