Original Unity Of Man And Woman Catechesis On The Of Genesis:

Original Unity of Man and Woman Pope John Paul II, 1981 **Original unity of man and woman** Papa Juan Pablo II (Santo), 1981 **Catholic Sexual Theology and Adolescent Girls** Doris M. Kieser, 2015-06-18 This book explores the intersection in contemporary Western culture of Catholic sexual theology and adolescent female developmental and sexual experiences The voices of adolescent females so long silent in sexual theologies are given privilege here in the articulation of a normative theology Applying a feminist natural law framework the book engages both theoretical scholarship and practical evidence from psychological and other social sciences to inform sexual theology in the Catholic tradition Attending to gendered developmental and social contexts Doris Kieser explores adolescent females experiences of puberty menarche various sexual activities communities of support sexual desire and the pleasure and danger these realities reap She critically explores historical and traditional sexual theologies and prevailing social patriarchal and androcentric sexual attitudes through a feminist lens The author s attention to the voices of girls and women and her aim to see their sexual flourishing in particular and diverse social contexts yields a theology mindful of the rich complexities of female sexual desire pleasure and well being The result is an integrated sexual theology that grapples with the Catholic theological tradition feminist theory and theology and the embodied experiences of females For anyone who is invested in the lives and well being of adolescent females this work uncovers both barriers and boons to their sexual flourishing **Women in Christ** Michele M. Schumacher, 2004 The challenge of promoting the new feminism has barely been addressed since it was first launched by Pope John Paul II in his 1995 encyclical *Evangelium vitae* The thirteen contributors in this book all outstanding international scholars take up this task together laying the necessary theoretical foundation for the new feminism These chapters articulate an integral philosophical and theological understanding of persons that moves beyond patriarchy on the one hand and traditional feminism on the other Central to the new perspective offered here is the biblical revelation of the human person man and woman in Christ a vision that directs women beyond the male standard against which they have too often been measured Far from constraining women to an eternal essence the dynamic view presented here encourages each woman to realize herself in perfect Christian freedom **Mary's Pope** Antoine Nachev, 2000 Rooted in Scripture Tradition and Redemptoris Mater and other encyclicals this book lays the foundations for understanding the teachings of the Catholic Church concerning Mary **Priestly Identity** Thomas J. McGovern, 2010-04-01 It is generally accepted that since the end of Vatican II there has been a crisis in the Catholic priesthood This is reflected in two areas in particular defections from the priesthood and a serious decline in vocations primarily in the developed countries of the West John Paul II has addressed this situation many times during his pontificate especially in *Pastores dabo vobis* where he offers a clear theological vision and a program of formation to overcome the current crisis of priestly identity In his new book McGovern offers a deep analysis of the Pope s theology of priesthood drawing not only from *Pastores dabo vobis* but also from his Holy Thursday Letters and

other important writings on this topic In this study the author deals with core aspects of priestly identity under three main headings theological spiritual and pastoral in the context of service to the lay faithful and the evangelization required of the Church in the new millennium Biblical and Theological Foundation of the Family Joseph C. Atkinson,2014 Biblical and Theological Foundations of the Family argues that the family has a constitutive nature and a specific theological purpose which God reveals in the church Joseph Atkinson investigates the principles of the doctrine of Creation which inform the family from the beginning the vital way the family functions as carrier of the covenant in the Old Testament and the critical aspects of Hebraic anthropology especially corporate personality upon which the family is based This book provides a counter argument to the view of the human person developed in modern thought and which prevails today the autonomous self determining individual with no essential nature or social or ecclesial aspects Atkinson discusses the constitutive corporate nature of the human person and how the covenantal family of the Old Testament finds its fulfillment in Jesus Christ The author does so by investigating how baptism transforms the family and gives it an ecclesial identity making it a domestic church He then examines the development of the family s ecclesial nature in the church fathers and the providential re appropriation of the family s inner ecclesial identity in the teachings of the Second Vatican Council and in subsequent magisterial teachings This ground breaking work establishes a solid biblical and theological foundation on which a theology of the family can be constructed It thus fills a critical lack in the current literature on the family The wide range of sources including Jewish Catholic Orthodox and Protestant give this work a genuine ecumenical dimension Biblical and Theological Foundations of the Family will become indispensable for anyone wanting to engage in serious study of the structure and meaning of the family and its place in the salvific will of God **Nobody's Perfect** Cynthia L Cameron,Lakisha R Lockhart-Rusch,Emily A Peck,2025 Cynthia L Cameron Lakisha R Lockhart Rusch and Emily A Peck argue that some adolescents have the privilege to make mistakes in ways that others often do not In Nobody s Perfect the editors offer a curated volume that affirms adolescents as fundamentally good and presents pathways that help youth distinguish mistakes from sin Sexual Orientation and Human Rights in American Religious Discourse Saul M. Olyan,Martha C. Nussbaum,1998-07-02 Sexual orientation is a topic of intense debate within America s religious traditions These discussions have had a significant impact on the formation of public policy as speakers who locate themselves squarely within religious traditions have articulated positions on both sides in recent arguments concerning gays in the military civil rights protections for gays and lesbians gay marriage parenting and foster parenting and benefits for partners of gay and lesbian employees of major corporations and institutions This volume which stems from a 1995 conference at Brown University aims to promote both academic and public understanding of the different positions that exist on sexual orientation and its public policy dimensions within four major American religious traditions Writers from within the Jewish community the Roman Catholic church Mainline Protestant churches and African American churches explore the history and tradition of their communities

