

Moderates And Conservatives In Western Europe

Gary Love, Christian Egander Skov

Moderates And Conservatives In Western Europe:

Moderates and Conservatives in Western Europe Policy Studies Institute, 1983 The political parties of western Europe's Centre Right have been surprisingly neglected in contrast to the parties of the Left This book sheds light on these parties which include the Gaullists and Giscardians of France the Christian Democrats in Germany and Italy the Conservatives in Britain and the Democratic Centre Union in Spain the Liberal parties in these countries are also covered

Conservative Politics in Western Europe Zig Layton-Henry, 1982-12-16 *Models of Democracy in Nordic and Baltic Europe* Nicholas Aylott, 2016-04-15 This book explores the ways in which representative democracy works in two neighbouring collections of European states the Nordic Denmark Finland Iceland Norway and Sweden and the Baltic Estonia Latvia and Lithuania Starting from a Nordic vantage point contributors explore the extent to which aspects of politics function similarly or dissimilarly across the two groups of democratic states acknowledging the differences in models of democracy that occur within each group Authors explore the possibility that some of the apparently successful institutional features of Nordic politics have somehow influenced politics in the Baltic states despite the considerable contextual differences between the two groups The Nordic Baltic comparison is particularly worthy of study given the comparative stability of the Nordic democracies and the half century of occupation by a totalitarian dictatorship that the Baltic states endured The central guiding questions are how does political representation work in countries that have a lot in common but also a few significant contextual dissimilarities and what if any relationships between the respective styles of democracy can be identified Using a variety of theories perspectives and methods the empirical studies that populate the book seek to offer reflections on these questions

Moderates and conservatives in Western Europe Robert Morgan, Stefano Silvestri, 1982 The West European Party System Peter Mair, 1990 The analysis of party systems in Western Europe has long constituted a major focus of concern in comparative political science Now for the first time many of the classic writings in this field have been collected into a single volume The collection contains seminal writings by Weber Neumann Duverger Kirchheimer Daalder Rokkan and Sartori as well as a selection from the more recent debates on changes in European party systems including the contributions of Pedersen Wolinetz and Inglehart The writings cover the development stabilization and transformation of party systems and include some of the key analyses which have sought to distinguish between different types of party systems

Moderates and conservatives in Western Europe, 1982 Conservatism, Christian Democracy and the dynamics of transformation Gary Love, Christian Egander Skov, 2025-09-02 *Conservatism Christian Democracy and the Dynamics of Transformation* compares the centre right political traditions of Britain the Nordic countries France West Germany and Austria and looks for evidence of political cooperation and influence across borders during the period 1945 90 The book explores how a variety of intellectuals politicians and political parties transformed their politics in response to major economic social and political challenges and seeks to explain why conservatives and Christian democrats

came to feel that they belonged to a wider centre right political family by the end of this period It also examines why these political traditions found it difficult to cooperate with each other after the Second World War and why they decided to invest more political capital in inter party relations and wider transnational projects from the 1960s As the book shows these developments resulted in two new centre right internationals the European Democrat Union and the International Democrat Union

The Handbook of West European Pension Politics M. Immergut, M. Anderson, Isabelle Schulze, 2007-01-04 The Handbook of West European Pension Politics provides scholars policy makers and students with a complete overview of the political and policy issues involved in pension policy and well as case studies of contemporary pension politics 1980 to present in 16 countries Austria Belgium Denmark Finland France Germany Greece Ireland Italy Luxembourg the Netherlands Portugal Spain Sweden Switzerland and the UK The book is suitable as a text for courses in comparative politics European Studies social policy comparative public policy and public administration Each chapter is written by an expert on pension politics and is presented in a standardized format with standardized tables and figures that describe political institutions government coalitions parliamentary and electoral majorities the party system the pension system proposed and enacted pension reforms

