Freeburger, 1964 Study of primary education and higher education in university and other types of training centres for students and teachers in Peru Historical development of education Bibliography pp 53 57 Statistical tables **Bulletin**, 1964 Information on Education Around the World, 1961 National Defense Resources Conference Industrial College of the Armed Forces (U.S.), 1962 *Cooperation and Hegemony in US-Latin American Relations* Andrew R. Tillman, 2016-03-29 This edited volume revisits the idea of the Western Hemisphere First articulated by Arthur P Whitaker in 1954 but with origins in the earlier work of Herbert E Bolton it is the idea that the peoples of this Hemisphere stand in a special relationship to one another which sets them apart from the rest of the world Whitaker 1954 For most scholars of US Latin American relations this is a curious concept They often conceptualize US Latin American relations through the prism of realism and interventionism While this volume does not deny that the United States has often acted as an imperial power in Latin America it is unique in that it challenges scholars to re think their preconceived notions of inter American relations and explores the possibility of a common international society for the Americas especially in the realm of international relations Unlike most volumes on US Latin American relations the book develops its argument in an interdisciplinary manner bringing together different approaches from disciplines including international relations global and diplomatic history human rights studies and cultural and intellectual history *International Politics*, 1960 **Latin America's Turbulent Transitions** Roger Burbach, Michael Fox, Federico Fuentes, 2013-02-14 Over the past few years something remarkable has occurred in Latin America For the first time since the Sandinista Revolution in Nicaragua in the 1980s people within the region have turned toward radical left governments specifically in Venezuela Bolivia and Ecuador Why has this profound shift taken place and how does this new so called Twenty First Century Socialism actually manifest itself What are we to make of the often fraught relationship between the social movements and governments in these countries and do in fact the latter even qualify as socialist in reality These are the bold and critical questions that Latin America's Turbulent Transitions explores The authors provocatively argue that

although US hegemony in the region is on the wane the traditional socialist project is also declining and something new is emerging Going beyond simple conceptions of the left the book reveals the true underpinnings of this powerful transformative and yet also complicated and contradictory process **Latin American History I** Russell S.
