Modern Madness The Hidden Link Between Work And Emotional Conflict:

Modern Madness Douglas LaBier,2016-02-23 An acclaimed exploration of the ways in which success within our career culture can produce hidden emotional and value conflicts for men and women Sheds new light on the path to success and personal fulfillment in today s workplace Modern Madness Douglas Labier,1986-01-21 Modern Madness Douglas LaBier,2016-02-02 An acclaimed exploration of the ways in which success within our career culture can produce hidden emotional and value conflicts for men and women Sheds new light on the path to success and personal fulfillment in today s workplace Assessing Emotional Intelligence , Informal Learning in the Workplace John Garrick,2012-12-06 Informal learning has become an extremely important issue as post industrial workplaces seek to harness its productive potential Managers and HRD practitioners have attempted to deploy informal learning in the design of corporate cultures however most discussions of the subject have tended to be uncritical expositions which do not challenge the underlying economic philosophical and organisational rationale Uniquely this book goes against this tendency It critically examines definitions of informal learning and focuses on its application in a variety of workplace contexts It features theories of informal learning the unmasking of contemporary corporate rhetoric the implications for accounts of workplace learning of poststructuralist and post modern perspectives Incorporating case studies based on interviews with practising managers and HRM practitioners and a detailed glossary of key concepts and issues this book will be a valuable reference for students of workplace learning False Fixes David Forbes,1994-08-04 This book examines recent efforts to rid society of addictions and finds them wanting The author examines everyday addictive patterns within modernist and postmodernist cultures and provides practical suggestions in the areas of substance abuse prevention and the addiction recovery movement *Work, Self and Society* Catherine Casey,2013-01-11 Despite recent interest in the effects of restructuring and redesigning the work place the link between individual identity and structural change has usually been asserted rather than demonstrated Through an extensive review of data from field work in a multi national corporation Catherine Casey changes this She knows that changes currently occurring in the world of work are part of the vast social and cultural changes that are challenging the assumptions of modern industrialism These events affect what people do everyday and they are altering relations among ourselves and with the physical world This valuable book is not only a critical analysis of the transformations occurring in the world of work but an exploration of the effects of contemporary practices of work on the self **Problems Are Us** Colin Feltham,2004-02 After Postmodernism Richard Smith,Philip Wexler,2005-09-27 This work presents a set of thematic essays aimed at clarifying the educational problems and paradoxes of postmodern educational conditions and theory The major concerns of the book are the possibility of achieving substantive political objectives and of theorising such possibilities These concerns arise from a dissatisfaction with the organisational and political conditions of postmodern educational practice The seeming inability of academics to intervene in the public sector especially in matters of equality provides a

driving force to the book For individuals who care about the future of education and its role in social reconstruction the pessimistic nature of postmodern theories of society and education is an additional impetus for the book All the chapters exemplify the issues that confront lecturers in contemporary university teacher education contexts A notable feature of the book is a theme that current theorisation about education and society are historically outmoded and that the future lies in post postmodern theories

Mystical Society Philip Wexler,2018-03-05 In *Mystical Society* Philip Wexler a well known critical theorist with a background in social psychology and a special interest in spirituality examines the revitalization of spirituality manifesting itself in society and in education Describing what he calls cultural changes toward the sacred he documents a cultural shift brought about by technological and societal changes toward a new mysticism Wexler explores the meaning for this new spirituality for our daily lives for social theory and for education From the pervasiveness of a spiritual vernacular to the integration of spiritual practices into our highly individualized and technologized lives Wexler lays out the evidence for a growing movement and then draws parallels to periods of mystical revitalization from the past In the course of this discussion he draws on the work of Marx Weber and Durkheim as well as from contemporary social theory

What's Wrong with Us? Colin Feltham,2007-06-13 What s wrong with us Professor Colin Feltham believes that the current crises of the human condition are symptoms of a chronic wayward tendency which he terms anthropathology This interdisciplinary look at the zeitgeist of crisis traces the roots of human suffering exploring the contemporary issues of human violence deceit patriarchy abuse irrationality and greed Our human anthropathology is placed at the heart of all such problems Echoing the pessimism of Schopenhauer Cioran Beckett Gray and others Feltham nevertheless insists that answers may be formulated through confrontation Challenging and enlightening for professionals academics and students *What s Wrong With Us* is also a fascinating read for anyone with a general interest in our current social state

Balancing Acts James Conklin,2021-07-30 *Balancing Acts* offers consultants and managers a simple powerful way to think about change and ascribes a four phase iterative process for implementing change Reviewing change initiatives from different types of organizations *Balancing Acts* confronts the problems and pitfalls head on that often arise during workplace transitions Conklin explains why organizational change can be so difficult and shows that by balancing a set of competing psychological and systemic challenges interveners will increase their chance of success Conklin shows that human groups function as complex systems and that a change initiative is not a linear

progression toward a predefined result Instead change is an iterative process that involves a search for feasible and useful solutions The book s central argument is that while leading or supporting this search consultants and leaders must balance four critical concerns confrontation and compassion participation and observation assertion and inquiry and planfulness and emergence

Symbolic Movement Philip Wexler,2008-01-01 This is a book about sociology of education past present and future In the first section the author chronicles and specifies the changes in the field in a reflexive sociology of education tracing the path out of liberalism through radicalism and postmodernism to an emergent new age stance in understanding education in society Section two looks in more detail how these movements have actually worked in education and society The third section places the historical macrosocial analysis of education and society on the smaller more everyday screen of school life Based on the author s studies in high school the question of identity and education is the fulcrum for a series of concrete studies or school portraits which connect public social change and more personal everyday life and identity with the social process of schooling The final section probes the new age theme Questions of spirituality rationality magic mysticism and sublimation are related to changes both in education and in sociology of education What does it mean to do educational research in a re sacralized mystical society And does a new theory of sociology of education emerge on a Weberian rather than Durkheimian functionalist or Marxist radical view of the directions and reversals that begin in modernity and become more evident in our times

Celibacy, Seminary Formation, and Catholic Clerical Sexual Abuse Vivencio O. Ballano,2024-04-30 Does the current celibate semi monastic and all male seminary formation contribute to the persistence of clerical sexual abuse in the Roman Catholic Church Applying sociological theories on socialization total institutions and social resistance as the primary conceptual framework and drawing on secondary literature media reports the author s experience interviews and Church documents this book argues that the Catholic Church s institution of the celibate seminary formation as the only mode of clerical training for Catholic priests has resulted in negative unintended consequences to human formation such as the suspension of normal human socialization in society psychosexual immaturity and weak social control against clerical sexual abuse The author thus

contends that celibate training while suitable for those who do live in religious or monastic communities is inappropriate for those who are obliged to live alone and work in parishes As such an alternative model for diocesan clerical formation is advanced A fresh look at the aptness and effects of celibate formation for diocesan clergy this volume is the first to relate the persistence of Catholic clerical sexual abuse to celibate seminary formation exploring the structural links between the two using sociological arguments and proposing an apprenticeship based model of formation which has numerous advantages as a form of clerical training It will therefore appeal to scholars and students of religion sociology and theology as well as those involved with seminary formation