A History of Modern Political Thought in East Central Europe Balázs Trencsényi, Maciej Janowski, Monika Baar, Maria Falina, Michal Kopecek, 2016-02-26 A History of Modern Political Thought in East Central Europe is a two volume project authored by an international team of researchers and offering the first ever synthetic overview of the history of modern political thought in East Central Europe Covering twenty national cultures and languages the ensuing work goes beyond the conventional nation centered narrative and offers a novel vision especially sensitive to the cross cultural entanglement of discourses Devising a regional perspective the authors avoid projecting the Western European analytical and conceptual schemes on the whole continent and develop instead new concepts patterns of periodization and interpretative models At the same time they also reject the self enclosing Eastern or Central European regionalist narratives and instead emphasize the multifarious dialogue of the region with the rest of the world Along these lines the two volumes are intended to make these cultures available for the global market of ideas and also help rethinking some of the basic assumptions about the history of modern political thought and modernity as such The first volume deals with the period ranging from the Late Enlightenment to the First World War It is structured along four broader chronological and thematic units Enlightenment reformism Romanticism and the national revivals late nineteenth century institutionalization of the national and state building projects and the new ideologies of the fin de siècle facing the rise of mass politics Along these lines the authors trace the continuities and ruptures of political discourses They focus especially on the ways East Central European political thinkers sought to bridge the gap between the idealized Western type of modernity and their own societies challenged by overlapping national projects social and cultural fragmentation and the lack of institutional continuity

Political Realignment Russell J. Dalton, 2018-10-18 The process of electoral change is accelerating in contemporary

democracies and this book explains why The emergence of Green parties in the 1980s and recent far right parties Brexit and Trump s 2016 victory are parts of this overall process Political Realignment tracks the evolution of citizen and elite opinions on economic and cultural issues from the 1970s to the 2010s and the impact of these changes on electoral politics and public policy Citizen positions on these cleavages have realigned over time producing a similar realignment in the structure of the party systems to represent these demands Economic issues remain important now joined by divisions on cultural issues as a backlash to modernization Assembling an unprecedented time series of empirical evidence this study explains the new forces of elector change in both Europe and the United States

Nut Country Edward H. Miller, 2015-09-03 Taps the fascinating history of a surprisingly understudied place Dallas to reorient our understanding of America s Republican Right Darren Dochuk author of Anointed with Oil On the morning of November 22 1963 President Kennedy told Jackie as they started for Dallas We re heading into nut country today That day s events ultimately obscured and revealed just how right he was Oswald was a lone gunman but the city that surrounded him was full of people who hated Kennedy and everything he stood for led by a powerful group of ultraconservatives who would eventually remake the Republican party in their own image In Nut Country Edward H Miller tells the story of that transformation showing how a group of influential far right businessmen religious leaders and political operatives developed a potent mix of hardline anticommunism biblical literalism and racism to generate a violent populism and widespread power Though those figures were seen as extreme in Texas and elsewhere mainstream Republicans nonetheless found themselves forced to make alliances or tack to the right on topics like segregation As racial resentment came to fuel the national Republican party s divisive but effective Southern Strategy the power of the extreme conservatives rooted in Texas only grew Drawing direct lines from Dallas to DC Miller s captivating history offers a fresh understanding of the rise of the new Republican Party and the apocalyptic language conspiracy theories and ideological rigidity that remain potent features of our politics today Well researched and briskly written A timely intelligent and penetrating book The New York Times Book Review

Conservative Parties and the Birth of Democracy Daniel Ziblatt, 2017-04-17 How do democracies form and what makes them die Daniel Ziblatt revisits this timely and classic question in a wide ranging historical narrative that traces the evolution of modern political democracy in Europe from its modest beginnings in 1830s Britain to Adolf Hitler s 1933 seizure of power in Weimar Germany Based on rich historical and quantitative evidence the book offers a major reinterpretation of European history and the question of how stable political democracy is achieved The barriers to inclusive political rule Ziblatt finds were not inevitably overcome by unstoppable tides of socioeconomic change a simple triumph of a growing middle class or even by working class collective action Instead political democracy s fate surprisingly hinged on how conservative political parties the historical defenders of power wealth and privilege recast themselves and coped with the rise of their own radical right With striking modern parallels the book has vital implications for today s new and old democracies under siege

Conservative Politics in France Malcolm

Anderson,2023-10-13 First published in 1974 *Conservative Politics in France* gives a scholarly account of politics in France from 1880 to the present and explains the way in which the Right has evolved from a collection of weak and transitory political associations to the relatively well organised Gaullist coalition Exciting patterns of interaction between personal careers political events and party organisation have characterised this period War and colonial conflict have brought an end not only to regimes but also to political parties The lingering influences of an aristocracy and bourgeoisie de tradition and the survival of a large peasantry and local social systems preserved peculiar styles of politics The first great wave of party building at the beginning of the twentieth century produced organisations ranging from the doctrinaire anti parliamentary league to the loose electoral association The Fourth Republic saw another wave of party building but only since 1958 has a party emerged which can attract most of the moderate and conservative electorate No other book has attempted to cover this historical period and to give detail accounts of local as well as national political structures This is an interesting read for scholars and researchers of French political history French politics and European politics **Inventing the Silent**

