on ancient Greek philosophy modern Jewish philosophy post Holocaust theology and ethics Zionism and Messianism **An Introduction to Modern Jewish Philosophy** Claire Elise Katz,2013-11-19 How Jewish is modern Jewish philosophy The question at first appears nonsensical until we consider that the chief issues with which Jewish philosophers have engaged from the Enlightenment through to the late 20th century are the standard preoccupations of general philosophical inquiry Questions about God reality language and knowledge metaphysics and epistemology have been of as much concern to Jewish thinkers as they have been to others Moses Mendelssohn for example was a friend of Kant Hermann Cohen s philosophy is often described as neo Kantian Franz Rosenzweig wrote his dissertation on Hegel And the thought of Emmanuel Levinas is indebted to Husserl In this much needed textbook which surveys the most prominent thinkers of the last three centuries Claire Katz situates modern Jewish philosophy in the wider cultural and intellectual context of its day indicating how broader currents of British French and German thought influenced its practitioners But she also addresses the unique ways in which being Jewish coloured their output suggesting that a keen sense of particularity enabled the Jewish philosophers to help define the whole modern era Intended to be used as a core undergraduate text the book will also appeal to anyone with an interest how some of the greatest minds of the age grappled with some of its most urgent and fascinating philosophical problems **Philosophy and Law** Leo Strauss,2012-02-01 Leo Strauss s Philosophy and Law contains a groundbreaking study of the political philosophy of Maimonides and his Islamic predecessors and it offers an argument on behalf of that philosophy which is also a profound critique of modern philosophy Here is an entirely new and complete English translation of Strauss s work which takes as its ideal the exacting standards of accuracy that Strauss himself emphasized in his own work It includes a prefatory essay introducing the argument of each of the four sections of Philosophy and Law This is a fresh and challenging treatment of the perennial conflict between reason and revelation or philosophy and religion Strauss s key contention in this book is that the most influential modern approaches to this conflict have run aground in ways that reflect their loss of key insights developed by the medieval philosophers of Islam and their Jewish pupils especially Maimonides Strauss challenges the modern view that scientific enlightenment must ultimately amount to atheism and that therefore there can be no such thing as enlightened religion Through a careful original and detailed treatment of central works of the medieval Islamic Jewish tradition especially Maimonides Guide of the Perplexed Strauss aims to recover their key insights into this question Dictionary Of Modern American Philosophers John R. Shook,2005-05-15 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While

all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought *The Ashgate Research Companion to Migration Law, Theory and Policy* Satvinder S. [The Election of Israel](#) David Novak, 1995-05-04 In this book David Novak conducts an historical philosophical and theological reflection on the central Jewish doctrine of Israel's election by God also known as the idea of the chosen people Historically he analyses the great change in modern Jewish thought brought about by Spinoza's inversion of the doctrine that it was not God who elected Israel but Israel who elected God The development of that inversion is illustrated by the thought of the German philosopher theologian Hermann Cohen Philosophically Novak explores the ontological implications of the two differing theologies of election Theologically he argues for the correlation of election and revelation and maintains that a theology of election is required in order to deal with two central questions namely who are the Jews and how are Jews to be related to the world The constructive picture which results leads to a fresh understanding of Jewish modernity

**The Book of Doctrines and Beliefs** Sa'adia ben Joseph, Saadya Gaon, 2002-01-01 Saadya ben Joseph al Fayyumi 882-942 gaon head of the rabbinic academy at Sura and one of the preeminent Jewish thinkers of the medieval period attempted to create a complete statement of Jewish religious philosophy in which all strands of philosophical thought were to be knit into a unified system In *The Book of Doctrines and Beliefs* Saadya sought to rescue believers from a sea of doubt and the waters of confusion into which they had been cast by Christianity Islam and other faiths By employing philosophical or kalamitic argumentation to examine and defend traditional Jewish beliefs Saadya hoped to turn blind faith into conviction based on rational understanding First published in 1946 and reprinted here without alteration Alexander Altmann's judicious abridgment of his own translation has remained the standard edition of this influential work A new Introduction by Daniel Frank sets Saadya's work in its broader historical cultural and philosophical contexts

[God of Abraham](#) Lenn Evan Goodman, 1996-03-07 This cogently argued and richly illustrated book rejects the dichotomy between the God of Abraham and the God of the philosophers to argue that the two are one In *God of Abraham* one of our leading philosophers of religion shows how human values can illuminate our idea of God and how the monotheistic idea of God in turn illuminates our

moral social cultural aesthetic and even ritual understanding Throughout Goodman draws on a wealth of traditional philosophical historical and anthropological materials and particularly on a wide range of Jewish sources He demonstrates how an adequate understanding of the interplay of values with monotheism dissolves many of the longstanding problems of natural theology and ethics and guides us toward a genuinely humanistic moral and social philosophy **Lev Shestov** Michael Finkenthal,2010 In Lev Shestov Existential Philosopher and Religious Thinker Michael Finkenthal explores the evolution of Lev Shestov s philosophical and religious intellectual contributions The hermeneutical effort is mainly based on the Shestovian oeuvre but his thought is considered in light of existential philosophies in their evolution from Pascal Nietzsche and Kierkegaard to those of the twentieth century Shestov s deconstruction of philosophy is discussed parallel to the analysis of the formation of his religious thought and its relevancy in the context of efforts by Buber Rosenzweig and Levinas to redefine Judaism
