Case Studies Workbook to Modern Administrative Practices in Physical Education and Athletics Matthew C. Resick, 1970 Sports Equipment Management Marcia L. Walker, 1993 Contemporary Sport Management Paul M. Pedersen, 2024-10-17 For over 25 years *Contemporary Sport Management* has been the most comprehensive authoritative introductory text in the field and the improved eighth edition promises to serve the needs of sport management students even better. Sixty contributors representing a diverse array of scholarly and practitioner backgrounds have teamed up to deliver a timely text to keep pace with the ever changing sport management landscape. Nearly a third of the contributors are new to this edition adding fresh perspectives, examples and experiences to the mix. This full color text is organized into three parts and aligns with Common Professional Component principles set forth by the Commission on Sport Management Accreditation (COSMA). Part I: Introduction to Sport Management provides an overview and covers the foundational elements of the field. Part II: Sport Management Sites exposes students to career opportunities through various sport entities including interscholastic, intercollegiate and professional sport organizations and agencies. In part III: Sport Management Functions, readers learn about the core functional areas of sport management including sport marketing, communication, sales and consumer behavior, analytics, finance, facility and event management, and law. Much has changed in the sport industry since the previous edition was published: name image and likeness (NIL) rules, social justice and inclusion initiatives, conference realignments, billion dollar media rights deals, opportunities for women in sports and the proliferation of artificial intelligence, sport analytics and virtual reality and augmented reality, just to name a few. Each chapter incorporates new content, case studies and sidebars addressing these and other trending topics. Other additions include a section on sport tourism and a new chapter dedicated to esports discussing its ecosystem, global expansion and career opportunities. Supplementing the text are online learning materials delivered through HXPropel that are designed to increase student engagement and enhance understanding of chapter content. More than 200 activities, Case Studies in Sport Management journal articles and case study sidebars underscore key concepts and challenge students to think critically about sport management so they can develop insight into issues they will encounter in their careers. Case studies new to this edition examine the 2026 World Cup marketing of women's sports, facility management and player safety. *Contemporary Sport Management* has long been a favorite of instructors and students propelled by its engaging content and visuals, full color design, robust pedagogical aids, integrated online learning tools and extensive instructor ancillaries. The updated eighth edition continues that tradition broadening students
