Hamylton,2017-04-13 This book covers the spatial analytical tools needed to map monitor and explain or predict coastal features with accompanying online exercises *Historic Nantucket* ,1999 Key Images of American Life Heinz-Dietrich Fischer,2015 From birth to death this book illustrates moving events in the United States as reflected in Pulitzer Prize winning photos There are examples of heroic undertakings romantic episodes brutal encroachments depressing attitudes as well as encouraging actions , **Nantucket** Mary Catherine Wade,2020-03-06 Beautiful photos of Nantucket Island some of which are hard to reach locations Nantucket James Everett Grieder,Georgen Charnes,2012 This volume details Nantucket s long history from European settlement in 1659 to whaling culture and Quaker influence to tourist destination Nantucket a Wampanoag word meaning far away island was first settled by Europeans in 1659 The earliest settlers known as the Proprietors envisioned a community of farmers and shepherds but the island found its fortune as a preeminent whaling port in the late 18th and early 19th centuries During its time under Quaker influence Nantucket was a cosmopolitan and dynamic place radical new ideas like abolitionism and women s rights found fertile ground in the Quakers firm belief in equality As the entrance to the harbor became impassable Nantucket lost its whaling focus and experienced a general economic decline Ironically this downturn and the resulting absence of new building along with modern cultural change became the springboard for its later revival Nantucket was transformed into a tourist destination an artist colony and a summer home to the wealthy and famous with a rich maritime heritage and a proud tradition of historic preservation **Speculative Landscapes** Ross Barrett,2022-08-23 *Speculative Landscapes* offers the first comprehensive account of American artists financial involvements in and creative responses to

the nineteenth century real estate economy Examining the dealings of five painters who participated actively in this economy Daniel Huntington John Quidor Eastman Johnson Martin Johnson Heade and Winslow Homer Ross Barrett argues that the experience of property investment exposed artists to new ways of seeing and representing land inspiring them to develop innovative figural landscape and marine paintings that radically reworked visual conventions This approach moved beyond just aesthetics however and the book traces how artists creatively interrogated the economic environmental and cultural dynamics of American real estate capitalism In doing so *Speculative Landscapes* reveals how the provocative experience of land investment spurred painters to produce uniquely insightful critiques of the emerging real estate economy critiques that uncovered its fiscal perils and social costs and imagined spaces outside the regime of private property *Inventing New England* Dona Brown,2014-01-14 Quaint charming nostalgic New England rustic fishing villages romantic seaside cottages breathtaking mountain vistas peaceful rural settings In *Inventing New England* Dona Brown traces the creation of these calendar page images and describes how tourism as a business emerged and came to shape the landscape economy and culture of a region By the latter nineteenth century Brown argues tourism had become an integral part of New England s rural economy and the short vacation a fixture of middle class life Focusing on such meccas as the White Mountains Martha s Vineyard Nantucket coastal Maine and Vermont Brown describes how failed port cities abandoned farms and even scenery were churned through powerful marketing engines promoting nostalgia She also examines the irony of an industry that was based on an escape from commerce but served as an engine of industrial development spawning hotel construction land speculation the spread of wage labor and a vast market for guidebooks and other publications *The Insiders' Guide to Cape Cod, Nantucket and Martha's Vineyard* Debi Boucher Stetson,Joe Peters,1998-04 Famed for its history sand dunes salty air quaint villages delectable seafood legendary sunsets and picturesque harbors inlets and coves Cape Cod attracts millions of visitors each year to its enchanted shores Featuring information on Nantucket and Martha s Vineyard as well as Cape Cod this entertaining insightful guide shows tourists how to make the most of a trip to this memorable part of the country

Nantucket Cary Hazlegrove,1995-03 A tiny haven 30 miles off the coast of Massachusetts Nantucket is one of America s few remaining island treasures From its cheerful red cranberry bogs in the fall and the quiet desolation of winter to its profusion of daffodils in the spring and warm sunny beaches in summer Nantucket lends itself perfectly to the camera s lens In this evocative volume longtime resident and renowned photographer Cary Hazlegrove has captured the essence of Nantucket with a selection of her most memorable images of the island a breathtaking aerial view of a beach a charming detail of cobblestones the striking composition of a lighthouse a heartbreaking sweep of the moors Accompanied by poignant often humorous quotes from Nantucket locals and a thoughtful introduction by Pulitzer Prize winning writer and part time resident David Halberstam this book provides a constant source of dreams and inspirations The Aesthetics of Island Space Johannes Riquet,2019-12-17 Oxford Textual Perspectives is a series of informative and provocative studies focused

upon literary texts conceived of in the broadest sense of that term and the technologies cultures and communities that produce inform and receive them It provides fresh interpretations of fundamental works and of the vital and challenging issues emerging in English literary studies By engaging with the materiality of the literary text its production and reception history and frequently testing and exploring the boundaries of the notion of text itself the volumes in the series question familiar frameworks and provide innovative interpretations of both canonical and less well known works The Aesthetics of Island Space discusses islands as central figures in the modern experience of space It examines the spatial poetics of islands in literary texts from Shakespeare's *The Tempest* to Ghosh's *The Hungry Tide* in the journals of explorers and scientists such as James Cook and Charles Darwin and in Hollywood cinema It traces the ways in which literary and cinematic islands have functioned as malleable spatial figures that offer vivid perceptual experiences as well as a geopoetic oscillation between the material energies of words and images and the energies of the physical world The chapters focus on America's island gateways Roanoke and Ellis Island visions of tropical islands Tahiti and imagined South Sea islands the islands of the US Canadian border region in the Pacific Northwest and the imaginative appeal of mutable islands It argues that modern voyages of discovery posed considerable perceptual and cognitive challenges to the experience of space and that these challenges were negotiated in complex and contradictory ways via poetic engagement with islands Discussions of island narratives in postcolonial theory have broadened understanding of how islands have been imagined as geometrical abstractions bounded spaces easily subjected to the colonial gaze There is however a second story of islands in the Western imagination which runs parallel to this colonial story In this alternative account the modern experience of islands in the age of discovery went hand in hand with a disintegration of received models of understanding global space Drawing on and rethinking post phenomenological geocritical and geopoetic theories The Aesthetics of Island Space argues that the modern experience of islands as mobile and shifting territories implied a dispersal fragmentation and diversification of spatial experience and it explores how this disruption is registered and negotiated by both non fictional and fictional responses
