ENGLISH DESCRIPTION The Baby Led Weaning or BLW is a feeding method for babies; it helps you introduce them to solid foods and independent eating starting at six months old. At that age, your baby can start eating solid foods to supplement the nutrients in breast milk or formula. Baby Led Weaning proposes to do away with purees and porridge and offer the baby solid foods cooked the proper way so that they can feed themselves. Your baby will discover new flavors, colors, textures, and smells sitting at the table along with the family, and they will also learn to use plasticware at their own pace. Not only will they improve chewing and hand-eye coordination, but they will also control their solid food consumption by self-feeding and identify when they feel full. No wonder the baby-led weaning is the most common method for weaning in northern Europe. With this book, you have the perfect guide to help your child discover food in a fun way as they learn to have meals together with the family. In addition, you have me. I offer 70 recipes for lunch, dinners, and desserts, and I am here to answer all of your questions about the baby-led weaning method. I guarantee you will be greatly surprised by the results. Do you dare to try it?
