

Shakespeare and history notwithstanding, most first-class writers in their chosen fields of thought and contemporary imagery, Frederick Moten, Walter D. Mignolo, and Ray Johnson, for instance, all take seriously the serious consequences of African American ways of seeing the world. Moten's work was part of a larger project of re-visioning the world, one that was not only a response to the dominant white male discourse in the academy, but also a way of making the world a more just and equitable place for all.

The early spiritual works are characterized by an unproblematic juxtaposition of diagnosis and therapy, by the use of common-sense materials, and by the focus of past and present, nature and culture and city and life. These figures are the future response to the general spirit of the times, a return and pushing back to the foundations of the religious life, an attempt to reach the heart of the matter and, regarding the use of materials and questioning the nature and relevance of all itself as well as its role in society. They characterize these moments with other questions of the period such as Platon, Augustine, and Christian mystics.

Illuminated Paris S. Hollis Clayson, 2019-05-16 The City of Light For many these four words instantly conjure late nineteenth century Paris and the garish colors of Toulouse Lautrec s iconic posters More recently the Eiffel Tower s nightly show of sparkling electric lights has come to exemplify our fantasies of Parisian nightlife Though we reflect longingly on such scenes in *Illuminated Paris* Hollis Clayson shows that there s more to these clich s than meets the eye In this richly illustrated book she traces the dramatic evolution of lighting in Paris and how artists responded to the shifting visual and cultural scenes that resulted from these technologies While older gas lighting produced a haze of orange new electric lighting was hardly an improvement the glare of experimental arc lights themselves dangerous left figures looking pale and ghoulish As Clayson shows artists representations of these new colors and shapes reveal turn of the century concerns about modernization as electric lighting came to represent the harsh glare of rapidly accelerating social change At the same time in part thanks to American artists visiting the city these works of art also produced our enduring romantic view of Parisian glamour and its Belle poque

Space, Image, and Reform in Early Modern Art Arthur J. DiFuria, Ian Verstegen, 2021-11-08 The essays in *Space Image and Reform in Early Modern Art* build on Marcia Hall s seminal contributions in several categories crucial for Renaissance studies especially the spatiality of the church interior the altarpiece s facture and affectivity the notion of artistic style and the controversy over images in the era of Counter Reform Accruing the advantage of critical engagement with a single paradigm this volume better assesses its applicability and range The book works cumulatively to provide blocks of theoretical and empirical research on issues spanning the function and role

of images in their contexts over two centuries Relating Hall s investigations of Renaissance art to new fields Space Image and Reform expands the ideas at the center of her work further back in time further afield and deeper into familiar topics thus achieving a cohesion not usually seen in edited volumes honoring a single scholar
