

The background of the book cover is an abstract painting. The top portion is a pale, hazy blue. Below this, a horizontal band of light green and yellow suggests a sky or distant land. The lower half of the cover is dominated by a vibrant, colorful landscape. It features a dark, winding path or river in shades of blue and purple, bordered by bright green and yellow areas that represent foliage or sand. The overall style is impressionistic and expressive, with bold colors and visible brushstrokes.

**An Ethical Turn in Governance** Pearson A. Broome, 2021-04-09 The recurring image throughout the developing world is one of the disintegration of civil order debilitating leaders into a crisis of governance Not a day goes by without extensive media coverage of some form of corruption perceived or real concerning the lack of productivity and or increasing incidences of fraud and unethical behavior An Ethical Turn in Governance The Call for a New Development Narrative posits that the intensification of this crisis is compatible with the root cause of capitalist modernization with its rapid and disorientating changes To mitigate the accompanying effects a call is made for re conceptualization of the search for a solution through incorporating and strengthening the value of an ethical consciousness in our thinking and policies of governance The idea is an urgent possibility perhaps even a controversial and ambitious proposal for countries to begin imagining how it might be brought about and what it would look like The central aim and objective is to move toward a framework for continued theory development and empirical research thereby offering a new

narrative on governance and by extension development Recognizing that the inclusion of an ethical turn in governance is fraught with difficulty because of the different opinions the relativism of different value systems and options identified often derived from the perspectives of various stakeholders a call is made for an interactive discourse in the public sphere The argument advanced is that a body politic with sensible social values germane to the policy process is the best way in which human conduct is ordered guided and appraised in order to live together in well functioning societies critical for the success of any democracy Comparative Political Culture in the Age of Globalization Hwa Yol Jung, 2002-01-01 With its specific focus on Asia this anthology constitutes an excursion into the realm of transversality or the state of postethnicity which the book argues has come to characterize the global culture of our times Hwa Yol Jung brings together prominent contemporary thinkers including Thich Nhat Hanh Edward Said and Judith Butler to address this fundamental and important aspect of comparative political theory The book is divided into three parts Part One demythologizes Eurocentrism deconstructing the privilege of modern Europe as the world's cultural scientific religious and moral capital Part Two traces the rise of Asian thought and the process of East West cultural hybridization while Part Three introduces the concept of the global citizen Jung's anthology reveals a postmodern multiculturalism whose new philosophical matrix transgresses the existing cultural and intellectual typology to offer new understanding of today's pluralistic world **Governing Sound** Jocelyne

Guilbault, 2007-09-15 Written in two parts part 1 explores the development of Calypso from its emergence in the pre colonial period to the post colonial period In part 2 the focus is on the new Carnival musical practices of soca rapso chutney soca and ragga soca and the ways in which they contributed to the redefinition of Trinidadian cultural politics in the neoliberal era The new rationalities contingencies desires and musical experiments that animated the new musics and enabled them to gradually displace calypso from its centrality as national expression is examined
