*"The best single narrative history of the Kurds . . .  
It certainly belongs on the shelf of anyone  
interested in the Middle East today"*

—Washington Post Book World

# A Modern History of THE KURDS

David McDowall

FOURTH EDITION

# Modern History Of Kurds

**Elsa Tulin Sen**

## **Modern History Of Kurds:**

**A Modern History of the Kurds** David McDowall, 1997 David McDowall examines the interplay of old and new aspects of the struggle the importance of local rivalries within Kurdish society the enduring authority of certain forms of leadership and the failure of modern states to respond to the challenge of Kurdish nationalism **The Kurds** Michael M.

Gunter, 2015-06 The approximately 30 million or more Kurds famously constitute the largest nation in the world without its own independent state The desire of many Kurds for independence or at least cultural and even political autonomy has led to an almost continuous series of Kurdish revolts The resulting situation constitutes the Kurdish problem or question Calling on more than 30 years of studying the Kurdish issue numerous trips to the region and many contacts among the Kurds including almost all of their main leaders Michael Gunter has written a short but thorough history of the Kurds that is well documented but still proves very readable His narrative also includes numerous interesting personal experiences that will further explain these people who are for the most part moderate Muslims in favour of gender equality and are also wildly pro American

Studies in Kurdish History Djene Rhys Bajalan, Sara Zandi Karimi, 2017-07-06 Recent events in the Middle East have propelled the once marginalized Kurdish community to the centre of regional and indeed world affairs The growing significance of the Kurds in the politics of the Middle East has lead to greater interest amongst both academics and policy makers regarding the community s culture politics and history This current volume seeks address this growing interest by presenting a selection of articles from leading experts on the history of the Kurds These articles scrutinize a variety of subjects which provide important context to today s Kurdish question It includes contributions which contextualize the evolution of a distinctive Kurdish identity and culture Furthermore it includes works which seek to examine the impact of the gradual transformation of state power in the Middle East more precisely the breakdown of imperial orders and the concurrent emergence of the modern nation state on the relationship between the Kurds and the central governments under which they lived during the nineteenth and early twentieth century In doing so this volume will be of interest to all those wishing to gain a deeper historical understand of the present day Kurdish affairs This book was published as a special issue of Iranian Studies Kurds and Their Struggle for Autonomy Mehran Tamadonfar, Roman Lewis, 2024-04-08 Kurds and their

Struggle for Autonomy Enduring Identity and Clientelism is a comprehensive study of the roots of Kurdish identity the processes of identity formation among the Kurds and the Kurds seemingly never ending struggle for self determination By relying on a hybrid theoretical model of identity politics this book offers a thorough treatment of the origins characteristics and evolution of Kurdish culture in general and political culture in particular It also examines the historical explanations and nuances of Kurdish struggles for some form of autonomy assesses economic imperatives that shape the potentials and challenges of Kurdish social and political life and offers a critical review of the contemporary Kurdish institutional and policy dynamics in Iraq and Syria **A Modern history of the Kurds** David MacDowall, 1977 **The Kurdish National**

**Movement in Turkey** Cengiz Gunes,2013-01-11 This book provides an interpretive and critical analysis of Kurdish identity nationalism and national movement in Turkey since the 1960s By raising issues and questions relating to Kurdish political identity and highlighting the ideological specificity diversity and the transformation of Kurdish nationalism it develops a new empirical dimension to the study of the Kurds in Turkey Cengiz Gunes applies an innovative theoretical approach to the analysis of an impressively large volume of primary sources and data drawn from books and magazines published by Kurdish activists political parties and groups The analysis focuses on the specific demands articulated by the Kurdish national movement and looks at Kurdish nationalism at a specific level by disaggregating the nationalist discourse showing variations over time and across different Kurdish nationalist organisations Situating contemporary Kurdish political identity and its political manifestations within a historical framework the author examines the historical and structural conditions that gave rise to it and influenced its evolution since the 1960s The analysis also encompasses an account of the organisational growth and evolution of the Kurdish national movement including the political parties and groups that were active in the period Bringing the study of the organisational development and growth of the Kurdish National Movement in Turkey up to date this book will be an important reference for students and scholars of Middle Eastern politics social movements nationalism and conflict

*Kurds* Mehrdad Izady,2015-06-03 First Published in 1993 Since before the dawn of recorded history the mountainous lands of the northern Middle East have been home to a distinct people whose cultural tradition is one of the most authentic and original in the world Some vestiges of Kurdish life and culture can actually be traced back to burial rituals practiced over 50 000 years ago by people inhabiting the Shanidar Caves near Arbil in central Kurdistan In this book the author has tried to identify and delineate the heritage of the Kurds now thoroughly submerged in the accepted and standard models for subdividing Middle Eastern civilization none of which is designed to accommodate the stateless Kurds

