Funnybooks Michael Barrier, 2015 Funnybooks is the story of the most popular American comic books of the 1940s and 1950s those published under the Dell label For a time Dell Comics Are Good Comics was more than a slogan it was a simple statement of fact Many of the stories written and drawn by people like Carl Barks Donald Duck Uncle Scrooge John Stanley Little Lulu and Walt Kelly Pogo repay reading and rereading by educated adults even today decades after they were published as disposable entertainment for children Such triumphs were improbable to say the least because midcentury comics were so widely dismissed as trash by angry parents indignant librarians and even many of the people who published them It was all but miraculous that a few great cartoonists were able to look past that nearly universal scorn and grasp the artistic potential of their medium With clarity and enthusiasm Barrier explains what made the best stories in the Dell comic books so special He deftly turns a complex and detailed history into an expressive narrative sure to appeal to an audience beyond scholars and historians

Because I Tell a Joke Or Two Stephen Wagg, 1998 An examination of the sitcoms

The Sitcom Jeremy G. Butler, 2019-10-09 In this new Routledge Television Guidebook Jeremy G Butler studies our love hate relationship with the durable sitcom analyzing the genre's position as a major media artefact within American culture and providing a historical overview of its evolution in the USA Everyone loves the sitcom genre and yet paradoxically everyone hates the sitcom too This book examines themes of gender race ethnicity and the family that are always at the core of humor in our culture tracking how those discourses are embedded in the sitcom's relatively rigid storytelling structures

Butler pays particular attention to the sitcom's position in today's post-network media landscape and sample analyses of *Sex and the City* and *Black-ish*. The *Simpsons* and *The Andy Griffith Show* illuminate how the sitcom is infused with foundational American values. At once contemporary and reflective, *The Sitcom* is a must-read for students and scholars of television comedy and broader media studies and a great classroom text. **ABA Journal**, 1988-02-01. The ABA Journal serves the legal profession. Qualified recipients are lawyers and judges, law students, law librarians, and associate members of the American Bar Association. Radio's Morning Show Personalities Philip A. Lieberman, 2024-10-16. Lengthy biographies are provided for 28 of the most prominent trendsetting morning men, including Gene Rayburn, Buffalo Bob Smith, Wolfman Jack, Don Imus, and Howard Stern. The focus is on their careers and their contributions to radio. These are followed by brief, concise biographies of more than 200 lesser-known morning personalities. *Vocal Tracks* Jacob Smith, 2008-08-04. This entertaining and innovative book focuses on vocal performance styles that developed in tandem with the sound technologies of the phonograph, radio, and sound film. Writing in a clear and lively style, Jacob Smith looks at these media technologies and industries through the lens of performance, bringing to light a fascinating nexus of performer, technology, and audience. Combining theories of film, sound, cultural histories of sound technologies and industries, and theories of performance, Smith convincingly connects disparate and largely neglected performance niches to explore the development of a modern vocal performance. *Vocal Tracks: Performance and Sound Media* demonstrates the voice to be a vehicle of performance identity and culture and illustrates both the interconnection of all these categories and their relation to the media technologies of the past century. Cracking Jokes Alan Dundes, 2017-01-19. **Popular Media, Democracy and Development in Africa** Herman Wasserman, 2010-10-04. This book examines the role that popular media could play to encourage political debate, provide information for development, or critique the very definitions of democracy and development. **Manufacturing Desire** Arthur Asa Berger, 2017-07-12. The average person in America watches four hours of television per day and spends the equivalent of nine years of his or her life in front of the television set. If the attention most people devote to popular culture—listening to the news, watching soap operas, reading the comics—were added up, it would reveal that most people spend an enormous amount of time with popular culture, which becomes, in large measure, their culture. *Manufacturing Desire* is a study of how the mass media broadcast or spread various popular arts; further, how the media and popular arts play a major role in shaping our everyday lives. The television shows we watch, the movies we see, the radio programs we listen to, and all the comic strips we read influence social behavior. They give us ideas about what is good and evil, about how to solve problems, and about how we should relate to others. If we understand this, says Berger, then the way we think about our media-influenced culture will be far different than if we see popular culture as mindless entertainment. Berger provides an analysis of the way popular culture and the mass media simultaneously reflect and affect various aspects of American culture and society. He examines commercials, television shows, comics, film, humor, and everyday life in terms of what beliefs and values

are found in them what attitudes toward ourselves and our societies are contained in them how they achieve their effects and what they reflect about present day American culture and society This book is analysis of the impact mass media have across America cross culturally and internationally Manufacturing Desire will provide the general reader as well as specialists in communication and information sociology and psychology with a better understanding of the effects of mass media and popular culture on contemporary society