Majority in Western Europe and the United States Anna von der Goltz,Britta Waldschmidt-Nelson,2019-03-28 For historians of social movements this text explores 1960s and 1970s conservative political activism in the US and Western Europe **1930** Arthur Haberman,2018-09-25 The year 1930 can be seen as the dawn of a period of darkness the beginning of a decade that Auden would style low dishonest That year was one of the most reflective moments in modernity After the optimism of the nineteenth century the West had stumbled into war in 1914 It managed to survive a conflagration but it failed in the aftermath to create something valued In 1930 Europe was questioning itself and its own viability Where are we heading a number of public intellectuals asked Who are we and how do we build moral social and political structures Can we continue to believe in the insights and healing quality of our culture Major thinkers Mann Woolf Ortega Freud Brecht Nardal and Huxley as well as a number of artists including Picasso and Magritte and musicians such as Weill sought to grapple with issues that remain central to our lives today the viability of a secular Europe with Enlightenment values coming to terms with a darker view of human nature mass culture and its dangers the rise of the politics of irrationality identity and the other in Western civilization new ways to represent the postwar world the epistemological dilemma in a world of uncertainty and the new Fascism was it a new norm or an aberration Arthur Haberman sees 1930 as a watershed year in the intellectual life of Europe and with this book the first to see the contributions of the public intellectuals of 1930 as a single entity he forces a reconsideration and reinterpretation of the period **Elgar Encyclopedia of Environmental Sociology** Christine

Overdevest,2024-04-12 The Elgar Encyclopedia of Environmental Sociology serves as a repository of insight on the complex interactions challenges and potential solutions that characterize our shared ecological reality Presenting innovative thinking on a comprehensive range of topics expert scholars researchers and practitioners illuminate the nuances complexities and diverse perspectives that define the continually evolving field of environmental sociology *Europe Since 1945* J. Robert

Wegs, Robert Ladrech, 2017-09-16 As Europe has expanded its influence in world economic and political affairs there has been an increased need to understand how Europe recovered from the devastation of World War II to become a major world player This concise history offers a comprehensive overview of Europe's political social economic and cultural developments since 1945 J Robert Wegs and Robert Ladrech balance a narrative of the major events and personalities of the post war political scene with a critical assessment of key issues and themes such as The development of the welfare state European integration and the European Union The Cold War The rise and fall of the Soviet Empire The political economic turmoil in eastern Europe since 1989 The place of Europe in the globalisation of the world's political economic affairs The text also features further reading sections at the end of each chapter to aid more detailed study and is enhanced throughout with tables maps and illustrations Written for students and general readers alike this thoroughly revised updated and expanded new edition is an ideal introduction for anyone with an interest in the history and politics of post war Europe east and west

The New Right in the New Europe Seán Hanley, 2007-08-07 This book considers the emergence of centre right parties in Eastern Europe following the fall of communism focusing primarily on the case of the Czech Republic Although the country with the strongest social democratic traditions in Eastern Europe the Czech Republic also produced the region's strongest and most durable party of the free market right in Václav Klaus Civic Democratic Party ODS Seán Hanley considers the different varieties of right wing politics that emerged in post communist Europe exploring in particular detail the origins of the Czech neo liberal right tracing its genesis to the reactions of dissidents and technocrats to the collapse of 1960s reform communism He argues that rather than being shaped by distant historical legacies the emergence of centre right parties can best be understood by examining the responses of counter elites outside or marginal to the former communist party state establishment to the collapse of communism and the imperatives of market reform and decommunization This volume goes on to consider the emergence of right wing forces in the disintegrating Civic Forum movement in 1990 the foundation of the ODS the right's period in office under Klaus in 1992-97 and its subsequent divisions and decline It concludes by analyzing the ideology of the Czech Right and its growing euroscepticism

The Oxford Handbook of Postwar European History Dan Stone, 2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the thirty five chapters of this book As well as diplomatic political institutional economic and social history The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European

identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by an acknowledged expert as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe **Planning Pamphlets** ,1948
