Models for Scripture John Goldingay, 2004 Looks at the task of interpreting Scripture as witnessing tradition

authoritative canon inspired word and experienced revelation **Models of Revelation in Avery Dulles** Michal Stríženec,2000 **Papal Infallibility** Mark E. Powell,2009-01-27 The dogma of papal infallibility has become increasingly problematic for Roman Catholics and it is a major point of division in Christian ecumenical dialogue arguably the key issue separating Catholics and other Christians today Mark Powell here contends that papal infallibility has inevitable shortcomings as a way to secure religious certainty After introducing the doctrine he illustrates those limitations in the life and writings of four prominent Catholic theologians Henry Edward Cardinal Manning John Henry Cardinal Newman Avery Cardinal Dulles and Hans Kung Book Jacket *The Oxford Handbook of Catholic Theology* Lewis Ayres,Medi Ann Volpe,2019-03-28 The Oxford Handbook of Catholic Theology provides a one volume introduction to all the major aspects of Catholic theology Part One considers the nature of theological thinking and the major topics of Catholic teaching including the Triune God the Creation and the mission of the Incarnate Word It also covers the character of the Christian sacramental life and the major themes of Catholic moral teaching The treatments in the first part of the Handbook offer personal syntheses of Catholic teaching but each offers an account in accord with Catholic theology as it is expressed in the Second Vatican Council and authoritative documentation Part Two focuses on the historical development of Catholic Theology An initial section offers essays on some of Catholic theology s most important sources between 200 and 1870 and the final section of the collection considers all the main movements and developments in Catholic theology across the world since 1870 This comprehensive volume features fifty six original contributions by some of the best known names in current Catholic theology from the Americas Europe Asia and Africa The chapters are written in an engaging and easily comprehensible style functioning both as a scholarly reference and as a survey of the field There are no comparable studies available in one volume and the book will be an indispensable reference for students of Catholic theology at all levels and in all contexts Systematic Theology Thomas P. Rausch,2016-03-24 Systematic theology seeks to understand and render more intelligible the central doctrines of faith and to show how they are related to each other It tries to demonstrate how these doctrines are rooted in Scripture and develop in the history of the church most important it strives to more adequately express and sometimes reinterpret the church s doctrinal tradition always in the interest of better communicating the mystery of salvation and bringing it into a dialogue with culture The present text is intended to be concise and accessible an introduction that explores basic themes in Catholic systematic theology from a biblical historical and contemporary perspective always aware of today s theological pluralism *Foundations of Theological Study* Richard Viladesau,Mark Stephen Massa,1991 This is a collection of readings in theology classical and contemporary intended for college level students It covers the major themes of an introductory course in theology the experience of the sacred the notion of God Revelation Jesus Christ and the Christian life Religious Education in a Mediatized World Ilona Nord,Hanna Zipernovszky,2017-05-10 In religious education digitization and mediatization processes result in the transformation of

conventional media formats This leads to the development of new media formats which in turn necessitates a redefinition of the relationship between religious education and the media Keeping this in mind this volume first examines the importance of media for specific theological disciplines and then discusses current media pedagogical and media didactic approaches Later in the book the authors develop didactic perspectives on various methods these include internet based archive work and the use of digital teaching materials They also deal with current questions regarding religious education such as inclusion and cyber bullying etc Finally they identify some of the main didactic challenges for religious instruction in a mediatized world This volume is a plea for a wider understanding of education and is based in part on a German Swedish teaching and research cooperation Following this example it focuses on a future oriented networking of plural forms of education This resource is designed for students of theology and religious sciences as well as for religious education teachers **T&T**

Gaillardetz, 1997 This book faithfully represents the teaching of Roman Catholicism on the Church s doctrinal authority while pointing to areas where there remains a gap

between an ecclesiological vision of the Church informed by Vatican II and the popular understanding and concrete exercise of that authority in the life of the Church today **Divine Discourse** Nicholas Wolterstorff, 1995-10-05 Prominent in the canonical texts and traditions of Judaism Christianity and Islam is the claim that God speaks Nicholas Wolterstorff argues that contemporary speech action theory when appropriately expanded offers us a fascinating way of interpreting this claim and showing its intelligibility He develops an innovative theory of double hermeneutics along the way opposing the current near consensus led by Ricoeur and Derrida that there is something wrong headed about interpreting a text to find out what

its author said Wolterstorff argues that at least some of us are entitled to believe that God has spoken Philosophers have never before in any sustained fashion reflected on these matters mainly because they have mistakenly treated speech as revelation

Forming the Church in the Modern World Thomas A. Baima, 2019 This book examines and comments on various aspects of the theology of Avery Cardinal Dulles SJ It demonstrates how important his ideas were in forming our current understanding of church and theology

René Girard, Unlikely Apologist Grant Kaplan, 2016-08-20 Since the late 1970s theologians have been attempting to integrate mimetic theory into different fields of theology yet a distrust of mimetic theory persists in some theological camps In Ren Girard Unlikely Apologist Mimetic Theory and Fundamental Theology Grant Kaplan brings mimetic theory into conversation with theology both to elucidate the relevance of mimetic theory for the discipline of fundamental theology and to understand the work of Ren Girard within a theological framework Rather than focus on Christology or atonement theory as the locus of interaction between Girard and theology Kaplan centers his discussion on the apologetic quality of mimetic theory and the impact of mimetic theory on fundamental theology the subdiscipline that grew to replace apologetics His book explores the relation between Girard and fundamental theology in several keys In one it understands mimetic theory as a heuristic device that allows theological narratives and positions to become more intelligible and by so doing makes theology more persuasive In another key Kaplan shows how mimetic theory when placed in dialogue with particular theologians can advance theological discussion in areas where mimetic theory has seldom been invoked On this level the book performs a dialogue with theology that both revisits earlier theological efforts and also demonstrates how mimetic theory brings valuable dimensions to questions of fundamental theology
