Modern East Asia Essays In Interpretation:

Modern East Asia: Essays in Interpretation Frederic E. Wakeman, 1970 Modern East Asia, 1970 **Historical Perspectives on Contemporary East Asia** Merle Goldman, Andrew Gordon, 2000-08-15 In these original essays distinguished scholars of modern East Asia distill from long years of research interpretive accounts of late nineteenth and twentieth century China Japan and Korea All of the contributors describe particular features of the modern experience of East Asian countries while also addressing common themes China in War and Revolution, 1895-1949 Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this book explores the events that led to the rise of communism and a strong central state during the early twentieth century *China's Last Imperial Frontier* Xiuyu Wang, 2011-11-28 China's Last Imperial Frontier explores imperial China's frontier expansion in the Tibetan borderlands during the last decades of the Qing The empire mounted a series of military attacks against indigenous chieftaincies and Buddhist monasteries in the east Tibetan region seeking to replace native authorities with state bureaucrats by redrawing the politically diverse frontier into a system of Chinese style counties Historically at all the strategic frontier locations the state had been for the most part outstripped by local institutions in political military and ideological strengths With perceived threats from the Anglo Russian Great Game accentuating Qing vulnerability in Tibet the Sichuan government took advantage of the frontier crisis by encroaching upon local and Lhasa domains in Kham Even though the Kham campaign was portrayed in Qing official discourse as a part of the nationwide reforms of New Policies xinzheng and administrative regularization gaitu guiliu its progress on the ground was influenced by the dynamics of interregional relations including Sichuan's competition with central Tibet power struggles among Qing frontier officials and varied Khampa responses to the new regime The growing regionalism intensified the resistance of local forces to imperial authority Despite the uneven results of the late Qing campaign it had come to serve as an important source of sovereignty claims and policy inspirations for the subsequent governments *Foreign Affairs Research Papers Available* Foreign Affairs Research Documentation Center, 1970 **War and National Reinvention** Frederick R. Dickinson, 2020-03-23 For Japan as one of the victorious allies World War I meant territorial gains in China and the Pacific At the end of the war however Japan discovered that in modeling itself on imperial Germany since the nineteenth century it had perhaps been imitating the wrong national example Japanese policy debates during World War I particularly the clash between proponents of greater democratization and those who argued for military expansion thus became part of the ongoing discussion of national identity among Japanese elites This study links two sets of concerns the focus of recent studies of the nation on language culture education and race and the emphasis of diplomatic history on international developments to show how political diplomatic and cultural concerns work together to shape national identity **Finance And Empire** Roberta A Dayer, 1988-11-24 American Political and Cultural Perspectives on Japan John H. Miller, 2014-04-02 American Political and Cultural Perspectives on Japan From Perry

to Obama is an historical survey of how Americans have viewed Japan during the past 160 years. It encompasses the diplomatic, political, economic, social, and cultural dimensions of the relationship with an emphasis on changing American images, myths, and stereotypes of Japan and the Japanese. It begins with the American opening of Japan in the 1850s and 1860s. Subsequent chapters explore American attitudes toward Japan during the Gilded Age, the early 1900s, the 1920s, the 1930s, and the Pacific War. The second part of the book, organized round the theme of the postwar Japanese American partnership, covers the Occupation, the 1960s, the troubled 1970s and 1980s, and the post Cold War decades down to the Obama presidency. The conclusion offers some predictions about how Americans are likely to view Japan in the future.

Rebellions and Revolutions Jack Gray, 2003-04-03 This is a study of China from the 1800s to the present day. It focuses on China's problems of development, the decay and collapse of the Chinese Empire, its failure to recover in the first half of the twentieth century, and its rapid emergence in world affairs since the Communist Party Revolution of 1949. This new edition examines economic growth, updates Chinese foreign policy, provides a revised account of the Tiananmen Incident, and brings the chronology completely up to date.

States and Social Revolutions Theda Skocpol, 2015-09-29 State structures, international forces, and class relations. Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations. Social revolutions have been rare but undeniably of enormous importance in modern world history. *States and Social Revolutions* provides a new frame of reference for analyzing the causes, the conflicts, and the outcomes of such revolutions. It develops a rigorous comparative historical analysis of three major cases: the French Revolution of 1787 through the early 1800s, the Russian Revolution of 1917 through the 1930s, and the Chinese Revolution of 1911 through the 1960s. Believing that existing theories of revolution, both Marxist and non-Marxist, are inadequate to explain the actual historical patterns of revolutions, Skocpol urges us to adopt fresh perspectives. Above all, she maintains that states conceived as administrative and coercive organizations, potentially autonomous from class controls and interests, must be made central to explanations of revolutions.

Antiquity and Anachronism in Japanese History Jeffrey P. Mass, 1992 This collection of essays is built around a major but previously unstudied theme in Japanese history: the extent to which the exaggeration of antiquity has distorted historical understanding.

