Modern Dutch Studies Essays In Honour Of Professor Peter King:

Modern Dutch Studies M. J. Wintle, 2015-11-19 These essays by leading scholars explore the integration of language and literature study in the fields of art history and social sciences exploring as a result the scope and nature of the discipline of Dutch Studies today *Modern Dutch Studies* Michael J. Wintle, Paul Vincent, 1988 *Where is Adaptation?* Casie Hermansson, Janet Zepernick, 2018-10-15 *Where is Adaptation Mapping cultures texts and contexts* explores the vast terrain of contemporary adaptation studies and offers a wide variety of answers to the title question in 24 chapters by 29 international practitioners and scholars of adaptation both eminent and emerging From insightful self analyses by practitioners a novelist a film director a comics artist to analyses of adaptations of place culture and identity the authors brought together in this collection represent a broad cross section of current work in adaptation studies From the development of technologies impacting film festivals to the symbiotic potential of interweaving disability and adaptation studies censorship exploring the glocal and an examination of the Association for Adaptation Studies at its 10th anniversary the original contributions in this volume aim to trace the leading edges of this evolving field **The Stigmata in Medieval and Early Modern Europe** Carolyn Muessig, 2020-02-06 Francis of Assisi's reported reception of the stigmata on Mount La Verna in 1224 is almost universally considered to be the first documented account of an individual miraculously and physically receiving the five wounds of Christ The early thirteenth century appearance of this miracle however is not as unexpected as it first seems Interpretations of Galatians 6 17 I bear the marks of the Lord Jesus Christ in my body had been circulating since the early Middle Ages in biblical commentaries These works perceived those with the stigmata as metaphorical representations of martyrs bearing the marks of persecution in order to spread the teaching of Christ in the face of resistance By the seventh century the meaning of Galatians 6 17 had been appropriated by bishops and priests as a sign or mark of Christ that they received invisibly at their ordination Priests and bishops came to be compared to soldiers of Christ who bore the brand stigmata of God on their bodies just like Roman soldiers who were branded with the name of their emperor By the early twelfth century crusaders were said to bear the actual marks of the passion in death and even sometimes as they entered into battle *The Stigmata in Late Medieval and Early Modern Europe* traces the birth and evolution of religious stigmata and particularly of stigmatic theology as understood through the ensemble of theological discussions and devotional practices Carolyn Muessig assesses the role stigmatics played in medieval and early modern religious culture and the way their contemporaries reacted to them The period studied covers the dominant discourse of stigmatic theology that is from Peter Damian's eleventh century theological writings to 1630 when the papacy officially recognised the authenticity of Catherine of Siena's stigmata **Perceiving Evil: Evil Women and the Feminine** David Farnell, Rute Noiva, Kristen Smith, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 How do we perceive evil And why are so many notions of evil connected with women The mermaid the witch the femme fatale the bitch these are all

representations of evil women or women who have subverted the conventional ideas of femininity Kept alive in oral tradition and hidden in the unspoken rules of society the dangerous evil woman lives on to define what we believe a woman should be Through the various prisms of popular culture forensic psychology veterinary medicine and many more this collection aims to examine the ideas of evil women and the feminine The collection focuses on why we as a society perceive certain women or aspects of femininity to be evil and why we can have certain emotional reactions to this It examines the background to these perceptions whether they are rooted in literature myth history or fact and what this means for the development of both masculinity and femininity

Empirical Evidences and Theoretical Assumptions in Functional Linguistics Elissa Asp,Michelle Aldridge,2022-07-28 This collection explores the relationships between theory and evidences in functional linguistics bringing together perspectives from both established and emerging scholars The volume begins by establishing theoretical common ground for functional approaches to language critically discussing empirical inquiry in functional linguistics and the challenges and opportunities of using new technologies in linguistic investigations Building on this foundation the second part of the volume explores the challenges involved in using different data sources as evidence for theorizing language and linguistic processes drawing on work on lexical cohesion in language variation neuroimaging and neuropathological data and keystroke logging and eye tracking The final section of the volume examines the ways in which evidences from a wide range of data sources can offer new perspectives toward challenging established theoretical claims employing empirical evidences from corpus linguistic analysis keystroke logging and multimodal communication This pioneering collection synthesizes perspectives and addresses fundamental questions in the investigation of the relationships between theory and evidences in functional linguistics and will be of particular interest to researchers working in the field as well as linguists working in experimental and interdisciplinary approaches which seek to bridge this gap

West meets East Geoffrey Williams,Mathilde Le Meur,Andrés Echavarría Peláez,2025-05-27 Lexicography in its many forms is a very old practical discipline solving practical problems concerning word usage The term word seems more appropriate than language in this context as lexicography addresses more questions relating to what we now call lexicology As with all areas of human endeavour what developed gradually through trial and error has eventually been subjected to a theoretical framework The role of historical lexicography is to look back on the development of these highly varied word lists to understand how we arrived at the tremendous variety that characterises practice throughout the world This volume is both a selection of expanded papers from one conference on historical lexicography and lexicology held under the aegis of the International Society for Historical Lexicography and Lexicology ISHLL in Lorient France in May 2022 and also the first in a new book series dedicated to the field The new series represents a collaboration between two sister associations ISHLL and the Helsinki Society for Historical Lexicography HSHL The volume contains texts in both English and French that provide insights into dictionaries their compilers and users using evidence from numerous languages across the globe It is also

diachronic moving from topics on medieval usage to contemporary issues concerning open access and digital publishing in historical lexicography The title reflects the global scope of its authors and content encompassing Japan to the United States Eastern Europe to the United Kingdom and Portugal

