Negotiating Space Power Restraint And Privileges Of Immunity In Early Medieval Europe

John H. Arnold

Negotiating Space Power Restraint And Privileges Of Immunity In Early Medieval Europe:

Negotiating Space Barbara H. Rosenwein, 1999 This is an examination of how and why medieval kings declared certain properties immune from their own power The author argues that they were not compelled by weakness but rather by a need to show strength and reaffirm status and exercise authority and that we need a new understanding of the political and social exchanges of the period The declaration of immunities were really instruments used by kings and bishops to forge alliances with the noble families and monastic centres which were the essence of their authority

The Oxford Handbook of Medieval Christianity John H. Arnold, 2014-08-21 The Oxford Handbook of Medieval Christianity takes as its subject the beliefs practices and institutions of the Christian Church between 400 and 1500AD It addresses topics ranging from early medieval monasticism to late medieval mysticism from the material wealth of the Church to the spiritual exercises through which certain believers might attempt to improve their souls Each chapter tells a story but seeks also to ask how and why Christianity took particular forms at particular moments in history paying attention to both the spiritual and otherworldly aspects of religion and the material and political contexts in which they were often embedded This Handbook is a landmark academic collection that presents cutting edge interpretive perspectives on medieval religion for a wide academic audience drawing together thirty key scholars in the field from the United States the UK and Europe Notably the Handbook is arranged thematically and focusses on an analytical rather than narrative approach seeking to demonstrate the variety change and complexity of religion throughout this long period and the numerous different ways in which modern scholarship can approach it While providing a very wide ranging view of the subject it also offers an important agenda for further study in the field

Rewriting Saints and Ancestors Constance Brittain Bouchard, 2014-10-13 Thinkers in medieval France constantly reconceptualized what had come before interpreting past events to give validity to the present and help control the future The long dead saints who presided over churches and the ancestors of established dynasties were an especially crucial part of creative memory Constance Brittain Bouchard contends In *Rewriting Saints and Ancestors* she examines how such ex post facto accounts are less an impediment to the writing of accurate history than a crucial tool for understanding the Middle Ages Working backward through time Bouchard discusses twelfth century scribes contemplating the ninth century documents they copied into cartularies or reworked into narratives of disaster and triumph ninth century churchmen deliberately forging supposedly late antique documents as weapons against both kings and other churchmen and sixth and seventh century Gallic writers coming to terms with an early Christianity that

had neither the saints nor the monasteries that would become fundamental to religious practice As they met with political change and social upheaval each generation decided which events of the past were worth remembering and which were to be reinterpreted or quietly forgotten By considering memory as an analytic tool Bouchard not only reveals the ways early medieval writers constructed a useful past but also provides new insights into the nature of record keeping the changing ways dynasties were conceptualized the relationships of the Merovingian and Carolingian kings to the church and the discovery or invention of Gaul's earliest martyrs

Order & Exclusion Dominique Iogna-Prat, 2002 *Order and Exclusion* is a rare and magnificent book of medieval history with clear relevance to today's headlines Through the lens of the polemics of Peter the Venerable abbot of Cluny Dominique Iogna-Prat examines the process by which Christianity transformed itself into Christendom a powerful spiritual social and political system with pretensions to universality Iogna-Prat's close examination of a set of writings central to the history of Catholicism resolves into a deeply troubling study of the origins of attitudes that continue to shape world events Iogna-Prat writes that versions of fundamentalism nourished by the soil of an often terrible common history show that Christianity Judaism and Islam have all been capable of intolerance Peter the Venerable's writings had a far reaching impact the powerful network of Clunian houses expanded from the founding of the original monastery of Cluny to dominate Christendom by the twelfth century This Christendom Iogna-Prat demonstrates defined itself in part through its increasingly bitter struggles against its perceived enemies both within and without Peter the Venerable's all pervasive logic pitted the order of the monastery and its hierarchical society against all those heretics Jews Muslims lepers outside its bounds In his proclamations against Jews and Muslims Peter devised a Christian anthropology in his view to be non-Christian was to be non-human The power of the Church came at a great and lasting price

Documentary Culture and the Laity in the Early Middle Ages Warren Brown, Marios Costambeys, Matthew Innes, Adam Kosto, 2013 This revealing study explores how people at all social levels whether laity or clergy needed used and kept documents

Legions of Pigs in the Early Medieval West Jamie Kreiner, 2020-10-27 An exploration of life in the early medieval West using pigs as a lens to investigate agriculture ecology

economy and philosophy From North Africa to the British Isles pigs were a crucial part of agriculture and culture in the early medieval period Jamie Kreiner examines how this ubiquitous species was integrated into early medieval ecologies and transformed the way that people thought about the world around them In this world even the smallest things could have far reaching consequences Kreiner tracks the interlocking relationships between pigs and humans by drawing on textual and visual evidence bioarchaeology and settlement archaeology and mammal biology She shows how early medieval communities bent their own lives in order to accommodate these tricky animals and how in the process they reconfigured their agrarian regimes their fiscal policies and their very identities In the end even the pig s own identity was transformed by the close of the early Middle Ages it had become a riveting metaphor for Christianity itself Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms Renie S. Choy,2016-11-17 In early medieval Europe monasticism constituted a significant force in society because the prayers of the religious on behalf of others featured as powerful currency The study of this phenomenon is at once full of potential and peril rightly drawing attention to the wider social involvement of an otherwise exclusive group but also describing a religious community in terms of its service provision Previous scholarship has focused on the supply and demand of prayer within the medieval economy of power patronage and gift exchange Intercessory Prayer and the Monastic Ideal in the Time of the Carolingian Reforms is the first volume to explain how this transactional dimension of prayer factored into monastic spirituality Renie S Choy uncovers the relationship between the intercessory function of monasteries and the ascetic concern for moral conversion in the minds of prominent religious leaders active between c 750 820 Through sustained analysis of the devotional thought of Benedict of Aniane and contemporaneous religious reformers during the reigns of Charlemagne and Louis the Pious Choy examines key topics in the study of Carolingian monasticism liturgical organization and the intercessory performances of the Mass and the Divine Office monastic theology and relationships of prayer within monastic communities and with the world outside Arguing that monastic leaders showed new interest on the intersection between the interiority of prayer and the functional world of social relationships this study reveals the ascetic ideal undergirding the provision of intercessory prayer by monasteries
