Reborn Buildings:

Buildings Reborn Barbaralee Diamonstein, Barbaralee Diamonstein-Spielvogel, 1978 Before and after pictures of buildings which have been renovated for different uses from what they originally had with brief descriptions of the projects In alphabetical order by city **Building Adaptation** James Douglas, 2006 Introduction Feasibility Principles of Building Conversion Adaptive fuses Lateral extensions Vertical extensions Structural alterations Principles of refurbishment Further aspects of refurbishment Sustainable adaptation Implementation Appendices **Old Buildings, New Forms** Françoise Bollack, 2013-11-12 It is clear that working with historic structures is both more environmentally sustainable and cost effective than new architecture and construction and many believe that the best design occurs at the intersection of old and new Françoise Astorg Bollack presents 28 examples gathered in the United States and throughout Europe and the Middle East Some are well known Mass MOCA Market Santa Caterina in Barcelona Neues Museum in Berlin and others are almost anonymous But all demonstrate a unique and appropriate solution to the problem of adapting historic structures to contemporary uses This survey of contemporary additions to older buildings is an essential addition to the architectural literature I have always loved old buildings An old building is not an obstacle but instead a foundation for continued action Designing with them is an exhilarating enterprise adding to them grafting inserting knitting new pieces into the existing built fabric is endlessly stimulating Françoise Astorg Bollack *From Buildings and Loans to Bail-Outs* David L. Mason, 2004-07-05 For most Americans the savings and loan industry is defined by the fraud ineptitude and failures of the 1980s However these events overshadow a long history in which thrifts played a key role in helping thousands of households buy homes First appearing in the 1830s savings and loans then known as building and loans encourage their working class members to adhere to the principles of thrift and mutual co operation as a way to achieve the American Dream of home ownership This book traces the development of this industry from its origins as a movement of a loosely affiliated collection of institutions into a major element of America's financial markets It also analyses how diverse groups of Americans including women ethnic Americans and African Americans used thrifts to improve their lives and elevate their positions in society Finally the overall historical perspective sheds new light on the events of the 1980s and analyses the efforts to rehabilitate the industry in the 1990s **Rehabilitation of Historic Buildings** Frederic Ellsworth Kley, 1980 **Reborn Buildings** Arian Mostafaei, 2003 The lack of space in big cities and the desire to preserve old architecture great value help to explain the continuing desire to retrieve spaces of the past as locations for new dwellings The adaptation of the conditions of the old building to present day living needs demands delicate technical and documentary work by the architect This volume explores a variety of ideas or reconditioning historical spaces for domestic use complete with plans and pictures of the original state the development of the project and the final result in which a suggestive fertile dialogue is struck between past and present *Building Lives* Neil Harris, 1999-01-01 Drawing on sources including Masonic manuals tourist guidebooks and religious

texts this illustrated study explores the rites of building passage over the past 150 years The author suggests that architecture is a performing art as well as a fine art
