Weber, 2014-03-03 This essay collection focuses on the gendered dimensions of reality television in both the United States and Great Britain Through close readings of a wide range of reality programming from Finding Sarah and Sister Wives to Ghost Adventures and Deadliest Warrior the contributors think through questions of femininity and masculinity as they relate to the intersections of gender race class and sexuality They connect the genre's combination of real people and surreal experiences of authenticity and artifice to the production of identity and norms of citizenship the commodification of selfhood and the naturalization of regimes of power Whether assessing the Kardashian family brand portrayals of hoarders or big family programs such as 19 Kids and Counting the contributors analyze reality television as a relevant site for the production and performance of gender In the process they illuminate the larger neoliberal and postfeminist contexts in which reality TV is produced promoted watched and experienced Contributors David Greven Dana Heller Su Holmes Deborah Jermyn Misha Kavka Amanda Ann Klein Susan Lepselter Diane Negra Laurie Ouellette Gareth Palmer Kirsten Pike Maria Pramaggiore Kimberly Springer Rebecca Stephens Lindsay Steenberg Brenda R Weber The New American Reality Reynolds Farley, 1996-08-30 A fascinating and authoritative account of American social history since 1960 as viewed through the prism of government statistics Farley uses publicly available data straight forward methods and modest language to provide more information and insight about recent social trends than any other volume in print American Journal of Sociology A brilliant piece of work Farley is absolutely masterful at taking tens of thousands of national survey statistics and weaving from them a fascinating and beautifully illustrated tapestry of who we are Barry Bluestone Frank L Boyden Professor of Political Economy University of Massachusetts Boston The New American Reality presents a compelling portrait of an America strikingly different from what it was just forty years ago Gone

is the idealized vision of a two parent father supported Ozzie and Harriet society In its place is an America of varied races and ethnic backgrounds where families take on many forms and mothers frequently work outside the home Drawing on a definitive analysis of the past four U S censuses author Reynolds Farley reveals a country that offers new opportunities for a broader spectrum of people while at the same time generating frustration and apprehension for many who once thought their futures secure The trends that have so transformed the nation were kindled in the 1960s a watershed period during which many Americans redefined their attitudes toward the rights of women and blacks The New American Reality describes the activism federal policymaking and legal victories that eliminated overt racial and sexual discrimination But along with open doors came new challenges Divorce and out of wedlock births grew commonplace forcing more women to raise children alone and despite improved wages increasing their chances of falling into poverty Residential segregation inadequate schooling and a particularly high ratio of female headed families severely impaired the economic progress of African Americans many of whom were left behind in declining central cities as businesses migrated to suburbs A new generation of immigrants from many nations joined the ranks of those working to support families and improve their prospects and rapidly transformed the nation's ethnic composition In the 1970s unprecedented economic restructuring on a global scale created unexpected setbacks for the middle class The long era of postwar prosperity ended as the nation's dominant industry shifted from manufacturing to services competition from foreign producers increased interest rates rose and a new emphasis on technology and cost cutting created a demand for more sophisticated skills in the workplace The economic recovery of the 1980s generated greater prosperity for the well educated and highly skilled and created many low paying jobs but offered little to remedy the stagnant and declining wages of the middle class Income inequality became a defining feature in the economic life of America overall the rich got richer while the poor and middle class found it increasingly difficult to meet their financial demands The New American Reality reports some good news about America Our lives are longer and healthier the elderly are much better off than ever before consumer spending power has increased and minorities and women have many more opportunities But this book does not shy away from the significant problems facing large portions of the population and provides a valuable perspective on efforts to remedy them The New American Reality offers the information necessary to understand the critical trends affecting America today from how we earn a living to how and when we form families where we live and whether or not we will continue to prosper A Volume in the Russell Sage Foundation Census Series Teenage Sex and Pregnancy Mike A. Males, 2010-07-15 This detailed exhaustively documented account shows how and why just about everyone in today's teen pregnancy debate is wrong often disastrously so Teenage Sex and Pregnancy Modern Myths Unsexy Realities presents a unique view of its subject by analyzing the extensive myths and fears that surround discussion of teenage sex and pregnancy including their relationship to popular culture poverty adult sexual behaviors and anxieties toward the increasingly public roles of young women Award winning author Mike Males argues that

today's discussions rely largely on falsehoods and the suppression of crucial realities. His work details a new view of popular culture as a largely beneficial feature of teens' lives and presents a carefully documented analysis demolishing destructive myths about the new girl. Debunking popular arguments, he shows that the teen sex debate is mired in interest-group talking points that ignore difficult realities to advance politically attuned agendas. It's time, he writes, to modernize the discussion, recognizing that teens act in ways consistent with their interests, with the sexual behaviors of adults, and with the school and job opportunities afforded them.
