Reborn In The Light Life After Near Death Experiences

Dr. Penny Sartori

Reborn In The Light Life After Near Death Experiences:

Reborn in the Light Cherie Sutherland, 1995 Through interviews with 400 near death survivors this fascinating book examines the dramatic common experiences of those who have journeyed to the edge of the after life and explores the ways in which their lives and beliefs have forever been altered Previous publisher Transworld Australia **The Science of**

Near-Death Experiences John C. Hagan, 2017-01-30 What happens to consciousness during the act of dying The most compelling answers come from people who almost die and later recall events that occurred while lifesaving resuscitation emergency care or surgery was performed These events are now called near death experiences NDEs As medical and surgical skills improve innovative procedures can bring back patients who have traveled farther on the path to death than at any other time in history Physicians and healthcare professionals must learn how to appropriately treat patients who report an NDE It is estimated that more than 10 million people in the United States have experienced an NDE Hagan and the contributors to this volume engage in evidence based research on near death experiences and include physicians who themselves have undergone a near death experience This book establishes a new paradigm for NDEs *The Handbook of Near-Death Experiences* Bruce Greyson, Janice Miner Holden, Debbie James, 2009-06-22 A team of international experts presents the history recent developments and controversies in the intriguing study of near death experience Experts from around the world share the history and current state of near death experience NDE knowledge They explore controversies in the field offer stories from their research and express their hopes for the future of investigation into this fascinating phenomenon As modern medical techniques for resuscitation advance NDEs are more frequently reported These include more than the popular notions of moving through a tunnel or seeing a light They also include people once revived knowing things their knowledge of which can't currently be explained As *The Handbook of Near Death Experiences Thirty Years of Investigation* makes clear great controversy exists in the medical and psychological fields concerning NDEs Are they caused by physiological changes in the brain or are they biological reactions to oxygen loss or impending death Are they a product of changing states of consciousness Or are they caused by something else altogether All of these ideas and more are discussed in this unique and comprehensive volume *Wisdom of Near-Death Experiences* Dr. Penny Sartori, 2014-03-25 Drawing on a 5 year clinical study of near death experiences a doctor presents riveting patient stories to explore how NDEs can empower us and society as a whole By trying to pathologize NDEs are we missing out on what they can tell us about life Dr Penny Sartori is a registered nurse who began researching Near Death Experiences NDEs in 1995 after one of her long term intensive care patients begged her to let him die in peace Inspired by this encounter she went on to research NDEs in a PhD program where she learned profound spiritual lessons and made startling discoveries that she now shares in *The Wisdom of Near Death Experiences* During her academic work Dr Sartori studied three samples of ICU patients during a five year period Here she recounts the eye opening stories of those patients who experienced NDEs and out of body experiences OBEs

In one group as many as 18% of patients experienced an NDE though Patient 10 stood out among the others After being unresponsive he awoke to report he had experienced an OBE He was able to describe what happened in the hospital room while he was unconscious and claimed he met not only his deceased father but a Jesus like figure Most shocking of all he had regained the use of his hand which had been paralyzed since birth When talking about the biggest takeaways from her research Dr Sartori shares how her findings have made her question the common belief that the brain gives rise to consciousness Most importantly she has gained a deeper appreciation for death an experience she now views with less fear and anxiety In addition to detailing dozens of case studies The Wisdom of Near Death Experiences also discusses childhood NDEs the differences in NDEs among different cultures and the after effects of NDEs

Religion, Spirituality and the Near-Death Experience Mark Fox,2003-12-16 Through the Valley of the Shadow of Death is a dramatic and sustained response to decades of research into near death experiences NDEs the first to credibly bridge the gap between the competing factions of science and spirituality

A Spiritual Hypothesis Daniel Punzak,2017-04-06 Traditional Western religion explains that each human has a spiritual aspect called a soul However several passages in the Bible allude to humans having a soul and a spirit Dan has explored this idea and found numerous modern psychological findings that support this notion Shamanism and some Eastern religious concepts also support this idea Diverse concepts such as creativity and mental illness can be explained by the idea that two spiritual forms are in each human

