Mothers of the Nation Patrizia Albanese, Professor Department of Sociology Patrizia Albanese, 2006-01-01 Comparing nationalist and non nationalist polities in order to establish how these governments differ in their treatment of women and families Albanese concludes that the efforts of most ethno nationalist regimes to return women to their natural place in the home as housewives and mothers have been largely unsuccessful Policies to this effect have provoked considerable opposition by women s groups and individual women have often been reversed by subsequent governments and have had little long term demographic impact Mothers of the Nation makes an important contribution to the literature on feminism nationalism and social and economic policy within a comparative political context Jacket

Millenarianism and Messianism in Early Modern European Culture Volume IV John Christian Laursen, R.H. Popkin, 2013-03-08 Any number of misconceptions about millenarians and messianism in the early modern period will be laid to rest by a reading of this volume It is too often thought that millenarianism was largely an English phenomenon One of the reasons for bringing these studies together is to show as Martin Mulsow puts it that we can understand this European wide movement as a millenarian international in analogy with the later socialist international Another misconception is that millenarianism and messianism were a world apart from mainstream developments in intellectual history but as Mulsow also insists a proper understanding of millenarianism places it in the context of the growth and stabilization of science material progress and political reform A third mistake is to conclude too quickly that millenarianism and messianism have formed a single monolithic bloc in history but we learn in this volume that there were all sorts of millenarians Readers of this volume will be struck by at least two things One is the sheer numbers of millenarian thinkers to be found throughout Europe in the early modern period especially north of the Mediterranean We will not list them all 1 here but the index to this book contains dozens and dozens of them The second striking point is the amount of work that remains to be done For every millenarian that we explore and explain here several are mentioned about which little is known
