Excerpt from Modern Business Correspondence A Practical Treatise on the Writing of Business Letters Including Many Exercises in Word Study Synonyms Ad Writing Punctuation Etc The average teacher in the public school usually has no difficulty in finding a text book suited to his needs his difficulty is to decide which of several good books he can use to the best advantage With the commercial teacher however and especially with the commercial teacher in the public school this is not always the case More and more the fact is being recognized that among the chief qualifications of the successful business man is the ability to use plain clear cut but withal graceful and effective English Commercial English is simply Everyday English coupled with the technic of the office store or factory The average text book is weak on the subject of Correspondence and the pupil is required to write letters about a great variety of matters which have no connection with each other and which frequently concern things so far beyond the scope of his knowledge and experience that he can not comprehend the supposed situation The result is that many times he makes no point in his letter because he does not understand what he is writing about uses a few worn out phrases and makes several ludicrous errors Ask the same pupil a few questions about some business or some line of work with which he is familiar and omitting the Dear Sir and Yours truly he may give you orally a fairly good business letter The plan in these lessons which have stood the test of the classroom is to take lines of business with which every pupil is more or less familiar at the beginning and present them in

such a way that the pupil will have a knowledge of the facts which make each letter necessary Thus the pupil is not forced to rely wholly upon his imagination when writing the letters About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **Modern Business**
