Mile Marker Zero William McKeen, 2011-10-04 True stories of writers and pirates painters and potheads guitar pickers and drug merchants in Key West in the 1970s For Hemingway and Fitzgerald there was Paris in the twenties For others later there was Greenwich Village Big Sur and Woodstock But for an even later generation one defined by the likes of Jimmy Buffett Tom McGuane and Hunter S Thompson there was another moveable feast Key West Florida The small town on the two by four mile island has long been an artistic haven a wild refuge for people of all persuasions and the inspirational home for a league of great American writers Some of the artists went there to be literary he men Some went to re create themselves Others just went to disappear and succeeded No matter what inspired the trip Key West in the seventies was the right place at the right time where and when an astonishing collection of artists wove a web of creative inspiration *Mile Marker Zero* tells the story of how these writers and artists found their identities in Key

West and maintained their friendships over the decades despite oceans of booze and boatloads of pot through serial marriages and sexual escapades in that dangerous paradise Unlike the Lost Generation of Paris in the twenties we have a generation that invented reinvented and found itself at the unending cocktail party at the end and the beginning of America's highway

Lost in the New West Mark Asquith, 2021-10-07 Lost in the New West investigates a group of writers John Williams Cormac McCarthy Annie Proulx and Thomas McGuane who have sought to explore the tensions inherent to the Western where the distinctions between old and new myth and reality authenticity and sentimentality are frequently blurred Collectively these authors demonstrate a deep seated attachment to the landscape people and values of the West and offer a critical appraisal of the dialogue between the contemporary West and its legacy Mark Asquith draws attention to the idealistic young men at the center of such works as Williams's Butcher's Crossing 1960 McCarthy's Blood Meridian 1985 and Border Trilogy Proulx's Wyoming stories and McGuane's Deadrock novels For each writer these characters struggle to come to terms with the difference between the suspect mythology of the West that shapes their identity and the reality that surrounds them They are in short lost in the new West

Network of Bones Sean Morey, 2019-04-02 Both a far removed place of refuge for the fringe of society and a high status vacation destination the Keys remain a legendary yet fragile place still threatened by a human made disaster the 2010 Deepwater Horizon oil spill Likewise Key West Florida can be many things to many people evoking laidback Margaritaville for some and Ernest Hemingway for others In this mixture of memoir travel writing philosophical reflection natural and cultural history and meditation on language Sean Morey wrestles with the varied and often contradictory nature of his hometown Morey turns a sharp eye inward teasing out the layers of natural and cultural developments that have shaped the Keys for both millions of years and the past few decades He asks What does it take for humans to accept our impact on Earth and more importantly what will move humans to take action to reverse adverse impacts The answer Morey posits lies in imaginative thinking in building connections between locations and individual interests and backgrounds to create a foundation for widespread ecological ethics In Network of Bones Morey guides readers through different images of Key West and connects them to global environmental issues including overfishing rising sea levels and polluted oceans Morey's writing stimulates memory and invites engagement with the world as he shows us how learning about one place no matter how specific and eccentric that place might be can teach us about all other places It's just a matter of imagination The author's proceeds from the sale of this book will benefit Coastal Conservation Association Florida
