an adjudicator of a priori precepts enables contributors to relocate ethics in new sets of social and scientific relationships triggered by recent globalization processes from new forms of intellectual and cultural ownership to accountability in governance and the very ways in which people are studied Case studies from ethnographic research museum display archaeological fieldwork and professional monitoring illustrate both best practice and potential pitfalls This important book is an essential guide for all anthropologists who wish to be active contributors to the discussion on ethics and the ethical practice of their profession *The Modern Neighbors of Tutankhamun* Kees Van der Spek, 2011 Examines the lives of people of al Qurna prior to the demolition of their village in order to promote tourism in the area of Thebes and Luxor
