

Recasting East Germany

SOCIAL
TRANSFORMATION
AFTER THE GDR

Edited by
CHRIS FLOCKTON
and
EVA KOLINSKY

Recasting East Germany

Eric Langenbacher

Recasting East Germany:

Recasting East Germany Chris Flockton, Eva Kolinsky, 2012-11-12 The transformation of east Germany since unification has wrought vast changes in the economy and in society and left deep scars as the types of social protection offered by the centralised socialism of the previous regime gave way to uncertainties and individualised life chances Social Transformation in Eastern Germany investigates the deep economic and social processes which east Germany has undergone highlighting the restructuring the social impacts and the stresses of adjustment experienced by key social groups whose workplace and social context has been recast almost out of recognition since 1990 *Recasting East Germany* Chris Flockton, Eva Kolinsky, 2012-11-12 The transformation of east Germany since unification has wrought vast changes in the economy and in society and left deep scars as the types of social protection offered by the centralised socialism of the previous regime gave way to uncertainties and individualised life chances Social Transformation in Eastern Germany investigates the deep economic and social processes which east Germany has undergone highlighting the restructuring the social impacts and the stresses of adjustment experienced by key social groups whose workplace and social context has been recast almost out of recognition since 1990 Special Issue on Recasting East Germany: Social Transformation After the GDR Christopher

Flockton, Eva Kolinsky, 1998 **East German Distinctiveness in a Unified Germany** Jonathan Grix, P Cooke, 2003-02-28 This book explores the nature of the dramatic growth in a distinct sense of East German identity in the years since the events that led to formal unification in 1990 While it is problematic to see East Germanness as a singular and homogenous identity it can be perceived as a distinctive phenomenon and a level of identification that exists alongside local regional and national identities The essays in this volume hope to challenge the commonly held misconception that East German regional identity is a problem that needs to be overcome in the process of unification Through analyses of the social political and cultural behaviour of East Germans and their perception of their own place in German society this volume makes a complex and nuanced contribution to discussions on German national identity and the unification process **State and Minorities in**

Communist East Germany Mike Dennis, Norman LaPorte, 2011-08-01 Based on interviews and the voluminous materials in the archives of the SED the Stasi and central and regional authorities this volume focuses on several contrasting minorities Jehovah's Witnesses Jews guest workers from Vietnam and Mozambique football fans punks and skinheads and their interaction with state and party bodies during Erich Honecker's rule over the communist system It explores how they were able to resist persecution and surveillance by instruments of the state thus illustrating the limits on the power of the East German dictatorship and shedding light on the notion of authority as social practice *Antifascism After Hitler* Catherine Plum, 2015-02-20 Antifascism After Hitler investigates the antifascist stories memory sites and youth reception that were critical to the success of political education in East German schools and extracurricular activities As the German Democratic Republic GDR promoted national identity and socialist consciousness two of the most potent historical narratives to permeate

youth education became tales of communist resisters who fought against fascism and the heroic deeds of the Red Army in World War II. These stories and iconic images illustrate the message that was presented to school age children and adolescents in stages as they advanced through school and participated in the official communist youth organizations and other activities. This text delivers the first comprehensive study of youth antifascism in the GDR extending scholarship beyond the level of the state to consider the everyday contributions of local institutions and youth mentors responsible for conveying stories and commemorative practices to generations born during WWII and after the defeat of fascism. While the government sought to use educators and former resistance fighters as ideological shock troops it could not completely dictate how these stories would be told with memory intermediaries altering at times the narrative and message. Using a variety of primary sources including oral history interviews the author also assesses how students viewed antifascism with reactions ranging from strong identification to indifference and dissent. Antifascist education and commemoration were never simply state prescribed and were not as participation less as some scholars and contemporary observers claim even as educators fought a losing battle to maintain enthusiasm.

Recasting West German Elites Michael R. Hayse, 2003-11-01 The rapid shift of German elite groups political loyalties away from Nazism and toward support of the fledgling democracy of the Federal Republic in spite of the continuity of personnel and professional structures has surprised many scholars of postwar Germany. The key Hayse argues lies in the peculiar and paradoxical legacy of these groups evasive selective memory by which they cast themselves as victims of the Third Reich rather than its erstwhile supporters. The avoidance of responsibility for the crimes and excesses of the Third Reich created a need to demonstrate democratic behavior in the post war public sphere. Ultimately this self imposed pressure while based on a falsified selective group memory of the recent past was more important in the long term than the Allies stringent social change policies.

The German Polity Eric Langenbacher, 2021-07-29 This thoroughly revised and updated edition provides a comprehensive introduction to contemporary Germany one of the world's foremost economic and political powers. During a series of profound crises over the last decade including migration challenges Brexit and the Covid 19 pandemic Germany has emerged as the undisputed leader of the European Union. One of the world's strongest economies it exports goods services and ideas around the world. In foreign policy it has taken on a more prominent role especially with its pursuit of soft power. Yet as adept as German policy making has been the challenges have produced strains that reveal the limits of German influence. Moreover after sixteen years in power Chancellor Angela Merkel will retire and new leadership will guide the country through the 2020s. Looking back Eric Langenbacher traces the country's transformation since the seminal turning points of 1945 after World War II and 1990 after reunification. Looking to the present the author explains and assesses its major institutions actors and issues. Looking forward he explores the looming economic security and demographic challenges Germany must address in the years to come.

The PDS - A symbol of eastern German identity? Adrian Webb, 2009-03-26 Die Linke the Left is now

Germany's third largest political party and the fourth largest political grouping in the Bundestag Germany's parliament Die Linke however is the result of a fusion in June 2007 between the left wing of the German social democratic party SPD and the Partei des demokratischen Sozialismus PDS the successor to East Germany's former effectively Communist ruling party the SED In practice the PDS contributed 60 000 of the new party's 72 000 members making Die Linke an essentially eastern German party Moreover the PDS had been unique in enjoying a level of electoral success denied to other Communist successor parties which had not turned themselves into mainstream social democratic parties within the new liberal democratic order This book employing the period 2001-03 for its detailed analysis suggests that this uniqueness is best understood as either an expression of eastern German national sentiment or as deriving from a reinterpretation of Marxism attuned to the interests of a democratic twenty first century society and the book explores these alternative understandings in turn Noting both the historic distinctiveness of German capitalism and the contradictions within German communism it concludes that the PDS now fused in Die Linke remains nourished by the particularism of eastern Germany

Continuity and Change in German Politics Stephen Padgett, Thomas Poguntke, 2002 Over three decades Gordon Smith has written authoritatively and with style on almost every aspect of German politics In this volume leading UK and German scholars use themes from his work in an examination of the evolution of German policy in the face of socio economic change globalisation European integration and the domestic upheaval of unification

Thank you totally much for downloading **Recasting East Germany**. Most likely you have knowledge that, people have look numerous time for their favorite books subsequently this Recasting East Germany, but end occurring in harmful downloads.

Rather than enjoying a fine ebook in imitation of a mug of coffee in the afternoon, on the other hand they juggled in the same way as some harmful virus inside their computer. **Recasting East Germany** is nearby in our digital library an online access to it is set as public correspondingly you can download it instantly. Our digital library saves in multiple countries, allowing you to acquire the most less latency period to download any of our books as soon as this one. Merely said, the Recasting East Germany is universally compatible similar to any devices to read.
