Silence and Sonic Possible Worlds Continuing the methodological juxtaposition of phenomenology and logic and writing from close sonic encounters each represents a fragment of listening to a variety of sound works to music the acoustic environment and to poetry to hear their possibilities and develop words for what appears impossible As fragments of writing they respond to ideas on geography and migration bring into play formless subjectivities and trans objective identities and practice collectivity and a sonic cosmopolitanism through the hearing of shared volumes They involve the unheard and the in between to contribute to current discussions on new materialism and perform vertical readings to reach the depth of sound
