Pop Art and Consumer Culture Christin J. Mamiya, 1992 Mamiya art history U of Nebraska attributes the wild success of pop art in the 1960s despite the disapproval of art critics to its integral relationship with American consumer culture which also peaked at that time Paper edition unseen 17 95 Annotation copyrighted by Book News Inc Portland OR **Pop Art and Consumer Culture** Christin J. Mamiya, 1992-01-01 **American Pop Art in France** Liam Considine, 2019-10-28 Pop art was essential to the Americanization of global art in the 1960s yet it engendered resistance and adaptation abroad in equal measure especially in Paris From the end of the Algerian War of Independence and the opening of Ileana Sonnabend's gallery for American Pop art in Paris in 1962 to the silkscreen poster workshops of May 68 this book examines critical adaptations of Pop motifs and pictorial devices across French painting graphic design cinema and protest aesthetics Liam Considine argues that the transatlantic dispersion of Pop art gave rise to a new politics of the image that challenged Americanization and prefigured the critiques and contradictions of May 68 *Four Musical Minimalists* Keith Potter, 2002-04-25 Offers the most detailed account yet of the early works of these four minimalist composers **Destruction Rites** Mona Hadler, 2017-01-30 In the early sixties crowds gathered to watch rites of destruction from the demolition derby where makeshift cars crashed into each other for sport to concerts where musicians destroyed their instruments to performances of self destructing machines staged by contemporary artists Destruction in both its playful and fearsome aspects was ubiquitous in the new Atomic Age This complicated subjectivity was not just a way for people to find catharsis amid the fears of annihilation and postwar trauma but also a complex instantiation of ideological crisis in a time with some seriously conflicted political myths Destruction Rites explores the ephemeral visual culture of destruction in the postwar era and its links to contemporary art It examines the demolition derby games and toys based on warfare playgrounds situated in bomb sites and the rise of garage sales where goods designed for obsolescence and destined for the garbage heap are reclaimed and repurposed by local communities Mona Hadler looks at artists such as Jean Tinguely Niki de Saint Phalle Martha Rosler and Vito Acconci to expose how the 1960s saw destruction construction and the everyday collide as never before During the Atomic age whether in the public sphere or art museums destruction could be transformed into a constructive force and art objects and performances often oscillated between the two *American Culture, American Tastes* Michael Kammen, 2012-10-03 Americans have a long history of public arguments about taste the uses of leisure and what is culturally appropriate in a democracy that has a strong work ethic Michael Kammen surveys these debates as well as our changing taste preferences especially in the past century and the shifting perceptions that have accompanied them Professor Kammen shows how the post traditional popular culture that flourished after the 1880s became full blown mass culture after World War II in an era of unprecedented affluence and travel He charts the influence of advertising and opinion polling the development of standardized products shopping centers and mass marketing the separation of youth and adult culture the gradual

repudiation of the genteel tradition and the commercialization of organized entertainment He stresses the significance of television in the shaping of mass culture and of consumerism in its reconfiguration over the past two decades Focusing on our own time Kammen discusses the use of the fluid nature of cultural taste to enlarge audiences and increase revenues and reveals how the public role of intellectuals and cultural critics has declined as the power of corporate sponsors and promoters has risen As a result of this diminution of cultural authority he says definitive pronouncements have been replaced by divergent points of view and there is as well a tendency to blur fact and fiction reality and illusion An important commentary on the often conflicting ways Americans have understood defined and talked about their changing culture in the twentieth century

Are We Not New Wave? Theodore Cateforis, 2011-06-22 *Are We Not New Wave* is destined to become the definitive study of new wave music Mark Spicer coeditor of *Sounding Out Pop* New wave emerged at the turn of the 1980s as a pop music movement cast in the image of punk rock's sneering demeanor yet rendered more accessible and sophisticated Artists such as the Cars Devo the Talking Heads and the Human League leapt into the Top 40 with a novel sound that broke with the staid rock clichés of the 1970s and pointed the way to a more modern pop style In *Are We Not New Wave* Theo Cateforis provides the first musical and cultural history of the new wave movement charting its rise out of mid 1970s punk to its ubiquitous early 1980s MTV presence and downfall in the mid 1980s The book also explores the meanings behind the music's distinctive traits its characteristic whiteness and nervousness its playful irony electronic melodies and crossover

experimentations Cateforis traces new wave s modern sensibilities back to the space age consumer culture of the late 1950s early 1960s Three decades after its rise and fall new wave s influence looms large over the contemporary pop scene recycled and celebrated not only in reunion tours VH1 nostalgia specials and 80s night dance clubs but in the music of artists as diverse as Rihanna Lady Gaga Miley Cyrus and the Killers **Hyperscapes in the Poetry of Frank O'Hara** Hazel
