Romanticism and Children's Literature in Nineteenth-Century England James Holt McGavran, 2009-10 These essays document and examine the transformation of children's literature during the Romantic period and trace Romanticism's influence on Victorian children's literature using a variety of critical approaches including neo-historicist, feminist, mythic, reader response and formalist.

Literature and the Child James Holt McGavran, James Holt McGavran, 1998-04 The Romantic myth of childhood as a transhistorical holy time of innocence and spirituality uncorrupted by the adult world has been subjected in recent years to increasingly serious interrogation. Was there ever really a time when mythic ideals were simple, pure and uncomplicated? The contributors to this book contend, although in widely differing ways and not always approvingly, that our culture is indeed still pervaded in this postmodern moment of the very late twentieth century by the Romantic conception of childhood which first emerged two hundred years ago. In the wake of the French Revolution and the Industrial Revolution, western Europe experienced another *fin de siècle* characterized by overwhelming material and institutional change and instability. By historicizing the specific political, social and economic conflicts at work within the notion of Romantic childhood, the essayists in *Literature and the Child* show us how little these forces have changed over time and how enriching and empowering they can still be for children and their parents. In the first section, *Romanticism Continued and Contested*, Alan Richardson and Mitzi Myers question the origins and ends of Romantic childhood. In *Romantic Ironies: Postmodern Texts*, Dieter Petzold, Richard Flynn and James McGavran argue that postmodern texts for both children and adults perpetuate the Romantic complexities of childhood. Next, in *The Commerce of Children's Books*, Anne Lundin and Paula Connolly study the production and marketing of children's classics. Finally, in *Romantic Ideas in Cultural Confrontations*, William Scheick and Teya Rosenberg investigate interactions of Romantic myths with those of other cultural systems.

Literature, Education, and Romanticism Alan Richardson, 1994-11-10 In this wide-ranging and richly detailed book, Alan Richardson addresses many issues in literary and educational history never before examined together. The result is an unprecedented study of how transformations in schooling and literacy in Britain between 1780 and 1832 helped shape the provision of literature as we know it. In chapters focused on such topics as definitions of childhood, educational methods and institutions, children's literature, female education and publishing ventures aimed at working-class adults, Richardson demonstrates how literary genres from fairy tales to epic poems were enlisted in an ambitious program for transforming social relations through reading and education. Themes include literary developments such as the domestic novel, a sanitized and age-stratified literature for children, the invention of popular literature and the constitution of literature itself in the modern sense. Romantic texts by Wordsworth, Shelley, Blake and Yearsley, among others, are reinterpreted in the light of the complex historical and social issues which inform them and which they in turn critically address.

The Cambridge Companion to Fiction in the Romantic Period Richard Maxwell, Katie Trumpener, 2008-02-21 While poetry has been the genre most closely associated with the Romantic period, the novel of the late eighteenth and early nineteenth centuries has attracted many more readers and students in recent years. Its canon has been widened to include less well known authors alongside Jane Austen, Walter Scott, Maria Edgeworth and Thomas Love Peacock. Over the last generation, especially, a remarkable range of popular works from the period have been re-discovered and reread intensively. This Companion offers an overview of British fiction written between roughly the mid 1760s and the early 1830s and is an ideal guide to the major authors, historical and cultural contexts and later critical reception. The contributors to this volume represent the most up to date directions in scholarship charting the ways in which the period's social, political and intellectual redefinitions created new fictional subjects, forms and audiences.

History and the Construction of the Child in Early British Children's Literature Jackie C. Horne, 2016-04-22 How did the flat characters of eighteenth century children's literature become round by the mid nineteenth? While previous critics have pointed to literary Romanticism for an explanation, Jackie C. Horne argues that this shift can be better understood by looking to the discipline of history. Eighteenth century humanism believed the purpose of history was to teach private and public virtue by creating idealized readers to emulate. Eighteenth century children's literature with its impossibly perfect protagonists and its equally imperfect villains echoes history's exemplar goals. Exemplar history, however, came under increasing pressure during the period and the resulting changes in historiographical practice, an increased need for reader engagement and the widening of history's purview to include the morals, manners and material lives of everyday people, find their mirror in changes in fiction for children. Horne situates hitherto neglected Robinsonades, historical novels and fictionalized histories within the cultural, social and political contexts of the period to trace the ways in which idealized characters gradually gave way to protagonists who fostered readers' sympathetic engagement. Horne's study will be of interest to specialists in children's literature, the history of education and book history.
