The Rhetorical Leadership of Fulton J. Sheen, Norman Vincent Peale, and Billy Graham in the Age of Extremes Timothy H. Sherwood, 2013-08-15 Fulton J Sheen Norman Vincent Peale and Billy Graham were America's most popular religious leaders during the mid twentieth century period known as the golden years of the Age of Extremes It was part of an era that encompassed polemic contrasts of good and evil on the world stage in political philosophies and international relations The 1950s and early 1960s in particular were years of high anxiety competing ideologies and hero villain mania in America Sheen was the voice of reason who spoke against those conflicting ideologies which were hostile to religious faith and democracy Peale preached the gospel of reassurance self assurance and success despite ominous global threats and Graham was the heroic model of faith whose message of conversion provided Americans an identity and direction opposite to atheistic communism This study looks at how

anxieties of Cold War audiences Revealing images of orthodox belief whose sharpest edges had been softened to suggest tolerance and goodwill Smith shows how such representations overturned stereotypes of Catholics as un American Spanning a time when hot and cold wars challenged Americans traditional assumptions about national identity and purpose his book conveys the visual style moral confidence and international character of Catholicism that gave it the cultural authority to represent America

Methodists and the Crucible of Race, 1930-1975 Peter C. Murray, 2004 In Methodists and the Crucible of Race 1930-1975 Peter C Murray contributes to the history of American Christianity and the Civil Rights movement by examining a national institution the Methodist Church after 1968 the United Methodist Church and how it dealt with the racial conflict centered in the South Murray begins his study by tracing American Methodism from its beginnings to the secession of many African Americans from the church and the establishment of separate northern and southern denominations in the nineteenth century He then details the reconciliation and compromise of many of these segments in 1939 that led to the unification of the church This compromise created the racially segregated church that

Methodists struggled to eliminate over the next thirty years. During the Civil Rights movement, American churches confronted issues of racism that they had previously ignored. No church experienced this confrontation more sharply than the Methodist Church. When Methodists reunited their northern and southern halves in 1939, their new church constitution created a segregated church structure that posed significant issues for Methodists during the Civil Rights movement. Of the six jurisdictional conferences that made up the Methodist Church, only one was not based on a geographic region: the Central Jurisdiction, a separate conference for all Negro annual conferences. This Jim Crow arrangement humiliated African American Methodists and embarrassed their liberal white allies within the church. The Supreme Court's *Brown v. Board of Education* decision awakened many white Methodists from their complacent belief that the church could conform to the norms of the South without consequences among its national membership. Murray places the struggle of the Methodist Church within the broader context of the history of race relations in the United States. He shows how the effort to destroy the barriers in the church were mirrored in the work being done by society to end segregation. Immensely readable and free of jargon, *Methodists and the Crucible of Race, 1930-1975* will be of interest to a broad audience, including those interested in the Civil Rights movement and American church history.

American Protestants and TV in the 1950s M. Rosenthal, 2007-10-01

Bill Bright and Campus Crusade for Christ John G. Turner, 2009-11-30

Founded as a local college ministry in 1951, Campus Crusade for Christ has become one of the world's largest evangelical organizations today, boasting an annual budget of more than 500 million. Nondenominational organizations like Campus Crusade account for much of modern evangelicalism's dynamism and adaptation to mainstream American culture. Despite the importance of these parachurch organizations, says John Turner, historians have largely ignored them. Turner offers an accessible and colorful history of Campus Crusade and its founder, Bill Bright, whose marketing and fund-raising acumen transformed the organization into an international evangelical empire. Drawing on archival materials and more than one hundred interviews, Turner challenges the dominant narrative of the secularization of higher education, demonstrating how Campus Crusade helped reestablish evangelical Christianity as a visible subculture on American campuses. Beyond the campus, Bright expanded evangelicalism's influence in the worlds of business and politics. As Turner demonstrates, the story of Campus Crusade reflects the halting movement of evangelicalism into mainstream American society: its awkward marriage with conservative politics, its hesitancy over gender roles and sexuality, and its growing affluence.
