understand that experience of adult learner is a living text book and teachers can go through the language programme by cooperating with adult learners

Adult Learning Strategies and Approaches Duncan Sidwell, 1987-01-01 *Language Learning Strategies in Independent Settings* Stella Hurd, Tim Lewis, 2008 In recent years traditional classroom based language tuition has been increasingly overshadowed by innovative approaches such as distance learning supported independent learning and blended learning with an online component This timely volume examines the use of language learning strategies in a range of independent settings and addresses key issues for independent learners such as autonomy strategic awareness and self regulation

Adult Learning in the Language Classroom Stacey Margarita Johnson, 2015-09-17 This book explores connections between the fields of foreign second language teaching and adult learning This interdisciplinary approach serves as a framework in order to understand the teaching methods that promote the deeper more critical sort of language learning advocated by scholars and professional organizations b understand how adult students learn and transform through language study and c reinforce the immense value of beginning language courses Johnson studies a classroom of adult language learners for one semester exploring issues of motivation and perceived value for these short term learners as well as touching on issues around intercultural communication teaching and learning The book will be of interest to adult language teachers as well as researchers studying adult education and second language learning

The Routledge Handbook of Language Learning and Teaching Beyond the Classroom Hayo Reinders, Chun Lai, Pia Sundqvist, 2022-05-30 Informal language learning beyond the classroom plays an important and growing role in language learning and teaching This Handbook brings together the existing body of research and unites the various disciplines that have explored this area in order to present the current state of knowledge in one accessible resource Much of adult learning takes place outside of formal education and for language learning it is likely that out of class experiences play an equally important role It is therefore surprising that the role of informal language learning has received little attention over the years with the vast majority of research instead focusing on the classroom Researchers from a range of backgrounds however have started to realise the important contribution of informal language learning both in its own right and in its relationship with classroom learning Studies in the areas of learner autonomy learning strategies study abroad language support learners voices computer mediated communication mobile assisted language learning digital gaming and many others all add to our understanding of the complex and intersecting ways in which learners construct their own language learning experiences drawing from a wide range of resources including materials teachers self study technology other learners and native speakers This Handbook provides a sound and comprehensive basis for researchers and graduate students to build upon in their own research of language learning and teaching beyond the classroom