Myopic Grandeur John E. Dreifort, 1991 France's effort to maintain its presence as a great world power is the subject of *Myopic Grandeur*, a study of French foreign policy initiatives in the Far East from World War I until the conclusion of World War II.

Between Tradition and Modernity Paul A. Cohen, 2020-03-17 A study and critical analysis of the late nineteenth century journalist and reformer Wang T ao and the process of reform in Late Ching China.

Asian States Richard Boyd, Tak-Wing Ngo, 2005-01-26 A team of international leading experts provide a much needed re-examination of the theoretical claims and the empirical foundation of developmental state theory. *Asian States* argues that regardless of the merits of the developmental state as an explanation of economic growth, it falls far short of being an adequate theory of the state in Asia. The contributors critically review claims

about agency state society and state market relations that shape developmental projects It broadens the analysis of state involvement in developmental projects and considers the variety of political and social bases for state projects across East and Southeast Asia in a theoretically sensitive thematic and empirically rich way **Modernization of Japan** Gbingba Gbosoe,2006-09 The Japanese are a diligent people constantly working to ensure institutional success The Japanese have an innate ability to copy foreigners In their effort to build a strong country the Japanese sought knowledge from abroad and perfected these learnings in order to effect rapid national development In their quest for progress the Japanese have cherished the trait of national self reliance Until the Meiji Restoration Japan had pursued a national policy of seclusion that forbade almost all contact with the outside world The nineteenth century was one of exploration and imperialism for most of the world The Japanese would not be left alone merely because they wanted to pursue a national policy of autarchy European powers began establishing commercial relations with Japan In 1853 a commodore in the US Navy visited Japan with the aim of opening trade contacts After years of negotiations treaties were signed authorizing an opening of a few ports to foreign trade Simultaneously Japan embarked on a policy of expansion in China and Korea due to its need for fertile soil and natural resources This policy led to war with China in 1894 and with Russia **The War Against Japan, 1941-1945** John J. Sbrega,2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA s fight against Japan in the Second World War Including books articles and de classified documents up to the end of 1987 the book is organized into six categories Part 1 presents reference works including encyclopedias pictorial accounts military histories East Asian histories historiographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military aspects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru **The Origins of the Korean Community in Japan, 1910-1923** Michael Weiner,1989 *Enigma of the Emperors* Ben-Ami Shillony,2021-10-01 This important new and original study on the institution of the Japanese emperors from their mythological beginnings to the present day focuses on the enigma of the institution itself namely the extraordinary continuity of the Japanese dynasty which is unknown anywhere else in the world yet which is now at risk on account of more recent laws of succession The prisms through which this remarkable achievement is examined are the notions of divinity gender and subservience The volume is divided into nine sections Strange Survival The Feminine Beginnings of the Japanese Monarchy Empresses and Consorts Subservience as Power Rising Fortunes in an Era of Peace Meiji the National Father Figure The Elusive Divinity of the Modern Emperors Return to Sacred Subservience Continuity in Danger Based on earlier research first published in Japanese Haha Naru Tenno *Enigma of the Emperors* adds significantly to the existing corpus of work on this subject addressing many traditional preconceptions and misconceptions along the way Accordingly it will

undoubtedly be welcomed within scholarly circles as well as being of particular interest to a wider readership not least because of its relevance in the context of the major contemporary issues surrounding the future of the dynasty in the twenty first century

Japan Milton W. Meyer, 2012-08-09 The emergence of Japan as a political and economic global power has been one of the most remarkable success stories of modern history Though small in geographic area the archipelago is the tenth most populous country with 128 million inhabitants crowded into an area the size of Montana Its natural resources are almost nonexistent yet today it ranks only second after the much larger United States as the most affluent and economically productive nation in the world Its rich cultural heritage and high tech society are equally vibrant For all readers wanting to better understand this dynamic country this popular and accessible introduction offers an authoritative yet concise overview of two thousand years of Japanese history Now fully updated to the present this edition also includes an array of photographs and illustrations The first half of the book explores the pre Meiji era up to 1868 The second half traces domestic changes and relevant foreign issues in the modernizing era launched by the Meiji Restoration Highlighting key historical events Milton W Meyer also includes cultural artistic and religious milestones Summaries and datelines at the end of each chapter as well as a glossary offer additional essential reference points With its clear explanations of Japanese traditions religion history economics politics and relations with the West this book provides an invaluable guide for understanding contemporary Japan

Getting the books **Modern East Asia Essays In Interpretation** now is not type of inspiring means. You could not by yourself going once books accrual or library or borrowing from your friends to entry them. This is an unquestionably simple means to specifically acquire lead by on-line. This online statement Modern East Asia Essays In Interpretation can be one of the options to accompany you in the same way as having extra time.