Nation and Class in the History of the Kurdish Movement Nicola Degli Esposti,2022-10-11 This book covers over a century of history from the emergence of Kurdish nationalism in the interwar period to the 2010s when for the first time in modern history Kurdish forces controlled two autonomous political entities in Iraq and Syria as well as over a hundred municipalities in south eastern Turkey In these years of momentous advance for Kurdish forces across the region Kurdish politics remains deeply divided into competing movements pursuing irreconcilable projects for the future of the nation The author investigates the origins of the present divide in the history of Kurdish nationalism The book turns the historical sociology to study nationalism as embedded in social conflicts through a comparative analysis of the history of the Kurdish movement in Iraq and Turkey by reassessing the literature on Kurdish politics and filling its gaps with numerous interviews with witnesses and scholars

**The Kurdish Movement in Turkey** Elsa Tulin Sen,2025-08-21 This book examines the Kurdish movement in the context of total social movement theory First tracing its origins as a conventionally nationalist movement Elsa Sen draws upon Alan Touraine s concept of a total social movement to argue that from 2000 to 2015 the

Kurds in Turkey pursued a policy of engaging in a peace process channeling energy into civil society activism and electoral campaigns and promoting an inclusive understanding of national identity for all the components of Turkish society not just the Kurds in a hypothetically fully functioning democracy Both theoretically informed and drawing upon empirical research in the form of interviews with Kurdish and Turkish activists non activists and political representatives the book provides a new perspective on contemporary Kurdish politics as oscillating between nationalist and social movement paradigms with the recent decline of the latter due to the resumption of military action by the Turkish state and the Kurdistan Workers Party after 2015 The Militant Kurds Vera Eccarius-Kelly,2010-12-07 This extensive examination of the Kurdish conflict in

Turkey Iraq Germany and the EU focuses on the history and development of the Kurdish Workers Party PKK and its impact on transnational security human rights and democratization The Militant Kurds A Dual Strategy for Freedom explores the complexity of the 30 year guerrilla war of the Kurdish Workers Party PKK against the Turkish Republic identifying longstanding obstacles to peace and probing the new dynamics that may lead to an end to the conflict In doing so the book provides fascinating insights into Turkey's national ethos its dominant military culture and civil society's struggle for increased democratization The Militant Kurds offers an extensive analysis of the precarious position of the Kurdish minority beginning with the establishment of the modern Turkish republic in 1923 Divided into five sections examining current political realities in Turkey the book investigates the role of Islam and ethnicity analyzes the rise of the PKK discusses Turkish military culture and explains the international dimensions of the Kurdish conflict Comparative historical political and socioeconomic examples contextualize the long struggle for Kurdish self determination Each chapter offers an analysis of the underlying dynamics of the conflict and provides up to date explanations *Routledge Handbook on the Kurds* Michael

Gunter,2018-08-06 With an estimated population of over 30 million the Kurds are the largest stateless nation in the world They are becoming increasingly important within regional and international geopolitics particularly since the 2003 invasion of Iraq the Arab Spring and the war in Syria This multidisciplinary Handbook provides a definitive overview of a range of themes within Kurdish studies Topics covered include Kurdish studies in the United States and Europe Early Kurdish history Kurdish culture literature and cinema Economic dimensions Religion Geography and travel Kurdish women The Kurdish situation in Turkey Iraq Syria and Iran The Kurdish diaspora With a wide range of contributions from many leading academic experts this Handbook will be a vital resource for students and scholars of Kurdish studies and Middle Eastern studies

Comparative Kurdish Politics in the Middle East Emel Elif Tugdar,Serhun Al,2017-09-12 This edited volume introduces the political social and economic intra Kurdish dynamics in the Middle East by comparatively analyzing the main actors their ideas and political interests As an ethnic group and a nation in the making Kurds are not homogeneous and united but rather the Kurdish Middle East is home to various competing political groups leaderships ideologies and interests Although many existing studies focus on the Kurds and their relations with the nation states that they populate few studies analyze the

