Guide to Collective Biographies for Children and Young Adults Sue Barancik, 2005 Help middle and high school students find the books they need for school reports quickly and easily The author has indexed the lives and accomplishments of more than 5 700 notable men and women from ancient through modern times in this tool that will aid librarians media specialists and teachers with a student s search to find biographies written especially for their age group *Voices of Transgender Children in Early Childhood Education* Ashley L. Sullivan, Laurie L. Urraro, 2019-06-29 This volume explores transgender children and internalized body normalization in early childhood education settings steeped in critical methodologies including post structuralism queer theory and feminist approaches The book marries theory and praxis submitting to current and future teachers a text that not only presents authentic narratives about trans children in early childhood education but also analyzes the forces at work behind gender policing gender segregation and transphobic education policies As the struggles and triumphs of trans individuals have reached a watershed moment in the social fabric of the United States this text offers a snapshot into the lives of ten transgender people as they reflect on their earliest memories in the American educational system **Building an ESL Collection for Young Adults** Laura McCaffery, 1998-10-28 This annotated bibliography of more than 500 recommended books meets the needs of teachers and librarians for reading materials for young adults for whom English is a second language Laura McCaffery who has many years of experience with collection development of ESL materials for young adults has selected the best books on a variety of topics to meet curriculum and personal interest needs of young adults Most of the books selected were published between 1992 and 1998 The bibliography is organized by topic adventure mystery and suspense biographies career workplace life skills and parenting folktales myths poetry and classics ethnic diversity history and geography nature and science and sports Indexes by author subject title and ethnic group make searching easy Mainstreamed ESL students can use these books to better understand and make use of regular textbooks Special ESL classes can use the recommended books as part of regular instruction Most of the books recommended are for the intermediate or advanced beginner reading level in English but some very easy books are also included Most of the books are suitable for all learners from grades five through adult Each entry contains a complete bibliographical citation Fry Reading Level Interest Level Library of Congress subjects for cataloging and a 50 to 200 word annotation describing the book and how it can be used by the librarian or teacher who is working with patrons or students A list of distributors of print and nonprint ESL materials completes the work **Bank Job** Hilary Powell, Daniel Edelstyn, 2020-09-30 Art hacks life when two filmmakers launch a project to cancel more than 1m of high interest debt from their local community Bank Job is a white knuckle ride into the dark heart of our financial system in which filmmaker and artist duo Hilary Powell and Dan Edelstyn risk their sanity to buy up and abolish debt by printing their own money in a disused bank in Walthamstow London Tired of struggling in an economic system that leaves creative people on the fringes

the duo weave a different story both risky and empowering of self education and mutual action Behind the opaque language and defunct diagrams they find a system flawed by design but ripe for hacking This is the inspiring story of how they listen and act upon the widespread desire to change the system to meet the needs of many and not just the few And for those among us brave enough they show how we can do this too in our own communities one bank job at a time *Victor*

Rebellion and Violence in Islamic Law Khaled Abou El Fadl,2001-11-01 Khaled Abou El Fadl s book represents the first systematic examination of the idea and treatment of political resistance and rebellion in Islamic law Pre modern jurists produced an extensive and sophisticated discourse on the legality of rebellion and the treatment due to rebels under Islamic law The book examines the emergence and development of these discourses from the eighth to the fifteenth centuries and considers juristic responses to the various terror inducing strategies employed by rebels including assassination stealth attacks and rape The study demonstrates how Muslim jurists went about restructuring several competing doctrinal sources in order to construct a highly technical discourse on rebellion Indeed many of these rulings may have a profound influence on contemporary practices This is an important and challenging book which sheds light on the complexities of Islamic law and pre modern attitudes to dissidence and rebellion Annals of the American Academy of Political and Social Science ,1917
