**Exocet Falklands** Ewen Southby-Tailyour,2014-04-02 A fascinating account of three SAS missions to counter the Exocet missile from ill thought out ideas to near suicidal one way trips onto enemy soil Soldier Magazine This is a revelatory account of three untabulated special forces operations PLUM DUFF MIKADO and KETTLEDUM that were tasked to destroy Argentina's Exocet missiles during the 1982 Falkland's campaign Interviews with the SAS officer commanding Operation PLUM DUFF members of the reconnaissance patrol for

Operation MIKADO plus the navigator of the helicopter that flew eight troopers into Tierra del Fuego has allowed the author to describe the tortuous events that led instead to a significant survival story The RAF pilots ordered to conduct an assault landing of two Hercules onto Rio Grande air base during Operation MIKADO have spoken of the extraordinary procedures they developed so have the commander of the SBS and the captain of the British submarine involved in Operation KETTLEDUM The Super tendard pilots who sank HMS Sheffield and MV Atlantic Conveyor and then attacked HMS Invincible plus a key member of the Argentine special forces and the brigadier defending Rio Grande add credence depth and gravitas to the saga as does an equally revealing interview with the SIS MI6 officer who led the world wide search for Exocets on the black market Disturbing over confidence by commanders at home was finely counter balanced by stirring accounts of inspiring physical and moral courage across the South Atlantic Exocet Falklands is a ground breaking work of investigative military history from which many salutary lessons can be learned Between politics diplomacy and barbouzeries this well documented work will lead you in the arcane of what should have changed the course of this war Air Fan **46**

**Miles** Jarra Brown,2015-06-24 When Jarra Brown hears church bells he cannot fail to be reminded of the hundreds 345 to be precise of service personnel who passed through the beautiful rural Wiltshire countryside into Oxfordshire These men and women were not hiking across its green pastures or sitting on top of the number 55 bus instead they were lifeless resting inside a coffin draped with the Union flag By the end of August 2011 the bells of St Bartholomew s Church in Wootton Bassett had tolled more times than the residents of this once peaceful town cared to think about for each chime represented the moment the police convoy accompanying the hearse from RAF Lyneham entered the High Street A moment frozen in time a moment when the residents of this town came to show their respects a moment that couldn t have been more fitting even if it had been choreographed There was no call to arms by the Town Crier just a spontaneous modest and unprompted response to those who had paid the ultimate price in the name of duty 46 Miles is not a book about the politics of war the whys and wherefores of the Iraq and Afghanistan conflicts or indeed the hidden agendas and government strategies It is about a town which captured the hearts of our nation and whose emotions rippled the entire 46 mile journey of honour dignity and respect into Oxford It is dedicated to those 345 people who having signed up to serve their Queen and country paid with their lives Wootton Bassett who nurtured the grieving on every occasion wanted to let the nation know that these heroes will never be forgotten The Royal Air Force in the Cold War, 1950-1970 Ian Proctor,2015-01-30 Soon after the Second world War wartime allies became Cold War adversaries and by 1950 the perceived threat of a Soviet strike on Western Europe or Britain dominated military planning For the next forty years the Royal Air Force was in the front line of the Cold War In Britain and Germany light bomber crews exercised in preparation for a future conflict while interceptor pilots stood by ready to counter incursions by Soviet aircraft Between 1956 and 1969 the elite crews of the iconic V Force of nuclear bombers trained to perform the ultimate mission striking targets deep in the heart of Russia Protecting British interests overseas

personnel at stations across the Middle East and Far East were regularly engaged in supporting operations during the many colonial conflicts which occurred throughout the 1950s and 1960s Undertaking these duties were new British designed aircraft introduced to squadrons from the early 1950s The names of these extraordinary aircraft which included the Hunter Lightning Vulcan and Canberra became synonymous with the Cold War In this book Ian Proctor uses over 150 highly evocative colour images from a single remarkable Air Ministry collection to portray the RAF and its personnel between 1950 and 1970 He provides a selected insight into service life the aircraft recruitment and training and the operations and exercises undertaken by the RAF during a twenty year period of the Cold War     *Operation Black Buck* 1982 Andrew Bird,2023-08-17 The definitive account of the Vulcan raids taught me something new on every page Rowland White author of the bestselling Vulcan 607 A newly researched fully illustrated account of how RAF Vulcan bombers flew a series of the world's longest air raids in 1982 against Port Stanley airfield in a daring hastily improvised strike against the Argentinian invaders The RAF's opening shots of the Falklands War were among the most remarkable airstrikes in history The idea was simple to destroy the runway at Port Stanley and prevent Argentinian fast jets using it against the Royal Navy task force But the nearest British owned airfield was Ascension Island 3 900 miles away from the Falklands Researcher and historian Andrew D Bird has uncovered new detail of what really made these extraordinary raids possible including never before published information and photos demonstrating the discreet support provided by the United States Packed with spectacular original artwork and rare photos this book explains how these hugely complex yet completely improvised raids were launched This is also the story of how the last of the Vulcans only a few months away from the scrapyard had to be hastily re equipped to carry conventional bombs with bombsights electronics and navigation systems borrowed from other aircraft Yet they managed to fly what were the longest range air attacks in history and struck a severe blow to the occupying Argentinians

