Armies of the Young David M. Rosen, 2005-01-31 Children have served as soldiers throughout history They fought in the American Revolution the Civil War and in both world wars They served as uniformed soldiers camouflaged insurgents and even suicide bombers Indeed the first U S soldier to be killed by hostile fire in the Afghanistan war was shot in ambush by a fourteen year old boy Does this mean that child soldiers are aggressors Or are they victims It is a difficult question with no obvious answer yet in recent years the acceptable answer among humanitarian organizations and contemporary scholars has been resoundingly the latter These children are most often seen as especially hideous examples of adult criminal exploitation In this provocative book David M Rosen argues that this response vastly oversimplifies the child soldier problem Drawing on three dramatic examples from Sierra Leone Palestine and Eastern Europe during the Holocaust Rosen vividly illustrates this controversial view In each case he shows that children are not always passive victims but often make the rational decision that not fighting

is worse than fighting With a critical eye to international law Armies of the Young urges readers to reconsider the situation of child combatants in light of circumstance and history before adopting uninformed child protectionist views In the process Rosen paints a memorable and unsettling picture of the role of children in international conflicts **The Golden Bough:**

Human Trafficking Global History and Perspectives argues that far from being a recent development human trafficking is rooted in the history of the human condition and has only been amplified by globalization Using a multidisciplinary approach that traces the historical roots of human trafficking in global history the chapters explore case studies from different parts of the world to show that human trafficking is not only a global phenomenon but a localized enigma The contributors contend that the causes and thus the solutions are rooted in local and regional social cultural political and economic conditions of victims The case studies include global regional and local examples to analyze the complex causes and effects of human trafficking as well as the legal ramifications Private Security in Africa Doctor Paul Higate,Mats Utas,2017-06-15 Across

Africa growing economic inequality instability and urbanization have led to the rapid spread of private security providers While these PSPs have already had a significant impact on African societies their impact has so far received little in the way of comprehensive analysis Drawing on a wide range of disciplinary approaches and encompassing anthropology sociology and political science Private Security in Africa offers unique insight into the lives and experiences of security providers and those affected by them as well as into the fragile state context which has allowed them to thrive Featuring original empirical research and case studies ranging from private policing in South Africa to the recruitment of Sierra Leoneans for private security work in Iraq the book considers the full implications of PSPs for security and the state not only for Africa but for the world as a whole Cultural Expertise Livia Holden,2020 Cultural expertise in the form of expert opinions formulated by

social scientists appointed as experts in the legal process is not different from any other kind of expertise in court In specialised fields of law such as native land titles in America and in Australia the appointment of social scientists as experts in court is a consolidated practice This Special Issue focuses on the contemporary evolution and variation of cultural expertise as an emergent concept providing a conceptual umbrella for a variety of evolving practices which all include use of the specialised knowledge of social sciences for the resolution of conflicts It surveys the application of cultural expertise in

the legal process with an unprecedented span of fields ranging from criminology and ethnopsychiatry to the recognition of the rights of autochthone minorities including linguistic expertise and modern reformulation of cultural rights In this Special Issue the emphasis is on the development and change of culture related expert witnessing over recent times culture related adjudication and resolution of disputes criminal litigation and other kinds of court and out of court procedures This Special Issue offers descriptions of judicial practices involving experts in local laws and customs and surveys of the most frequent fields of expert witnessing that are related with culture interrogates who the experts are their links with local communities and also with the courts and the state power and politics how cultural expert witnessing has been received by judges how cultural expertise has developed across the sister disciplines of history and psychiatry and eventually it asks whether academic truth and legal truth are commensurable across time and space *Ars Quatuor Coronatorum* ,1899 **Arming Conflict** M. Bourne,2007-07-12 This book argues that the arming of conflict is complexly structured and highly dynamic It uncovers and describes the construction and interaction of structures and dynamics at global and regional levels which shape the arming patterns of both state and non state actors *The Jewish pedlar* Tony Kushner,2025-05-20 An imaginative investigation into a historical crime that sheds new light on Jewish history In 1734 a pedlar turned smuggler named Jacob Harris slit the throats of three people in a pub in Sussex This triple murder for which he was hanged and gibbeted remains the most violent crime ever committed by a British Jew Yet today it is all but forgotten In *The Jewish pedlar* Tony Kushner goes in search of the enigmatic Harris Digging into a remarkable range of sources from law records and newspaper reports to ballads and folktales he follows the traces of Harris s legend across three hundred years of British history In doing so he reconstructs the world of Jewish pedlars and criminals across many continents The lives these figures eked out at the margins of society paint a picture of persistent antisemitism but also of remarkable integration Intellectually bold and deeply humane *The Jewish pedlar* takes a new grassroots approach to the history of Jews in the modern world shedding light on everyday lives from the Enlightenment to the Holocaust and beyond **Protecting Pollinators** Jodi Helmer,2019-04-18 We should thank a pollinator at every meal These diminutive creatures fertilize a third of the crops we eat Yet half of the 200 000 species of pollinators are threatened Birds bats insects and many other pollinators are disappearing putting our entire food supply in jeopardy In North America and Europe bee populations have already plummeted by more than a third and the population of butterflies has declined 31 percent *Protecting Pollinators* explores why the statistics have become so dire and how they can be reversed Jodi Helmer breaks down the latest science on environmental threats and takes readers inside the most promising conservation initiatives Efforts include famers reducing pesticides cities creating butterfly highways volunteers ripping up invasive plants gardeners planting native flowers and citizen scientists monitoring migration Along with inspiring stories of revival and lessons from failed projects readers will find practical tips to get involved They will also be reminded of the magic of pollinators not only the iconic monarch and dainty hummingbird but the drab hawk moth and

homely bats that are just as essential Without pollinators the world would be a duller blander place Helmer shows how we can make sure they are always fluttering soaring and buzzing around us
