Handbook of Research on Visual Computing and Emerging Geometrical Design Tools Amoruso, Giuseppe,2016-04-11 Visual computing and descriptive geometry are multidisciplinary fields addressing the handling of images 3D models and other computer graphics These ideas are experiencing a revival due to emergent technologies and applications available to developers Based in traditional forms of design and architecture these fields are currently experiencing a bounty of new research based on old principles The Handbook of Research on Visual Computing and Emerging Geometrical Design Tools seeks to add to this knowledge base by considering these technologies from a designer s perspective rather than reiterating the principles of computer science It combines aspects of geometry and representation with emerging tools for CAD generation and visualization while addressing the digital heritage of such fields This book is an invaluable resource for developers students of both graphic and computer generated design researchers and designers

Architects Today Kester Rattenbury,Robert Bevan,Kieran Long,2006-08-10 This volume offers both an

introduction to and an insight into key contemporary architects as well as giving a snapshot of the varied nature of architecture today For each architect there are details of their life and work and illustrations of their most representative and iconic buildings *Designing the New Museum* James Grayson Trulove,2000 Museums have emerged as major travel destinations for millions of travelers and every major city is adding to an existing museum or planning a new one to compete as a world cultural center What's new about museum visitors today is that it is not only the collections and shows they are coming to see it is also the museum building itself Cities are quickly learning that a new museum or an addition by a world class architect can do more to generate tourism than can the acquisition of a major piece of art This unprecedented collection takes a look at the new museums and museum builders Presenting in detail a selection of museums which have been built in the past five years or are planned for completion over the next five years this book will look at these new museums from a design perspective *Bolles + Wilson* Lars Lerup,Mirko Zardini,2003 The Luxor is a significant milestone in the oeuvre of Bolles Wilson As a major public building it pursues themes first tested in the 1993 new city library in Münster a characteristic plan form an intervention that redefines its context and a synthesis of the abstract with a spatial warmth an ambience that communicates directly and subliminally to a wide audience base The architecture of this German Australian duo does not fit easily into conventional architectural genres Smallness intimacy and precise details characterise their work just like an increasing number of urban interventions that have made a major impact on cities like Hengelo The Hague or Magdeburg The design of the Luxor Theatre the process of its realisation Bolles Wilson's surrounding urban fields and most importantly the internal life in the building engendered by the architecture are fully presented in this book **Carlo Scarpa. The Open-Ended City Kathryn Holliday, 2019-05-01 In 1980 David Dillon launched his career as an architectural critic with a provocative article that asked Why Is Dallas Architecture So Bad Over the next quarter century he offered readers of the Dallas Morning News a vision of how good architecture and planning could improve quality of life combatting the negative effects of urban sprawl civic fragmentation and rapacious real estate development typical in Texas cities The Open Ended City gathers more than sixty key articles that helped establish Dillon's national reputation as a witty and acerbic critic showing readers why architecture matters and how it can enrich their lives Kathryn E Holliday discusses how Dillon connected culture commerce history and public life in ways that few columnists and reporters ever get the opportunity to do The articles she includes touch on major themes that animated Dillon's writing downtown redevelopment suburban sprawl arts and culture historic preservation and the necessity of aesthetic quality in architecture as a baseline for thriving communities While the specifics of these articles will resonate with those who care about Dallas Fort Worth and other Texas cities they are also deeply relevant to all architects urbanists and citizens who engage in the public life and planning of cities As a collection The Open Ended City persuasively demonstrates how a discerning critic helped to shape a landmark city by shaping the conversation about its architecture

Kisho Kurokawa Dennis Sharp, 2002 Known as the Big Eye the Oita Stadium is one of the chosen venues for the next World Cup in 2002 It will be reused for the second stage of the Japan Inter Prefectural Athletic Competition in 2008 after the World Cup continuing to grow in the future to become a large scale all purpose sports park for Oita The whole site covers an area of 225 ha and has several facilities outside the main football stadium These include general fitness training and lodging centres a botanical pool two multipurpose athletic fields two rugby and soccer practise pitches a softball field tennis courts and other game areas The main stadium features an open track for athletic events as well as the football pitch It can also be used year round for public events aided by its retractable roof For soccer matches spectator seats are placed right up to the edge of the pitch to bring them close to the action To change over for track events a retractable seating system was developed The stadium sits elegantly on its site enhanced by the gentle curves of its spherical design The choice of the sphere Kurokawa says is an expression of abstract symbolism This spherical shape also enables the retractable portion to move along its curved surface The use of Teflon membrane panels with 25 percent light permeability obviates the need for artificial lighting during daylight hours In order for the pitch to get proper exposure to sunlight the elliptical roof opening runs along the north south axis A main arch with perpendicular horizontal sub members follows the elliptical shape of the roof opening Between the roof and the spectator seating below the surrounding mountains can be seen from a slender ventilation clearstorey set just below the roof line This slit of space is designed to create a feeling of openness inside the stadium Since the original design an idea emerged for a moving camera to be located on the main beam to deliver special dynamic images for television audiences around the world