**British Military Aviation in the 1970s** Malcolm Fife,2016-02-15 Malcolm Fife explores the fascinating world of British Military Aviation in the 1970s     **RAF in Camera** Keith Wilson,2022-09-15 In July 2018 the nation looked skyward over Buckingham Palace in awe as the Royal Air Force celebrated its first 100 years with a spectacular parade and flypast over London This event demonstrated a very different perspective of the RAF well away from its operational commitments The expertise and precision of those RAF pilots flying in some of the most famous aircraft in the world has been displayed since the very first days of military aviation The Inter War period was dominated by the Hendon Air Pageants where many aircraft made their public appearance Post war it was the turn of the jet display teams with the Black Arrows and Firebirds laying the foundations for the aerial mastery that is today's Red Arrows The various anniversaries have seen a growth in special artwork being applied to aircraft flown by squadrons celebrating key anniversaries This is covered in considerable detail within this volume On the ground the RAF is represented at major celebrations and key public events by the Queen's Colour Squadron which demonstrates its world famous continuity drill routine while providing a guard of honor for visiting Heads of

States They are frequently accompanied with the Service s own bands which have grown from those created by its squadrons over a century ago From the Berlin Airlift in 1948 to flood relief in Kenya and the international relief effort in the Caribbean following Hurricane Irma in 2017 the RAF has been deployed overseas in response to numerous international crises But aid operations have also been mounted at home Under the banner of Military Aid to the Civil Powers helicopters and aircraft have airlifted food and supplies to areas cut off by severe weather Sea King helicopters have rescued villagers stranded by flash flooding in Boscastle while Chinook helicopters have assisted with the rebuilding of flood defenses breached by severe floods across the country The golden age of record breaking also features in this book From long range flights to South Africa and Australia the Schneider Trophy triumph speed records in the jet age along with altitude records with pilots in special pressure suits the RAF has demonstrated its reputation as a truly pioneering Air Arm Keith Wilson takes us on a journey through the Royal Air Force s public persona during their 100 year history All landmark events are referenced in this thorough well researched and image packed publication As with the three previous releases this new addition to the In Camera series is sure to be regarded as something of a collector s edition and a real enthusiast s favorite **The RAF's**

**Armourers** Tony Lamsdale, Phil Appleby, 2023-11-23 It is said that one of the earliest trades in the world is that of the armorer Historically it is a profession dated slightly after prostitution but well before banking Since the birth of the Royal Flying Corps in 1912 through to the modern Royal Air Force the role of the armorer has been pivotal Not for nothing did the founder of the RAF Lord Trenchard once declare The armorer without him there is no need for an air force In the years since the need for RAF armorers was first recognized it has been a role that has evolved with the times What has remained constant however is the fact that it is still a fascinating and potentially dangerous trade with many different branches and specialisms In this book the authors one of whom Tony Lamsdale is himself a former RAF armorer reveal the previously untold story of how the trade has adapted to the most modern of military machines the aircraft The authors look at the shared history of the armorer and the RAF through the eyes of those who served These veterans stories span decades and their first hand accounts and insights into conflict and peace time operations demonstrate the qualities and characteristics that make armorers unique The book starts with a brief history of the armorer then before capturing the adventures and exploits of RAF armorers from the Second World War and on into the Cold War The dangerous duties of the armorers on deployment in such places as the Falklands Iran Iraq or Afghanistan are all explored There is also the question of having to learn of bomb dumps the use of small arms and the unique world of the armorer with its own peculiar language and the camaraderie of the crew room With each chapter brought to life through personal anecdotes and shared experiences this book provides an insight into an utterly essential role which has remained largely hidden until now **The World's Most Powerful Military Aircraft** Thomas Newdick, 2016-12-15 Ever since man first took to the air combat aircraft have been at the cutting edge of aviation technology resulting in some of the greatest and most complex designs ever built The World s