Near-Death Experiences Ornella Corazza,2008-06-30 Near death experiences fascinate everyone from theologians to sociologists and neuroscientists This groundbreaking book introduces the phenomenon of NDEs their personal impact and the dominant scientific explanations Taking a strikingly original cross cultural approach and incorporating new medical research it combines new theories of mind and body with contemporary research into how the brain functions Ornella Corazza analyses dualist models of mind and body discussing the main features of NDEs as reported by many people who have experienced them She studies the use of ketamine to reveal how characteristics of NDEs can be chemically induced without being close to death This evidence challenges the conventional survivalist hypothesis according to which the near death experience is a proof of the existence of an afterlife This remarkable book concludes that we need to move towards a more integrated view of embodiment in order to understand what human life is and also what it can be Ornella Corazza is a NDE researcher at the School of Oriental and African Studies SOAS University of London In 2004 5 she was a Member of the 21st Century Centre of Excellence COE Program on the Construction of Death and Life Studies at the University of Tokyo

The Rise and Fall of the Afterlife Jan N. Bremmer,2003-09-02 Belief in the afterlife is still very much alive in Western civilisation even though the truth of its existence is no longer universally accepted Surprisingly however heaven hell and the immortal soul were all ideas which arrived relatively late in the ancient world Originally Greece and Israel the cultures that gave us Christianity had only the vaguest ideas of an afterlife So where did these concepts come from and why did they develop In this fascinating learned but

highly readable book Jan N Bremmer one of the foremost authorities on ancient religion takes a fresh look at the major developments in the Western imagination of the afterlife from the ancient Greeks to the modern near death experience

Lessons from the Light Kenneth Ring, Evelyn Elsaesser, 2006-09-01 While providing many accounts of near death experiences NDEs from men women and children of all ages and backgrounds *Lessons from the Light* is much more than just an inspiring collection of NDEs In *Lessons* near death expert Kenneth Ring extracts the pure gold of the NDE and with a beautiful balance of sound research and human insight reveals the practical wisdom held within these experiences As Stanley Krippner states In this remarkable book Ring presents evidence that merely learning about the near death experience has similar positive effects to those reported by people who actually have had near death experiences Kenneth Ring is one of the few authors whose gifts include the capacity to transform their readers lives

The Gifts of Near-Death Experiences

Dennis Linn, Sheila Fabricant Linn, Matthew Linn, 2016-05-01 Prepare to immerse yourself in accounts of real near death experiences and discover the wisdom they have to offer you Near death experiences NDEs are common well documented and similar across cultures throughout the world Current estimates are that between four and fifteen percent of the world s population have had an NDE Some of the fascination with NDEs comes from the fact that they often result in great leaps in personal growth These leaps are characterized by the loss of the fear of death the healing of deep hurts an increase in self esteem and compassion for others a sense of union with all things and a clearer sense of how to fulfill one s purpose in life This is a book that teaches readers how to reap the benefits of NDEs without having to experience trauma In the course of their many workshops around the world the authors have discovered that when one immerses oneself in accounts of NDEs one can experience love hope healing and a sense of purpose This is the only book that systematically encourages the reader to create a spiritual and psychological healing practice based on NDEs Each chapter includes an account of a fascinating NDE followed by a series of questions meditations exercises and video links The reader is encouraged to contemplate these stories and their own lives It is truly a profound guide to both living and dying Praise for *The Gifts of Near Death Experiences* A fresh and exciting perspective to understanding near death experiences Everyone can benefit from learning the wisdom so clearly and eloquently expressed in this book With each turn of the page you will find a treasure trove of insights inspiration and practical pointers that will really work in your life This outstanding book is expertly written remarkably easy to read and enthusiastically recommended Jeffrey Long M D author of the New York Times bestselling *Evidence of the Afterlife The Science of Near Death Experiences* The Linns have written a book that is both inspirational and practical They provide wise and gentle wisdom that lead readers into a place of growth and healing Richard Rohr O F M author of *Falling Upward*