on same sex orientation discuss the moral stance they advocate and consider the legal and public policy implications of that stance For each of these traditions two opposing views are represented and a respondent frames the issue in a larger context The book concludes with essays by Michael McConnell and Andrew Koppelman exploring how our society might find a modus vivendi in a state position of neutrality on the moral status of homosexuality This book will appeal to a broad range of readers interested in these crucial issues and in the role the religious communities play in these debates while helping to foster the climate for a more reasoned and civil dialogue

From Truth and truth Francis Etheredge, 2016-01-14 We begin philosophising cf Fides et Ratio 3 30 without realising that we are philosophers but in time we discover our own identity as philosophers and at the same time come to critically examine it What therefore is the interrelationship between reason and sense indeed is not sense subtly sensitive through reason Questions then arise out of our life our observations and from what we learn But it is not only about being ready well trained or perfect in our reasoning rather it is about taking up the impulse and the task of seeking the truth On the one hand then we can question everything and end up with nothing but on the other hand there are many points of departure experience maxims and the wisdom which comes through many advisers Prov 15 22 Ideas abound about what might be the case but a philosophical investigation is also about coming into the presence of being Many people have gone before and go with us and will come after us and therefore this book marks a contribution to understanding both the activity of philosophising and the conversation about what is cf Fides et Ratio 44 We discover that to exist is to search through the apparent contradictions in our experience and to find eventually that there are both good foundations and buildings begun and also great unanswered or unsatisfactorily answered questions There is an ongoing work too to establish the mystery of the person implicated in human action Therefore there is both the inveterate call of the subject to be investigated and at the same time the ever present need of the grace of perseverance to pursue it This book is also about the slow discovery of the beautiful but inadequate nature of natural truth The wonder of natural truth is that it exists like the literal sense a kind of foundational reasoning however just as Revelation perfects natural truth so the human person is a living expression of the whole literal and spiritual sense of created being Hence the title of this volume Faithful Reason makes explicit a witness to what is beyond itself

Humanae Vitae, a Generation Later Janet E Smith, 1991 Janet E Smith presents a comprehensive review of this issue from a philosophical and theological perspective Tracing the emergence of the debate from the mid 1960s and reviewing the documents from the Special Papal Commission established to advise Pope Paul VI Smith also examines the Catholic Church's position on marriage which provides context for its condemnation of contraception

Procreative Ethics Fritz Oehlschlaeger, 2010-01-01 Procreative Ethics addresses questions at the beginning of life from a point of view that is alternatively philosophical and christian The author seeks to defend philosophically some positions taken partly on Christian grounds while also trying to make the implications of Christian convictions intelligible to those who do not necessarily share those convictions The author positions himself neither as a moral friend nor moral

stranger preferring instead the role of moral acquaintance to his audience From that position the goal is to find areas of fruitful agreement while clarifying differences that may lead to truer reconciliations further on in the conversation The book opens with an attempted natural law defense of artificial contraception devotes four chapters to criticism of current defenses of abortion and then takes up in six remaining chapters such matters as genetic enhancement of children the justice or injustice of genetic revision the harm conundrum or non identity problem designing for disability and reproductive cloning Fritz Oehlschlaeger has written a remarkable book that needs to be read by everyone with a stake in moral questions at life s beginning Displaying theological and philosophical sophistication as well as a profound wisdom these arguments must be taken seriously by those who agree with Oeschlaeger as well as those who do not Joel James Shuman King s College Writing with a modesty that betrays the depth of argument that characterizes Procreative Ethics Fritz Oehlschlaeger has written the most important book in bioethics in recent memory Bioethics has long suffered from a stale imagination Oehlschlaeger an acknowledged outsider to the field brings to his work a fresh imagination shaped by literary texts and a profound humanity Hopefully many will want to emulate his work in other areas of bioethics Stanley Hauerwas Duke University In this new book Fritz Oehlschlaeger has made masterful and persuasive arguments about the moral challenges looming at the beginning of human life And he does this as a highly informed non specialist an English professor no less Robert Benne Roanoke College

