Wright,2024-07-03 The Bastard Instrument chronicles the history of the electric bass and the musicians who played it from the instrument s invention through its widespread acceptance at the end of the 1960s Although their contributions have often gone unsung electric bassists helped shape the sound of a wide range of genres including jazz rhythm blues rock country soul funk and more Their innovations are preserved in performances from artists as diverse as Lionel Hampton Liberace Elvis Presley Patsy Cline the Supremes the Beatles James Brown Bob Dylan Aretha Franklin Jefferson Airplane and Sly and the Family Stone all of whom are discussed in this volume At long last The Bastard Instrument gives these early electric bassists credit for the significance of their accomplishments and demonstrates how they fundamentally altered the trajectory of popular music **Scent of the Roses** PG Forte,2023-09-25 For years Scout Patterson has tried to run from the mistakes in her past Now she s coming home to face the ghosts she s never laid to rest and the love she thought she d lost forever Reawakening that love would be a dream come true Unfortunately love is not the only emotion that can last forever Memories and dreams are the only things that have gotten Nick Greco through the past twenty years Memories of the girl he loved and lost and dreams of what his life would be like if he could only find her again And if he can bring himself to believe that anything she tells him is true Can the star crossed lovers put aside the hurt and distrust they still harbor toward each other Or will the evil which already nearly destroyed them once triumph yet again The Cattle Conspiracy Warren Elofson,2023-04-28 The Cattle Conspiracy is a crime novel steeped in mystery suspense tragedy and emotion It follows James and his girlfriend Makala through a long

dangerous and ultimately deadly journey as they piece together the various methods that an international connection has developed for shipping cattle loaded with drugs across the border from southern Alberta Canada to Montana Our two heroes are regular folk pulled into the controversy by the actions of treacherous people who recognize them as a threat to their nefarious business and by their own overpowering need for revenge The villains are cowboys gentlemen and cattle thieves They run the gauntlet from bank officials to livestock buyers feedlot operators businesspeople truckers politicians and police officers For a few one feels empathy but for most only disdain One feels too the human emotions that come from love unrequited and from love both strengthened and imperiled through trial and vulnerability This story is clearly fictional but it is grounded throughout on real world possibilities

Before Elvis Larry Birnbaum,2012-12-14 An essential work for rock fans and scholars *Before Elvis* The Prehistory of Rock n Roll surveys the origins of rock n roll from the minstrel era to the emergence of Bill Haley and Elvis Presley Unlike other histories of rock *Before Elvis* offers a far broader and deeper analysis of the influences on rock music Dispelling common misconceptions it examines rock s origins in hokum songs and big band boogies as well as Delta blues detailing the embrace by white artists of African American styles long before rock n roll appeared This unique study ranges far and wide highlighting not only the contributions of obscure but key precursors like Hardrock Gunter and Sam Theard but also the influence of celebrity performers like Gene Autry and Ella Fitzgerald Too often rock historians treat the genesis of rock n roll as a bolt from the blue an overnight revolution provoked by the bland pop music that immediately preceded it and created through the white appropriation of music till then played only by and for black audiences In *Before Elvis* Birnbaum daringly argues a more complicated history of rock s evolution from a heady mix of ragtime boogie woogie swing country music mainstream pop and rhythm and blues a melange that influenced one another along the way from the absorption of blues and boogies into jazz and pop to the integration of country and Caribbean music into rhythm and blues Written in an easy style *Before Elvis* presents a bold argument about rock s origins and required reading for fans and scholars of rock n roll history
