Shattered Pictures of Places and Cities in George Santayana's Autobiography Graziella Fantini, 2011-11-28 *Shattered Pictures of Places and Cities* se adentra por las páginas autobiográficas filosóficas y narrativas más relevantes de George Santayana discurriendo por sus viajes y geografías físicas en paralelo a sus viajes y geografías morales Es un intento de ir más allá de la reflexión entorno a los orígenes biográficos del filósofo de ahí que se recupere una indagación sobre su habitar el lenguaje y el arte Santayana

reconsidera los fundamentos del arte de la memoria clásica en su autobiografía para formular una nueva propuesta estética donde el arte y la vida se funden y se confunden estimulándose recíprocamente. Hila una filosofía del viaje y del lugar donde se privilegia una noción del habitar que ilumina nuestras condiciones en la vida y en el pensamiento y nuestra trágica estable inestabilidad en este mundo.

The Middle Works of John Dewey, 1899 - 1924 John Dewey, 2008 Volume 11 brings together all of Dewey's writings for 1918 and 1919. A Modern Language Association Committee on Scholarly Editions textual edition. Dewey's dominant theme in these pages is war and its aftermath. In the Introduction Oscar and Lilian Handlin discuss his philosophy within the historical context. The First World War slowly ground to its costly conclusion and the immensely more difficult task of making peace got painfully under way. The armistice that some expected would permit a return to normalcy opened instead upon a period of turbulence that agitated further a society already unsettled by preparations for battle and by debilitating conflict overseas. After spending the first half of 1918-19 on sabbatical from Columbia at the University of California, Dewey traveled to Japan and China where he lectured, toured and assessed. In his essays the relationship between the two nations. From Peking he reported the student revolt known as the May Fourth Movement. The forty items in this volume also include an analysis of Thomas Hobbes's philosophy, an affectionate commemorative tribute to Theodore Roosevelt, our Teddy, the syllabus for Dewey's lectures at the Imperial University in Tokyo which were later revised and published as *Reconstruction in Philosophy*, an exchange with former disciple Randolph Bourne about Friedrich Schlegel's *Man's*

Supreme Inheritance and central to Dewey's creed Philosophy and Democracy His involvement in a study of the Polish American community in Philadelphia resulting in an article two memoranda and a lengthy report is discussed in detail in the Introduction and in the Note on the Confidential Report of Conditions among the Poles in the United States Santayana the Philosopher Daniel Moreno, 2015-03-06 Regarding Santayana it has been claimed that he lacks a system while contradicting himself in outrageous ways An attentive analysis of his complete oeuvre however reveals something else entirely It is not easy to classify a thinker as a Platonic materialist an ironic nihilist a spiritual atheist and a conservative without political commitment but if one respects his own language one discerns an astonishing little known Santayana whose philosophical leitmotif consists in 1 detecting the numerous false steps logical and moral supplied by the imagination when it confuses things with the names that designate them or the world with the feelings that it provokes in the human animal these errors assume diverse faces pantheism moralism egotism subjectivism transcendentalism Platonism Puritanism and utopianism 2 avoiding these illusions in such a way as to keep the spiritual door open as a form of life to be lived out in an honest fashion 3 recognizing the natural origin of these temptations and asking oneself what moves humans to succumb imperceptibly to these mistakes at times tragic at others comical and what precautions one can take to remain cognizant of the deceitful leaps that can hijack one's life and 4 proposing as an alternative the radical distinction between essence and existence which leads him to distinguish four realms of being the realm of essence the realm of matter the realm of truth and the realm of spirit Essence as logical identity matter as contingent existence truth as frozen history and spirit as the flames that part from contingency and approximate the eternal An attempt has been made in this book to expand on and clarify these questions