Translating Culture Specific References on Television Irene Ranzato, 2015-09-16 Translating Culture Specific References on Television provides a model for investigating the problems posed by culture specific references in translation drawing on case studies that explore the translational norms of contemporary Italian dubbing practices This monograph makes a distinctive contribution to the study of audiovisual translation and culture specific references in its focus on dubbing as opposed to subtitling and on contemporary television series rather than cinema Irene Ranzato's research involves detailed analysis of three TV series dubbed into Italian drawing on a corpus of 95 hours that includes nearly 3 000 CSR translations Ranzato proposes a new taxonomy of strategies for the translation of CSRs and explores the sociocultural pragmatic and ideological implications of audiovisual translation for the small screen

Children and Languages Today Željka Flegar, Ivana Moritz, 2019-07-25 Motivated by the need to bring together researchers involved in the acquisition learning and teaching of the Croatian language and foreign languages to learners at lower elementary level the recurring scientific conferences Children and Languages Today were established in 2001 At the time the Croatian academic community was short of a conference that was dedicated entirely to critical thinking and the exchange of research findings outcomes and experience in these particular study areas As it turns out Children and Languages Today has served as an incentive for other conferences and meetings in Croatia that continue to promote research in the fields of first and second language acquisition of young learners Children and Languages Today First and Second Language Literacy Development is the outcome of the conference held in 2017 at the Faculty of Education University of Osijek It is a collection of papers by experts on a wide range of topics that include developing literacy in teaching first and second languages and encompassing different fields of science and expertise such as children's literature bilingualism metaphor usage translation vocabulary narrative and orthography This book hopes to shed light on and open up an array of questions in the area of literacy development

The German Economy at War Alan S. Milward, 2015-11-19 This title describes the development of Germany's war economy in the light of the unpublished documentary material which was captured in 1945 including records from the Reich Ministry of Armaments and Munitions notes made by Albert Speer of his conferences with Hitler many papers of the economic and munitions section of the Oberkommando der Wehrmacht and of its chief General Thomas as well as some papers of private armament firms such as Messerschmitt It presents a detailed study of a contest for power at the highest levels of the National Socialist hierarchy making this invaluable reading for studies in military and German history politics and studies in totalitarianism

Greek Shipowners and Greece Gelina Harlaftis, 2015-11-19 This account of the extraordinary growth of the Greek ship operating industry following the Second World War is a major breakthrough The body of data presented and analysed makes it possible to form an informed historical

view of Greek pre eminence in sea transport The Smallest Slavonic Nation Gerald Stone,2015-11-19 Stone s work on the Sorbian history literature language folklore and music was the first book on the Sorbs to be published in the English language and offers a comprehensive account of the Sorbs which everyone with an interest in the history of the Slavic nations in Europe should be aware of **The Flemish Movement** Theo Hermans,2015-11-19 This documentary history of the Flemish movement and its role as a social intellectual and political force in Belgium recounts the struggle for the recognition of the language and cultural identity of the Dutch speaking inhabitants of Belgium **V.F. Odoevsky** Neil Cornwell,2015-11-19 Odoevsky 1804 1869 was a leading writer musicologist popular educator and public servant in Russia close to the major historical events of his period and acquainted with many of the leading personalities from Pushkin to Glinka to Turgenev Tolstoy and Tchaikovsky as well as Berlioz and Wagner Based upon published and unpublished sources in Russia and the West Cornwell paints a portrait of one of Russia s central figures though little known in the West

Visualizing Medieval Performance Elina Gertsman,2017-07-05 Taking a fresh look at the interconnections between medieval images texts theater and practices of viewing reading and listening this explicitly interdisciplinary volume explores various manifestations of performance and meanings of performativity in the Middle Ages The contributors from their various perspectives as scholars of art history religion history literary studies theater studies music and dance combine their resources to reassess the complexity of expressions and definitions of medieval performance in a variety of different media Among the topics considered are interconnections between ritual and theater dynamics of performative readings of illuminated manuscripts buildings and sculptures linguistic performances of identity performative models of medieval spirituality social and political spectacles encoded in ceremonies junctures between spatial configurations of the medieval stage and mnemonic practices used for meditation performances of late medieval music that raise questions about the issues of historicity authenticity and historical correctness in performance and tensions inherent in the very notion of a medieval dance performance **Explorations in OEEC History** OECD,2009-07-08 This book examines the major moments punctuating OEEC history from the original offer of Marshall Aid in 1947 to the decision to create the OECD in 1960

Research in Germanic Studies ,1989 *State and Trade* S. Groenveld,Michael J. Wintle,1992 *The Economic Development of the EEC* Richard T. Griffiths,1997 This authoritative volume traces the creation and development of the EEC as an institution and assesses its impact on the economic development of Europe and the policy areas under its control The book includes a thorough discussion of the background and origins of the European Economic Community In the early years of post war Europe the continuous search for a multilateral commercial agreement resulted in various plans for European commercial cooperation These schemes were proposed less in a desire for European integration and supranational institutions than in response to real economic problems and were the precursors to the formation of the EEC The next section investigates the process of creating the EEC including the road to integration of the major founding members and the

attitude of the United States to European integration Finally it discusses the economic development of the EEC since 1957 It explores major themes including the impact of the Community on trade and agriculture and on competition and financial policy as well as the effects of its own enlargement The study ends with the steps towards closer union embodied in the Treaty of Maastricht which signalled the transformation of the European Economic Community into the European Union
