Worldview 101 Michael Jean Nystrom-Schut,2004-06-02 In truth just about anyone of us can scribble out a book about personal answers to the many questions of life Worldview 101 or What is most basic and true to my own reality as a human upon the earth is my own response to a number of different concerns and issues in life You might think of this writing as a personal Platos handbook a general set of responses to the many questions of life As its writer it is only a part of the representation of my most current worldview I say current because how we see the world is always in a state of movement Concerning the book as you read it do so with the approach that you are first taking into account my way of seeing things thinking about it and then re shaping more of how you personally view things See if you relate to we think this or we came to know that If you do adopt the idea as your own If not move on In picking and choosing your position on the issues presented here you will probably come to know more of what you are all about more of what you know you know And what will that do It will give you a perspective in higher thought which is a good sort of perspective to possess This you can hopefully use to govern your own life more personally It can be very difficult to acclimate to this world of ours Perhaps the thoughts in this book will help change or reshape your overall acclimation to life for the better Knowing more never really stops If life is meant for anything for some reason that we dont really know about it seems meant for us to learn more about being In the end it is this being part of us that relays a story It also tells to others in our world who and what we are or were Our lives are personal narratives and play out as such for each of us Life speaks to our innermost parts what is it saying to you We can hear the messages if we listen carefully
