Angola Under the Portuguese Gerald J. Bender,1980-01-01 The book is the first comprehensive study of race relations in Angola It covers the entire five century long relationship between the peoples of Angola and Portugal Portuguese imperial thinkers asserted that they were unique among European colonizers in their ability to establish and maintain egalitarian and non discriminatory relationships with tropical peoples This concept was elevated to a philosophical plateau and given the name Lusotropicalism Propagated with fervor by Portuguese colonial thinkers Lusotropical doctrines were widely accepted as being valid by twentieth century diplomats and political thinkers in both Europe and the United States many of whom believed that Portuguese colonialism in Africa would continue indefinitely The evidence presented in this work indicates that Portuguese rule in Angola was deeply racist This conclusion is based on a considerable body of data gleaned from archival sources personal collections and systematic interviewing of racially diverse Angolans and Portuguese functionaries in the colonial administration and the private sector Special emphasis is placed on devices that the Portuguese used to delude themselves and others about the realities of their attitudes and behavior as ruling elites The study concludes with an

assessment of the impact of Lusotropical myths on independent Angola **A History of Latin America** Robert Jones Shafer,1978 Population Growth In Latin America And U.S. National Security John Saunders,2023-10-02 Originally published in 1986 this volume deals with both population growth in Latin America and the possible consequences of this growth for the security of the USA The text analyses the demographic dimensions of the phenomenon and then considers the consequences for US security It was the first time that the interrelations between national security and population growth were systematically analyzed The book predicts the rapid population growth would have serious economic social and strategic implications for the USA and rightly predicts the adoption of draconian measures to stem the flow of illegal migrants Although some aspects of the political landscape have changed since original publication the issue of migration to the USA from Latin America has lost none of its relevance **Multinational Corporations** Paz Estrella Tolentino,2003-09-02 This work presents case studies of the emergence and evolution of Multinational Corporations MNCs based in eleven developed and developing countries of widely divergent patterns of national development From this analysis Tolentino develops a comprehensive theory of the emergence and evolution of MNCs from a macroeconomic perspective Development and Underdevelopment in America Walther L.
