Teaching American History in a Global Context Carl J. Guarneri, Jim Davis, 2015-07-17 This comprehensive resource is an invaluable teaching aid for adding a global dimension to students understanding of American history It includes a wide range of materials from scholarly articles and reports to original syllabi and ready to use lesson plans to guide teachers in enlarging the frame of introductory American history courses to an international view The contributors include well known American history scholars as well as gifted classroom teachers and the book s emphasis on immigration race and gender points to ways for teachers to integrate international and multicultural education America in the World and the World in America in their courses The book also includes a Views from Abroad section that examines problems and strategies for teaching American history to foreign audiences or recent immigrants A comprehensive annotated guide directs teachers to additional print and online resources

Rethinking American History in a Global Age Thomas Bender, 2002-05-14 In rethinking and reframing the American national narrative in a wider context the contributors to this volume ask questions about both nationalism and the discipline of history itself The essays offer fresh ways of thinking about the traditional themes and periods of American history By locating the study of American history in a transnational context they examine the history of nation making and the relation of the United States to other nations and to transnational developments What is now called globalization is here placed in a historical context A cast of distinguished historians from the United States and abroad examines the historiographical implications of such a reframing and offers alternative interpretations of large questions of American history ranging from the era of European contact to democracy and reform from environmental and economic development and migration experiences to issues of nationalism and identity But the largest issue explored is basic to all histories How does one understand teach and write a national history even as one recognizes that the territorial boundaries do not fully contain that history and that within that bounded territory the society is highly differentiated marked by multiple solidarities and identities *Rethinking American History in a Global Age* advances an emerging but important conversation marked by divergent voices many of which are represented here The various essays explore big concepts and offer historical narratives that enrich the content and context of American history The aim is to provide a history that more accurately reflects the dimensions of American experience and better connects the past with contemporary concerns for American identity structures of power and world presence

Picturesque Literature and the Transformation of the American Landscape, 1835-1874 John Evelev, 2021 This work challenges dominant narratives of the concerns of nineteenth century literature to show how supposedly minor works of picturesque helped transform the American landscape and create what we now recognize as the defining spaces of American life

Dark Light Linda Simon, 2004 From the invention of the telegraph to the discovery of X rays Simon has created a revealing portrait of an

anxious age when Americans welcomed electricity into their bodies even as they kept it from their homes **America, History and Life** ,1997 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide **New Essays on Call It Sleep** Hana Wirth-Nesher,1996-06-13 A 1996 collection of critical essays on Henry Roth s *Call It Sleep* **New York Nocturne** William Sharpe,2008 As early as the 1850s gaslight tempted New Yorkers out into a burgeoning nightlife filled with shopping dining and dancing Electricity later turned the city at night into an even more stunning spectacle of brilliantly lit streets and glittering skyscrapers The advent of artificial lighting revolutionized the urban night creating not only new forms of life and leisure but also new ways of perceiving the nocturnal experience *New York Nocturne* is the first book to examine how the art of the gaslit and electrified city evolved and how representations of nighttime New York expanded the boundaries of modern painting literature and photography Exploring the myriad images of Manhattan after dark *New York Nocturne* shows how writers and artists took on the city s nocturnal blaze and transformed the scintillating landscape into an icon of modernity The book traces key metaphors of the nighttime city a seductive Babylon in the mid 1850s a misty fairyland colonized by an empire of light in the early twentieth century and a skyscraper studded land of desire that became a stage for the voyeurism and violence of the 1940s and 1950s The epilogue suggests how these themes have continued to shape our vision of nighttime New York ever since Abundantly illustrated *New York Nocturne* includes original readings of works by Whitman Poe Whistler Riis Stieglitz Abbott O Keeffe Stella Hopper Weegee Ellison Jacquette and many others Collectively they tell a fascinating story about the relationship between night art and modern urban life **New York Magazine** ,1983-02-21 *New York* magazine was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Windows for the world** Jasmine Allen,2018-04-12 *Windows for the world* explores the display and reception of nineteenth century British stained glass in a secular exhibition context International in scope the book focuses on the global development of stained glass in this period as showcased at and influenced by these exhibitions It recognises those who made and exhibited stained glass and demonstrates the long lasting impact of the classification and modes of display at these events A number of exhibits are illustrated in colour and are analysed in relation to stylistic developments techniques and material innovations as well as the broader iconographies of nation and empire in the nineteenth century *The Architecture of Pleasure* Josephine Kane,2016-03-16 The amusement parks which first appeared in England at the turn of the twentieth century represent a startlingly novel and complex phenomenon combining fantasy architecture new technology ersatz danger spectacle and consumption in a new mass experience Though drawing on a diverse range of existing leisure practices the particular

entertainment formula they offered marked a radical departure in terms of visual experiential and cultural meanings. The huge socially mixed crowds that flocked to the new parks did so purely in the pursuit of pleasure which the amusement parks commodified in exhilarating new guises. Between 1906 and 1939 nearly 40 major amusement parks operated across Britain. By the outbreak of the Second World War millions of people visited these sites each year. The amusement park had become a defining element in the architectural psychological pleasurescape of Britain. This book considers the relationship between popular modernity, pleasure and the amusement park landscape in Britain from 1900-1939. It argues that the amusement parks were understood as a new and distinct expression of modern times which redefined the concept of public pleasure for mass audiences. Focusing on three sites: Blackpool Pleasure Beach, Dreamland in Margate and Southend's Kursaal, the book contextualises their development with references to the wider amusement park world. The meanings of these sites are explored through a detailed examination of the spatial and architectural form taken by rides and other buildings. The rollercoaster, a defining symbol of the amusement park, is given particular focus as is the extent to which discourses of class, gender and national identity were expressed through the design of these parks.

African Reflections on the American Landscape Brian D. Joyner, 2003. Ethnic Landscapes of America John A. Cross, 2017-06-19. This volume provides a comprehensive catalog of how various ethnic groups in the United States of America have differently shaped their cultural landscape. Author John Cross links an overview of the spatial distributions of many of the ethnic populations of the United States with highly detailed discussions of specific local cultural landscapes associated with various ethnic groups. This book provides coverage of several ethnic groups that were omitted from previous literature including Italian Americans, Chinese Americans, Japanese Americans and Arab Americans, plus several smaller European ethnic populations. The book is organized to provide an overview of each of the substantive ethnic landscapes in the United States. Between its introduction and conclusion, which looks towards the future, the chapters on the various ethnic landscapes are arranged roughly in chronological order such that the timing of the earliest significant surviving landscape contribution determines the order the groups will be viewed. Within each chapter, the contemporary and historical spatial distribution of the ethnic groups are described, the historical geography of the group's settlement is reviewed, and the salient aspects of material culture that characterize or distinguish the group's ethnic landscape are discussed. *Ethnic Landscapes of America* is designed for use in the classroom as a textbook or as a reader in a North American regional course or a cultural geography course. This volume also can function as a detailed summary reference that should be of interest to geographers, historians, ethnic scholars, other social scientists, and the educated public who wish to understand the visible elements of material culture that various ethnic populations have created on the landscape.