Kurdish Middle East within its own debates conflicts and interests from a comparative perspective across Iran Iraq Turkey and Syria This book analyzes the intra Kurdish dynamics with historically grounded theoretically informed and conceptually relevant scholarship that prioritizes comparative politics over international relations **The Future of Kurdistan** Kerim Yildiz,2011-12-05 During the United States military occupation of Iraq the Kurdistan region was one of the few places in the country where insurgent violence was not a daily occurrence However as tension with the Iraqi central government increases over issues of security oil and gas management and the disputed territory of Kirkuk and with Turkey and Iran continuing their cross border military operations Kurdistan Iraq faces numerous challenges The current context allows for a fresh look at the situation of the Kurds in Iraq No longer subject to the cruel regime of Saddam Hussein the Kurds are set to be important figures in the shaping of Iraq s future The Future of Kurdistan The Iraqi Dilemma focuses on how issues faced by Kurdistan Iraq today are being dealt with by both central government and international forces as well as on the prospects for Kurdistan and Iraq s political economic and cultural future **Sold Out? US Foreign Policy, Iraq, the Kurds, and the Cold War** Bryan R. Gibson,2016-04-29 This book analyzes the ways in which US policy toward Iraq was dictated by America s broader Cold War strategy between 1958 and 1975 While most historians have focused on hot Cold War conflicts such as Cuba Vietnam and Afghanistan few have recognized Iraq s significance as a Cold War battleground This book argues that US decisions and actions were designed to deny the Soviet Union influence over Iraq and to create a strategic base in the oil rich Gulf region Using newly available primary sources and interviews this book reveals new details on America s decision making toward and actions against Iraq during the height of the Cold War and shows where Iraq fits into the broader historiography of the Cold War in the Middle East Further it raises important questions about widely held misconceptions of US Iraqi relations such as the CIA s alleged involvement in the 1963 Ba thist coup and the theory that the US sold out the Kurds in 1975 The Kurds and Kurdistan Lokman I. Meho,1997-06-25 As the Kurdish question becomes more prominent in Middle Eastern politics it is attracting attention from the media the academic community and governmental and non governmental organizations Swamped with questions from the press and academic departments students of Kurdish topics have needed a comprehensive bibliography on the Kurds This book meets that need An introductory essay provides users with general background information on the Kurds and Kurdistan With over 800 entries the annotated bibliography provides information on the most important works about the Kurds and Kurdistan published from World War II through 1996 Emphasizing recent titles the book focuses on English language scholarly works Arranged in topical chapters the book opens with a section on general works then covers travel works history and archaeology politics minorities and religion in Kurdistan society economy language and education literature and folklore and culture and arts The Kurdish Liberation Movement in Iraq Yaniv Voller,2014-09-04 Investigating the transformation of the Kurdish liberation movement in Iraq this book explores its development from an armed guerrilla movement engaged in a war for liberation with the government in Baghdad into the

government of a de facto Kurdish state known as the Kurdistan Regional Government The book seeks to better explain the nature and evolution of the Kurdish liberation struggle in Iraq which has had important implications over regional geopolitics Despite attracting growing international attention the struggle remains understudied By applying the theoretical framework of de facto statehood to the post 1991 Kurdish liberation movement the book offers a new approach to understanding the struggle with a thorough empirical investigation informed by International Relations theory Identifying international legitimacy interaction and identity as significant themes in the politics of de facto states and important variables shaping the evolution and policies of these actors at both the domestic and international levels this book will be of interest to students and researchers of International Relations Middle East Politics and Political Science Federalism and Decentralization in the Contemporary Middle East Aslı Ü. Bâli, Omar M. Dajani, 2023-01-05 The first book in English on the law and politics of federalism and decentralization in the MENA region *Kurdish Studies - Volume 8 Issue 2 - October 2020* Marlene Schäfers, Metin Atmaca, Ronay Bakan, Hazal Hürman, Michael Knapp, Joost Jongerden, Cihan Erdost Akin, David Romano, Martin van Bruinessen, Kurdish Studies is the leading journal in the field In his editorial for last year's May issue of Kurdish Studies founding editor Prof Ibrahim Sirkeci noted how navigating the highly contested and politically charged field of Kurdish studies required impartiality and a commitment to academic integrity on the part of the journal Yet our professed impartiality does not mean that we stand aloof from social and political developments nor that our editorial work is not guided by a number of moral political and academic principles As the leading scholarly journal in the field of Kurdish studies we are aware of the role that the journal plays in creating structures of visibility shaping knowledge production and not least influencing careers We therefore believe that the recent discussion on male violence and sexual harassment in Kurdish studies which was initiated by the publication of an anonymous letter via the Kurdish Studies Network is of direct significance to the journal It has initiated a discussion that was in many ways long overdue both for the field as a whole and for our journal **The Kurdish Nationalist Movement in the 1990s** Robert W. Olson, 1996-10-31 Describes the situation of the world's largest ethnic group without a homeland and explains the effect on the politics of Turkey and other countries where Kurds live State Terrorism and Human Rights Gillian Duncan, 2013 This book aims to improve understanding of the broad trends in the utilisation of political violence by examining the use of state terror in world politics The ending of the Cold War and the overthrow of communism in Eastern Europe led many to assume that this presaged the demise of the one party terror regime and acceptance of Western concepts of democracy freedom and human rights throughout the international system But of course this did not end state terror The totalitarian one party state still exists in North Korea and China and there are numerous military regimes and other forms of dictatorship where the use of terror techniques for internal control is routine The late Professor Paul Wilkinson conceived and began this project with the intention of analysing the major types of international response to state terror as well as their outcomes and their wider implications for the future

of international relations In keeping with this original premise the contributors explore the history of terrorism as well as reflecting on the need for international cooperation based on the protection of civilians and a consistent approach to intervention in conflict situations This book will be of much interest to students of terrorism studies political violence human rights genocide and IR in general
