Gardner Molina, 2025-05-01 The unity or uniformity of the Chinese Australian community has been frequently referenced in many recent political popular and even academic discussions The oneness of the community is often described as latent and inevitable if not already a fact Yet many Chinese Australians have also aspirationally used collective terms to refer to themselves there have been perennial calls to unite and advance the community or have it speak with one voice But has a united or unitary Chinese Australian community ever actually existed If so would a united community be a means to an end or an end in itself And where would this community sit in contemporary multicultural Australia I Am You Are We Are attempts to answer to these questions it is a history of more than a dozen Chinese Australian community organisations from across the country over five decades that draws on the English and Chinese language materials these organisations have produced over the years as well as interviews with ten past and present leaders Instead of a single community the evidence demonstrates the existence of many diverse Chinese Australian communities Consequently the book advances two ideas Chinese Australian unity presents itself as a chimera that inhabits the social space shared by Chinese Australians and has only ever been momentarily or partially grasped by community organisations Imagining the Chinese Australian community has nonetheless produced real world outcomes the most prominent being a highly participatory style of Australian multiculturalism These two ideas are woven through six moments in recent history that have been highly decisive for Chinese Australian communities I Am You Are We Are conveys Chinese Australian history in clear and evocative prose while remaining academically authoritative and socially conscious The result is a work that dismantles the prevailing myth of a single Chinese bloc to rebuild an appreciation of multiculturalism in Australia along with specific contributions made by Chinese Australian communities

Forum for Social Economics      **The Transition to Socialism in China (Routledge Revivals)** Mark Selden, Victor Lippit, 2016-07-01 First published in 1982 The dramatic changes in policy and theory following the death of Chairman Mao in 1976 and the publication of the most extensive official and unofficial data on the Chinese economy and society in twenty years both necessitated and made possible a thorough reconsideration of the full range of issues pertaining to the political and economic trajectory of the People's Republic in its first three decades The contributors to this volume initiated a comprehensive effort to address fundamental problems of China's socialist development and to reassess earlier perspectives and conclusions      Contemporary China Review [2024 Spring/Summer Issue] Journal Editors, 2024-07-25 As the Year 2024 has already passed half I sincerely hope and pray for world peace and for people to live and work in peace But looking ahead I believe the future will still not be peaceful The Russian Ukrainian war is still raging and the people are suffering The Israeli Hamas conflict seems to have no signs of stopping and the US election is surging As I said before the three major divisions facing the world are presented at the same time this year the Russian Ukrainian war is a major division between the democratic and dictatorial camps the US election is a major left right division and the Israeli Hamas conflict has surpassed the left right division and the democracy dictatorship division Is the world heading for doomsday We wait and see      **Social Ties, Resources, and Migrant Labor Contention in Contemporary China** Jeffrey Becker, 2014-07-22 The growth of China's internal migrant labor population is one of the most important issues emerging from the Hu Jintao regime As China continues to undergo an urbanization process as profound as any in modern history there is little doubt migrant workers are affecting economic and political decision making at the central and local levels Relying on interviews with over 250 Chinese migrant workers peasant farmers who have moved to the cities in search of work as well as interviews with Chinese labor activists this book explores the evolution of migrant labor protest in China over the past three decades It examines how migrant workers engage in protest today and how they choose from available protest strategies While past studies of Chinese rural to urban migration have long acknowledged the importance of traditional rural ties between family members this book demonstrates how new urban ties help migrant workers learn of new protest options navigate the legal system connect with others sharing similar disputes and identify additional resources The book also examines the growth and importance of Chinese migrant labor rights organizations and the role of information communication technology in migrant labor protest activity The findings presented here shed new light on Chinese state society relations and economic development Moreover the findings from this book which demonstrate how economic reforms create opportunities for protest and how migrant workers take advantages of these opportunities have implications for our understanding of contentious politics in other authoritarian states undergoing similar economic and demographic transition      **Discourse and Socio-political Transformations in Contemporary China** Paul Chilton, Hailong Tian, Ruth Wodak, 2012-09-05 China's opening up to the West its extraordinary economic rise and the subsequent internal and global issues are an object of huge interest and

concern Discourse and Socio political Transformations in Contemporary China focuses on one aspect of the contemporary Chinese phenomenon one that is so obvious that it is generally ignored in the mainstream academic departments that politics society and transformation are the product of myriad collective linguistic interchanges some stabilized some competing some agonistic some new and emerging As an outcome of dialogue between Chinese and Western scholars the present volume contains case studies that offer a survey of the discourse aspect of Chinese society in social stratification government service policy consultancy higher education foreign policy and TV The conceptual reflections on discourse and critique in different cultures offer new considerations for discourse analysis including critical discourse analysis in the context of Chinese society today This volume was originally published as a special issue of Journal of Language and Politics 9 4 2010
