Recent Social Trends In Bulgaria 1960 1995:

Recent Social Trends in Bulgaria, 1960-1995 Nikolai Genov, Anna Krasteva, 2001-01-01 The introduction by Nikolai Genov looks at the challenges posed by two transformations the experiment with communism which ended in failure and the current transition to a market economy and pluralist politics Genov concludes that the major reason for Bulgaria's critical situation is the powerlessness of its state institutions Considering life style fertility leisure and consumption inequality religion economic institutions ethnicity norms of conduct and family as well as other trends *Recent Social Trends in Bulgaria 1960-1995* is the first comprehensive presentation of the major transformations that characterize Bulgaria at the turn of the century The contributors not only consider a broad range of social phenomena but provide an in depth analysis of social change This national profile provides more data supporting the hypothesis of diversification rather than convergence in modern societies a hypothesis proposed by the Comparative Charting of Social Change group after documenting social change in many countries

Recent Social Trends in Canada, 1960-2000 Lance W. Roberts, 2005 Canadian society has changed dramatically since 1960 This work captures the scope and range of these changes through a systematic documentation of seventy eight social trends The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values In contrast to many recent works and journalistic reports *Recent Social Trends in Canada* concentrates on the trajectory of change rather than on current events It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context Comparable volumes in the McGill Queen's Comparative Charting of Social Change series describe similar tendencies in the United States Quebec France Germany Italy Greece Russia and Bulgaria making it possible to situate the Canadian experience in a global context

Recent Social Trends in France, 1960-1990 Michel Forsé, International Research Group on the Comparative Charting of Social Change in Advanced Industrial Societies, 1993 Over the three decades from 1960 to 1990 French society underwent a spectacular transformation due to the baby boom which was particularly broad based and prolonged in France and caused the population to climb by a full one third At the same time the French economy expanded and the pace of modernization picked up with the result that the wealth of the French quadrupled in a single generation The turning point between the reconstruction and development period and the period of profound social change appears to have been 1965 The baby boom was over by then and the production system was shifting in orientation No longer dominated by the growth of basic industries production was now starting to focus on consumer goods and services

Recent Social Trends in Greece, 1960-2000 Dimitris Charalambis, Laura Maratou-Alipranti, Andromachi Hadjiyanni, 2004-02-25 The newest volume in the Comparative Charting of Social Change series highlights the main elements of demographic social political and economic development in Greece

during the period 1960-2000. Based on a systematic analysis of available information and data, this volume provides an overview of Greece's socio-economic profile, which changed significantly during the studied period. The collapse of the dictatorship in 1974 and Greece's entry into the European Union (EU) in 1980 have led to a consolidation of democratic institutions and the improvement of living standards. During the 1960s and 1970s, the country experienced high rates of economic development and relatively low unemployment rates. However, this increase in economic development has slowed since the early 1980s, and the unemployment rate has risen, particularly among young people. Consistent with recent social trends in other Western societies, Greek society has become more tolerant and permissive, with more diverse and flexible moral norms. However, the prevailing family model remains traditional, and the Greek Orthodox Church continues to have a strong influence on many aspects of Greek society, including social, political, and cultural life. The organization of work also follows traditional patterns, despite the introduction of new and flexible forms of employment. Female participation in the labour market remains relatively low, despite legislation and regulations that promote equality of opportunities between the sexes. Consistent with recent social trends in other Western societies, Greece's population is aging, and the birth rate has stabilized at a relatively low level.

Leviathan Transformed Theodore Caplow, 2002-01-16. The authors, using these goals as a checklist, found that each of the seven states performs well in some areas and badly in others. They discovered that all states approached these goals in a style shaped by their own history and, in particular, by how they have been affected by the troubles of the twentieth century. Their investigations offer a new, informative way of looking at these nation-states and detail the social and political conditions in each state. Contributors include Theodore Caplow, Salustiano Del Campo (Royal Academy of Political and Social Science, Madrid), Nikolai Genov (Bulgaria Academy of Sciences), Karl Otto Hondrich (Goethe University), Simon Langlois (Université de Laval), Alberto Martinelli (University of Milan), and Henri Mendras (OFCE, Paris).

Changing Structures of Inequality Yannick Lemel, Heinz-Herbert Noll, 2002. The international sociological community has engaged recently in a controversial discussion on social inequality. There is a vigorous debate on whether the traditional concepts of social class and social stratification are still useful. Some researchers argue that social classes still offer a key explanation to social

inequalities while others challenge the long standing tradition of class analysis New approaches have been proposed to describe recent social changes in the stratification system vanishing middle class two thirds societies cosmographic inequality and classless society among others *Multicultural Variations* Lance W. Roberts, Barry Ferguson, Mathias Bös, 2013-02-01 Contrary to mid twentieth century predictions ethnic pluralism has increased dramatically in North America and significantly in Europe Neither the post 9 11 emphasis on international border security nor anti immigration and anti multiculturalism movements have affected the fifty year trend of increasing labour mobility and sustained levels of migration The ethnic pluralism accompanying this powerful trend has fueled academic research and public debate Contributors report on and develop a conceptualization of ethnic social incorporation and multiculturalism in Canada the United States Germany Greece Bulgaria and Italy This group of countries displays a remarkable variety of both ethnic diversity and public policy responses to ethnic social incorporation over the past four decades It includes two countries Canada and the United States built upon very large scale immigration over the course of more than a century two countries Greece and Italy which until recently were characterized by large scale emigration but now are grappling with immigration one country Bulgaria that was until the 1990s insulated from extensive migration and faces a demographic slump and one Germany that has experimented with isolating temporary populations but is now addressing the responsibilities of permanent immigration *Multicultural Variations* includes national reports describing each of the six countries under investigation and is book ended by introductory and concluding chapters that present a new understanding of and synthesis on multiculturalism that is distinct from either enthusiastic support or ideological critiques Contributors include Mathias Bös Philipps Universität Marburg Germany Antonio Chiesi Università degli Studi di Milano Italy Jason Edgerton University of Manitoba Canada Barry Ferguson University of Manitoba Canada Nikolai Genov Freie Universität Berlin Germany Louis Hicks St Mary's College of Maryland USA Paul Kingston University of Virginia USA Laura Maratou Alipranti National Centre for Social Research Athens Greece Lance W Roberts University of Manitoba Canada Sonia Stefanizzi Università degli Studi di Milano Bicocca Italy and Susanne von Below Johann Wolfgang Goethe Universität Frankfurt Germany *Historical Dictionary of Bulgaria* Raymond Detrez, 2014-12-18 Bulgaria is a country of extraordinary beauty with high wild mountains and gentle valleys and with picturesque cities and idyllic villages It's bordered by Romania Serbia Macedonia Greece Turkey and the Black Sea After many years of communist rule Bulgaria adopted a democratic constitution and began the process of moving toward political democracy and a market economy while combating inflation unemployment corruption and crime The country joined NATO in 2004 and the EU in 2007 This third edition of *Historical Dictionary of Bulgaria* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Bulgaria *Unequal under Socialism* Miglena S.

