testimonies are an overview of the history of emigration from China and an assessment of the extent to which the Chinese overseas retain elements of Chinese culture in their lives In compiling these personal accounts Wei Djao who was born in China and now lives near Seattle undertook a quest that took her not only to many countries but also to the inner landscapes of the heart Being Chinese is a highly personal book that bares the aspirations despairs and triumphs of real people as it makes an insightful and lasting contribution to Chinese diasporic studies     An Intellectual History of Modern China Merle Goldman,Leo Ou-fan Lee,2002-05-16 This book is the only comprehensive book on modern China s intellectual history     **A Protestant Church in Communist China** John Craig William Keating,2012-02-16 Freedom of religious belief is guaranteed under the constitution of the People s Republic of China but the degree to which this freedom is able to be exercised remains a highly controversial issue Much scholarly attention has been given to persecuted underground groups such as Falun but one area that remains largely unexplored is the relationship between officially registered churches and the communist government This study investigates the history of one such official church Moore Memorial Church in Shanghai This church was founded by American Methodist missionaries By the time of the 1949 revolution it was the largest Protestant church in East Asia running seven day a week programs As a case study of one individual church operating from an historical rather than theological perspective this study examines the experience of people at this church against the backdrop of the turbulent politics of the Mao and Deng eras It asks and seeks to answer questions such as were the people at the church pleased to see the foreign missionaries leave Were people forced to sign the so called Christian manifesto Once the church doors were closed in 1966 did worshipers go underground Why was this particular church especially chosen to be the first re opened in Shanghai in 1979 What explanations are there for its phenomenal growth since then A considerable proportion of the data for this study is drawn from Chinese language sources including interviews personal correspondence statistics internal church documents and archives many of which have never previously been published or accessed by foreign researchers The main focus of this study is on the period from 1949 to 1989 a period in which the church experienced many ups and downs restrictions and limitations The Mao era in particular remains one of the least understood and seldom written about periods in the history of Christianity in China This study therefore makes a significant contribution to our evolving understanding of the delicate balancing act between compromise co operation and compliance that categorizes church state relations in modern China     Zhou Enlai Barbara Barnouin,Changgen Yu,2006 A biography of Zhou Enlai one of the most important and yet debatable political figures in the Chinese Communist Party The authors give an in depth analysis on the complex personality and controversial actions of Zhou both as a person and a leader of the CCP     Adoption of Anglo-American models of corporate governance and financial reporting in China Huiying Wu,Christopher Patel,2015-01-16 This monograph examines the adoption of Anglo American models of corporate governance and financial reporting in China It shows how the loose coupling between regulations and actual operations is shaped by the interplay between institutional

pressures and organizations conflicts of interest and power dependence within the local context      Being Chinese Wei (Angela) Djao, Wei Djao, 2003-09-01 Chinese have traveled the globe for centuries and today people of Chinese ancestry live all over the world They are the Huayi or Chinese overseas and can be found not only in the thriving Chinese communities of the United States Canada and Southeast but also in enclaves as far reaching as Cuba Zimbabwe and Peru In this book twenty two Chinese living and working outside of China ordinary people from all walks of life tell us something about their lives and about what it means to be Chinese in non Chinese societies In these pages we meet a surgeon raised in Singapore but westernized in London who still believes in the value of Chinese medicine which revitalizes you in ways that Western medicine cannot understand A member of the Chinese Canadian community who bristles at the insistence that you can't be Chinese unless you speak a Chinese dialect because Even though I do not have the Chinese language I think my ability to manifest many things in Chinese culture to others in English is still very important Individuals all loyal to their countries of citizenship who continue to observe the customs of their ancestral home to varying degrees whether performing rites in memory of ancestors practicing fengshui wearing jade for good luck or giving out red packets of lucky money for New Year What emerges from many of these accounts is a selective adherence to Chinese values One person cites a high regard for elders for high achievement and for the sense of togetherness fostered by his culture Another the bride in an arranged marriage to a transplanted Chinese man speaks highly of her relationship It's the Chinese way to put in the effort and persevere Several of the stories consider the difference between how Chinese women overseas actually live and the stereotypes of how they ought to live One writes Coming from a traditional Chinese family which placed value on sons and not on daughters it was necessary for me to assert my own direction in life rather than to follow in the traditional paths of obedience Bracketing the testimonies are an overview of the history of emigration from China and an assessment of the extent to which the Chinese overseas retain elements of Chinese culture in their lives In compiling these personal accounts Wei Djao who was born in China and now lives near Seattle undertook a quest that took her not only to many countries but also to the inner landscapes of the heart Being Chinese is a highly personal book that bares the aspirations despairs and triumphs of real people as it makes an insightful and lasting contribution to Chinese diasporic studies      **The Unfought**

groups and organizations Lai revised and expanded his writings over more than thirty years as changing political climates allowed for greater acceptance of leftist activities and access to previously confidential documents Drawing on Chinese and English language sources and echoing the strong loyalties and mobility of the activists and idealists he depicts Lai delivers the most comprehensive treatment of Chinese transnational politics to date      **Paradigm Shifts in Chinese Studies**

Lu,2006-09-27 In this pioneering study of contemporary Chinese urban form Duanfang Lu provides an analysis of how Chinese society constructed itself through the making and remaking of its built environment She shows that as China s quest for modernity created a perpetual scarcity as both a social reality and a national imagination the realization of planning ideals was postponed The work unit the socialist enterprise or institute gradually developed from workplace to social institution which integrated work housing and social services The Chinese city achieved a unique geography made up in large part of self contained work units Remaking Chinese Urban Form provides an important reference for academics and students conducting research on China It will be a key source for courses on Asia in architecture urban planning geography sociology and anthropology at both the graduate and undergraduate level The insightful yet accessible introduction to urban China will also be of interest to architects urban designers and planners as well as general audience who wish to learn about contemporary Chinese society      *Catalogue of the University of Michigan* University of Michigan,1966 Announcements for the following year included in some vols
