Power, Islam, and Political Elite in Iran Eva Rakel, 2008-11-30 The Iranian Islamic revolution brought about a political system based on a combination of state institutions that derive their legitimacy from Islamic law and republican institutions legitimized by the people As there are no legal political parties in the Islamic Republic of Iran political factions represent the varying ideological and material interests of members of the political elite and their supporters This book analyzes the rivalries between the political factions and their related state institutions and the impact of the dynamics of factionalism on domestic economic and socio cultural and foreign policy formulation It shows that tensions inherent to the structure of state institutions and factional rivalries slow down the process of democratization and economic reforms in the Islamic Republic of Iran

Dynamics of Power in Contemporary Iran Anoushiravan Ehteshami, 2010-08-25 Iran's 1979 revolution has stood out as one of the 20th century's most intriguing and unusual social uprisings This revolution defied the socialist radicalism of its day which had been making inroads as the non capitalist path to development in several African and Asian countries and had created social change without reliance on the East or in the name of socialism It had by the same token rejected the Western premises of liberalism and individualism as its guiding principles Its leader an aging cleric even used an apparently alien discourse as he chastised the great Satan United States for its socio cultural sins and for its crimes against humanity In speaking of the plight of the downtrodden and in condemning the alien and morally corrupt values of the uptown living Iranian taghutis he accused the reigning monarch a Western educated urbane man for taking the country down the path of Satan How could an aging mullah with little international experience be challenging the survival of a modern powerful and internationally well connected monarchy How could a cleric whose views of an Islamic state were arguably abstract at best proceed to establish a revolutionary Islamic theocracy where there had previously been apparently entrenched Western style modernity The answers could be sought in a number of places In the deep rooted struggle of the Iranian people for freedom which dated back to before the Bolshevik revolution in Russia the ruling Pahlavi establishment's inability to manage the economic and cultural crisis that engulfed Iran in the 1970s the disenchantment of the monarchy's potential middle class and bourgeois allies the critical role of a radicalized clerical group which emerged to provide a legitimate alternative to the Pahlavi order and finally in the nature of the modern Iranian state itself Prospects for change are historically good but change is likely to take time Nor can the direction of change be easily predicted despite the country's choices increasingly

narrowing between that of a naked military regime on the one hand and a pluralistic republic on the other. However, given the country's vibrant and defiant civil movement and their progressive social democratic program for change, Iran again could become a trendsetter for the rest of the region were these forces to return to the corridors of power. Having been the first country in the world to have marched political Islam into power in the 20th century, Iran's people could again be in the long process of trading political Islam for a truly open and democratic system in the 21st century.

Evolving Iran Barbara Ann Rieffer-Flanagan, 2013-03-22 *Evolving Iran* presents an overview of how the politics and policy decisions in the Islamic Republic of Iran have developed since the 1979 revolution and how they are likely to evolve in the near future. Despite the fact that the revolution ushered in a theocracy, its political system has largely tended to prioritize self interest and pragmatism over theology and religious values while continuing to reinvent itself in the face of internal and international threats. The author also examines the prospects for democratization in Iran. Since the early years of the twentieth century, Iranians have attempted to make their political system more democratic, yet various attempts to produce a system where citizens have a meaningful voice in political decisions have failed. This book argues that greater democratization is unlikely to occur in the short term, especially in light of increased threats from the international community. This accessible overview of Iran's political system covers a broad array of subjects including foreign policy, human rights, women's struggle for equality, the development and evolution of elections, and the institutions of the political system including the Revolutionary Guards and Assembly of Experts. It will appeal to undergraduates and the general public who seek to understand a country and regime that has mystified Westerners for decades.

Politics of the Dispossessed Hafizullah Emadi, 2001-08-30 This study provides a comprehensive analysis of state society development in the most volatile region of the world. In the Middle East, various anti-systemic movements and radical Islam often clashed and resisted the political, cultural, economic, and military domination of the region by the world's major imperial powers. Emadi investigates state revolution and development in the Middle Eastern states of Afghanistan, Iran, Iraq, and Syria in the immediate post-World War II period. Maintaining that the state is an instrument of class domination exhibiting a certain degree of autonomy in the creation and design of domestic development programs, he details the role of class in an attempt to provide a better understanding of the diverse factors at work. *Politics of the Dispossessed* provides an alternative analysis of development in regional politics and its context in world politics, aspects that are generally neglected by most mainstream studies. It examines state formation, internal development strategies, and how class conflict and ideology led to class alliance on an international basis, as well as the external interference in the internal affairs of these societies. It also explores the process of political and ethnic integration of the Middle East into the global economic system and the resulting counter-strategies of the nationalist and Islamic resistance to the increasing superpower domination of the international system.

Contemporary Iran Ali Gheissari, 2009-04-02 Iran is a key player in some of the most crucial issues of our time But because of its relative diplomatic isolation and the partisan nature of conflicting accounts voiced by different interest groups both inside and outside the country there is a shortage of hard information about the scale and depth of social change in today s Iran In this volume and imposing roster of both internationally renowned Iranian scholars and rising young Iranian academics offer contributions many based on recent fieldwork on the nature and evolution of Iran s economy significant aspects of Iran s changing society and the dynamics of its domestic and international politics since the 1979 revolution focusing particularly on the post Khomeini period The book will be of great interest not only to Iran specialists but also to scholars of comparative politics democratization social change politics in the Muslim world and Middle Eastern studies