the banning of communist officials and secret political police officers and informers from post communist political ordinary citizens access to the remaining archives compiled on them by the communist secret police as well as trials and court proceedings launched against former communist officials and secret agents for their human rights trespasses Individual chapters explore the progress of transitional justice in Germany the Czech Republic Slovakia Poland Hungary Romania Bulgaria Albania Slovenia and the successor states of the former Soviet Union The chapters explain why different countries have employed different models to come to terms with their communist past assess each country's relative successes and failures and probe the efficacy of country specific legislation to attain the transitional justice goals for which it was developed The book draws together the country cases into a comprehensive comparative analysis of the determinants of post communist transitional justice that will be relevant not only to scholars of post communist transition but also to anyone interested in transitional justice in other contexts Ethnic Cleansing During the Cold War Tomasz Kamusella, 2018-07-17

In mid 1989 the Bulgarian communist regime seeking to prop up its legitimacy played the ethnonational card by expelling 360 000 Turks and Muslims across the Iron Curtain to neighboring Turkey It was the single largest ethnic cleansing during the Cold War in Europe after the wrapping up of the postwar expulsions population transfers of ethnic Germans from Central Europe in the latter half of the 1940s Furthermore this expulsion of Turks and Muslims from Bulgaria was the sole unilateral act of ethnic cleansing that breached the Iron Curtain The 1989 ethnic cleansing was followed by an unprecedented return of almost half of the expellees after the collapse of the Bulgarian communist regime The return which partially reversed the effects of this ethnic cleansing was the first ever of its kind in history Despite the unprecedented character of this 1989 expulsion and the subsequent return not a single research article let alone a monograph has been devoted to these momentous developments yet However the tragic events shape today's Bulgaria while the persisting attempts to suppress the remembrance of the 1989 expulsion continue sharply dividing the country's inhabitants Without remembering about this ethnic cleansing it is impossible to explain the fall of the communist system in Bulgaria and the origins of ethnic cleansing during the Yugoslav wars Faltering Yugoslavia's future ethnic cleansers took a good note that neither Moscow nor Washington intervened in neighboring Bulgaria to stop the 1989 expulsion which in light of international law was then still the legal instrument of population transfer The as yet unhealed wound of the 1989 ethnic cleansing negatively affects the Bulgaria's relations with Turkey and the European Union It seems that the only way out of this debilitating conundrum is establishing a truth and reconciliation commission that at long last would ensure transitional justice for all Bulgarians irrespective of language religion or ethnicity **Balkan Smoke** Mary C. Neuburger, 2012-10-05 In *Balkan Smoke* Mary Neuburger leads readers along the Bulgarian Ottoman caravan routes and into the coffeehouses of Istanbul and Sofia She reveals how a remote country was drawn into global economic networks through tobacco production and consumption and in the process became modern In writing the life of tobacco in Bulgaria from the late Ottoman period through the years of

Communist rule Neuburger gives us much more than the cultural history of a commodity she provides a fresh perspective on the genesis of modern Bulgaria itself The tobacco trade comes to shape most of Bulgaria s international relations it drew Bulgaria into its fateful alliance with Nazi Germany and in the postwar period Bulgaria was the primary supplier of smokes the famed Bulgarian Gold for the USSR and its satellites By the late 1960s Bulgaria was the number one exporter of tobacco in the world with roughly one eighth of its population involved in production Through the pages of this book we visit the places where tobacco is grown and meet the merchants the workers and the peasant growers most of whom are Muslim by the postwar period Along the way we learn how smoking and anti smoking impulses influenced perceptions of luxury and necessity questions of novelty imitation value taste and gender based respectability While the scope is often global Neuburger also explores the politics of tobacco within Bulgaria Among the book s surprises are the ways in which conflicts over the tobacco industry and smoking help to clarify the forbidding quagmire of Bulgarian politics

National, Regional and Minority Languages in Europe Gerhard Stickel, 2011 The European linguistic diversity goes far beyond the official national languages of the present 27 member states of the European Union In every country several languages of smaller or larger groups of speakers are used besides the official language or the languages of the majority population These languages are autochthonous languages that have been used for a long time in the individual country as well as allochthonous languages of different groups of migrants and their descendants The sometimes complicated relations between national regional and minority languages within various countries are discussed in this volume Besides reports on several countries the general sociolinguistic and legal conditions are dealt with in overview contributions In addition the Dublin Declaration on the relationship between official languages and regional and minority languages in Europe is presented in 24 languages
