Lucretius De Rerum Natura I:

De Rerum Natura Titus Lucretius Carus, 2009 For a work written more than two thousand years ago in a society in many ways quite alien to our own Lucretius De Rerum Natura contains much of striking even startling contemporary relevance This is true above all of the fifth book which begins by putting a strong case against what it has recently become fashionable to call intelligent design and ends with an account of human evolution and the development of society in which the limitations of technological progress form a strong and occasionally explicit subtext Along the way the poet touches on many themes which may strike a chord with the twenty first century reader the fragility of our ecosystem the corruption of political life the futility of consumerism and the desirability of limiting our acquisitive instincts are all highly topical issues for us as for the poem's original audience Book V also offers a fascinating introduction to the world view of the upper class Roman of the first century BC This edition which complements existing Aris and Phillips commentaries on books 3 4 and 6 will help to make Lucretius urgent and impassioned argument and something of his remarkable poetic style accessible to a wider audience including those with little or no knowledge of Latin Both the translation and commentary aim to explain the scientific argument of the book as clearly as possible and to convey at least some impression of the poetic texture of Lucretius Latin

The Nature of Things Lucretius, 2007-07-26 Lucretius poem On the Nature of Things combines a scientific and philosophical treatise with some of the greatest poetry ever written With intense moral fervour he demonstrates to humanity that in death there is nothing to fear since the soul is mortal and the world and everything in it is governed by the mechanical laws of nature and not by gods and that by believing this men can live in peace of mind and happiness He bases this on the atomic theory expounded by the Greek philosopher Epicurus and continues with an examination of sensation sex cosmology meteorology and geology all of these subjects made more attractive by the poetry with which he illustrates them

Lucy Hutchinson's Translation of Lucretius, De Rerum Natura Titus Lucretius Carus, 1996 No Marketing Blurb On the Nature of Things Titus Lucretius Carus, 1995 Titus Lucretius Carus was probably born in the early first century B C and he died in the year 55 Writing in the waning days of the Roman Republic as Rome's politics grew individualistic and treacherous its high life wanton its piety introspective and morbid Lucretius sets forth a rational and materialistic view of the world which offers a retreat into a quiet community of wisdom and friendship Even to modern readers the sweep of Lucretius's observations is remarkable A careful observer of nature he writes with an innocent curiosity into how things are put together from the oceans lands and stars to a mound of poppy seeds from the applause of a rooster's wings to the human mind and soul Yet Lucretius is no romantic Nature is what it is fascinating purposeless beautiful deadly Once we understand this we free ourselves of superstitious fears becoming as human and as godlike as we can be The poem then is about the universe and how human beings ought to live in it Epicurean physics and morality converge *Lucretius: De Rerum Natura* Book III Lucretius, 2014-08-14 The third book of Lucretius great poem on the

workings of the universe is devoted entirely to expounding the implications of Epicurus dictum that death does not matter is nothing to us The soul is not immortal it no more exists after the dissolution of the body than it had done before its birth Only if this fact is accepted can men rid themselves of irrational fears and achieve the state of ataraxia freedom from mental disturbance on which the Epicurean definition of pleasure was based To present this case Lucretius deploys the full range of poetic and rhetorical registers soberly prohibitive artfully decorative or passionately emotive as best suits his argument reinforcing it with vivid and compelling imagery This new edition has been completely revised with a considerably enlarged Commentary and a new supplementary introduction taking account of the great amount of new scholarship of the last forty years
