Milton And The Puritan Dilemma 1641 166:

Milton and the Puritan Dilemma, 1641-1660 Arthur E. Barker,1976-12-15 This analysis of the progressive definition of John Milton's social political and religious opinions during the fertile years of the Puritan Revolution has become a classic work of scholarship in the thirty five years since it was first published Professor Barker interprets Milton's development in the light of his personal problems and of the changing climate of opinion among his revolutionary associates *Milton, Toleration, and Nationhood* Elizabeth Sauer,2013-12-09 John Milton lived at a time when English nationalism became entangled with principles and policies of cultural religious and ethnic tolerance Combining political theory with close readings of key texts this study examines how Milton's polemical and imaginative literature intersects with representations of English Protestant nationhood Through detailed case studies of Milton's works Elizabeth Sauer charts the fluctuating narrative of Milton's literary engagements in relation to social political and philosophical themes such as ecclesiology exclusionism Irish alterity natural law disestablishment geography and intermarriage In so doing Sauer shows the extent to which nationhood and toleration can be subjected to literary and historicist inquiry Her study makes a salient contribution to Milton studies and to scholarship on early modern literature and the development of the early nation state *Sir Henry Vane, Theologian* David Parnham,1997 Well known to students of history as a leading political figure during the English Civil War and beyond Vane is presented in this book as a formidable and articulate thinker Author David Parnham sees Vane as a fascinating occupant of the rich intellectual world of the mid seventeenth century **Inquiring Spirit** Kathleen Coburn,1979-12-15 When this work was first prepared for publication in 1949 the Notebooks and Collected Letters were still in manuscript and many of the printed works if not unavailable were scarce The continuing publication of Coleridge's works has not lessened the demand for a general introduction to Coleridge's mind and its workings Selections from works including *The Friend* *Essays on His Own Times* *Aids to Reflection* the *Statesman's Manual* *Confessions of an Inquiring Spirit* and *Table Talk* and from other lesser known works are arranged by topic The subjects psychology education language logic and philosophy literary criticism the arts science society religion and his contemporaries reflect the astonishing range of Coleridge's intellectual interests The revised edition of this anthology is still the best introduction to the prose works of an inquiring spirit There is a fine introductory essay and each section has an introduction of its own The annotation is apt and the index efficient The whole book in short has been ordered with the distinction which is characteristic of Professor Coburn

Milton and Questions of History Mary Ellen Nyquist,Feisal Gharib Mohamed,Mary Nyquist,2012-01-01 Milton and Questions of History considers the contribution of several classic studies of Milton written by Canadians in the twentieth century It contemplates whether these might be termed a coherent school of Milton studies in Canada and it explores how these concerns might intervene in current critical and scholarly debates on Milton and more broadly on historicist criticism in its relationship to renewed interest in literary form The volume opens with a selection of seminal articles by noted scholars

including Northrop Frye Hugh McCallum Douglas Bush Ernest Sirluck and A S P Woodhouse Subsequent essays engage and contextualize these works while incorporating fresh intellectual concerns The Introduction and Afterword frame the contents so that they constitute a dialogue between past and present critical studies of Milton by Canadian scholars **Literature and History** Harry Raphael Garvin, John D. Kirkland, 1977 Many of the essays in this issue deal with the Romantic Age when there arose the special kind of historical thinking called historicism The collection mainly contributes studies of specific literary works each being aware of the theory and method of history in relation to literature **Intellectual Origins of the English Revolution - Revisited** Christopher Hill, 1997-06-05 This is a revised edition of Christopher Hill's classic and ground breaking examination of the motivations behind the English Revolution and Civil War first published in 1965 In addition to the text of the original Dr Hill provides thirteen new chapters which take account of other publications since the first edition bringing his work up to date in a stimulating and enjoyable way This book poses the problem of how after centuries of rule by King lords and bishops when the thinking of all was dominated by the established church English men and women found the courage to revolt against Charles I abolish bishops and execute the king in the name of his people The far reaching effects and the novelty of what was achieved should not be underestimated the first legalized regicide rather than an assassination the formal establishment of some degree of religious toleration Parliament taking effective control of finance and foreign policy on behalf of gentry and merchants thus guaranteeing the finance necessary to make England the world's leading naval power abolition of the Church's prerogative courts confirming gentry control at a local level and the abolition of feudal tenures which made possible first the agricultural and then the industrial revolution Christopher Hill examines the intellectual forces which helped to prepare minds for a revolution that was much more than the religious wars and revolts which had gone before and which became the precedent for the great revolutionary upheavals of the future

The Satiric Norm of Jonathan Swift Leland Douglas Peterson, 1962 Complete Prose Works of John Milton: 1659-1660 John Milton, 1953 A Rational Millennium James Holstun, 1987 Taking a new approach to the history of utopia this volume combines the political study of literary form with the literary study of political rhetoric After arguing that early modern utopists both literary and non literary attempt to reshape displaced populations Holstun concentrates on two utopian projects of the mid 17th century the political platforms and Algonquin praying towns of John Eliot in Massachusetts and the republican political writing of James Harrington in Protectorate England Moving between these projects and modern analyses of rationalization he shows that Puritan utopia shares the modern Western longing for universal social discipline and that it envisions this discipline as the rational means to the Millennium *Choice* Richard K.