Destined for Liberty Jarosław Kupczak,2000 In this compelling new work Jaroslaw Kupczak O P presents a complete introduction to John Paul II s theory of the human person John Paul II's Contribution to Catholic Bioethics Christopher Tollefsen,2005-02-18 Any list of the most influential figures of the second half of the twentieth century would arguably have to begin with the name of Pope John Paul II From 1978 when he was inaugurated to the present over a quarter of a century later the Pope has been a dominant force in the world both within the Catholic and Christian Church and in the larger international community Among the areas in which the Pope has been of signal importance to contemporary discussion argument and policy has been the field of bioethics This collection brings together for the first time in an accessible and readable form a summary and assessment of John Paul II s contribution to bioethical issues and theories It includes discussion of the Pope s views on the dignity of the person and the sanctity of human life and the application of these views to various difficulties in medical ethics such as abortion and embryo research the right to health care and the problem of suffering Throughout attention is paid to the way in which the Pope stands as a recognizably authentic voice for the Catholic faith in the medical arena *Human Sexuality* United States Catholic Conference,1991 Provides educational and informational guidance on the difficult questions and problems involved with human sexuality John Paul II and Moral Theology Charles E. Curran,Richard A. McCormick,1998 **Covenant of Love** Richard Hogan,Richard M. Hogan,John M. LeVoi,1992-01-01 Pope John Paul II has had a profound theological and personal impact on Catholics and non Catholics alike In the scholarly tradition of Saint Augustine and Saint Thomas he has found a new unity between faith and reason The study

of God says John Paul is also the study of humanity He has come to vigorously insist on the rights and dignity of each human person and on the divine importance of the family John Paul teaches that the keystone of Christian living today is the communion of persons which is the family Covenant of Love conveys this central message of his pontificate It explores the influence of Christ on the modern family human intimacy and sexuality and illustrates the Pope s response to the violations of that familial communion materialism sterilization pre marital sex abortion polygamy adultery and lust contraception and artificial conception and homosexuality Written for the layman as well as for clerics students and educators this volume will enhance the understanding and appreciation of Pope John Paul II s teachings Covenant of Love presents the extraordinary new way that John Paul II is using to present a new synthesis of the faith that can be the means of renewing the faith of all Christians and of bringing more people to Christ It sets out his philosophical and theological design for every Christian who seeks a closer relationship with God in the person of Christ in the Church and in the human heart **Eve's Pilgrimage** Tina Beattie,2002-04-01 In this original book the author journeys through Rome following biblical events and themes in works of art from Genesis in the Sistine Chapel through Incarnation in the Pantheon and Resurrection in Michaelangelo s Last Judgement She touches on many themes in her journey including violence and power at the Colosseum social injustice at St Mary Major and motherhood at the icon of Our Lady in Perpetual Succour Writing as an intelligent Christian feminist Beattie doesn t resort to clichés and has a clear elegant style which makes this a very readable book Challenging the Modern World Samuel Gregg,2002-10-01 Moral theologian Samuel Gregg addresses issues surrounding the Pope s personal influence on developments in Catholic social teaching He compares the treatment of industrial relations capitalism and relations between developed and developing countries in John Paul s three social encyclicals with the handling of these three topics in the teachings of the Council and Paul VI arguing that John Paul s critical engagement with the modern world has contributed significantly to Catholic social teaching particular its moral anthropological dimensions Annotation copyrighted by Book News Inc Portland OR **Feminist Ethics and Natural Law** Cristina L. H. Traina,1999-04-28 Heated debates over such issues as abortion contraception ordination and Church hierarchy suggest that feminist and natural law ethics are diametrically opposed Cristina L H Traina now reexamines both Roman Catholic natural law tradition and Anglo American feminist ethics and reconciles the two positions by showing how some of their aims and assumptions complement one another After carefully scrutinizing Aquinas s moral theology she analyzes trends in both contemporary feminist ethics theological as well as secular and twentieth century Roman Catholic moral theology Although feminist ethics reject many of the methods and conclusions of the scholastic and revisionist natural law schools Traina shows that a truly Thomistic natural law ethic nonetheless provides a much needed holistic foundation for contemporary feminist ethics On the other hand she offers new perspectives on the writings of Josef Fuchs Richard McCormick and Gustavo Gutierrez arguing that their failure to catch the full spirit of Thomas s moral vision is due to inadequate attention to feminist critical methods This highly original

book proposes an innovative union of two supposedly antagonistic schools of thought a new feminist natural law that would yield more comprehensive moral analysis than either existing tradition alone This is a provocative book not only for students of moral theology but also for feminists who may object to the very notion of natural law ethics suggesting how each might find insight in an unlikely place
