The Sorceress of Rome Nathan Gallizier,2020-09-28 The darkness of the tenth century is dissipated by no contemporary historian Monkish chronicles alone shed a faint light over the discordant chaos of the Italian world Rome was no longer the capital of the earth The seat of empire had shifted from the banks of the Tiber to the shores of the Bosphorus and the seven hilled city of Constantine had assumed the imperial purple of the ancient capital of the C sars Centuries of struggles with the hosts of foreign invaders had in time lowered the state of civilization to such a degree that in point of literature and art the Rome of the tenth century could not boast of a single name worthy of being transmitted to posterity Even the memory of the men whose achievements in the days of its glory constituted the pride and boast of the Roman world had become almost extinct A great lethargy benumbed the Italian mind engendered by the reaction from the incessant feuds and broils among the petty tyrants and oppressors of the country Together with the rest of the disintegrated states of Italy united by no common bond Rome had become the prey of the most terrible disorders Papacy had fallen into all manner of corruption Its former halo and prestige had departed The chair of St Peter was sought for by bribery and controlling influence often by violence and assassination and the city was oppressed by factions and awed into submission by foreign adventurers in command of bands collected from the outcasts of all nations From the day of Christmas in the year 800 when at the hands of Pope Leo III

Charlemagne received the imperial crown of the West the German Kings dated their right as rulers of Rome and the Roman world a right feebly and ineffectually contested by the emperors of the East It was the dream of every German King immediately upon his election to cross the Alps to receive at the hand of the Pope the crown of a country which resisted and resented and never formally recognized a superiority forced upon it Thus from time to time we find Rome alternately in revolt against German rule punished subdued and again imploring the aid of the detested foreigners against the misrule of her own princes to settle the disputes arising from pontifical elections or as protection against foreign invaders and the violence of contending factions Plunged in an abyss from which she saw no other means of extricating herself harassed by the Hungarians in Lombardy and the Saracens in Calabria Italy had in the year 961 called on Otto the Great King of Germany for assistance Little opposition was made to this powerful monarch Berengar II the reigning sovereign of Italy submitted and agreed to hold his kingdom of him as a fief Otto thereupon returned to Germany but new disturbances arising he crossed the Alps a second time deposed Berengar and received at the hands of Pope John XII the imperial dignity nearly suspended for forty years

journey Jacqui and her family have made from the dark early days of despair to watching Sophie becoming the beautiful young lady she is today The Bronze Bell Louis Joseph Vance, 1909 Twenty minutes wore wearily away Falling ever more densely the snow drew an impenetrable wan curtain between Amber and the world of life and light and warmth while with each discordant blast the strength of the gale seemed to wax its high hysteric clamour at times drowning even the incessant deep bellow of the ocean surf Once Amber paused in his patrol having heard or fancying he had heard the staccato plut plut of a marine motor On impulse with a swelling heart he swung his gun skywards and pulled both triggers The double report rang in his ears loud as a thunderclap
