Marketing Brands in Africa Samuelson Appau, 2021-09-11 This contributed volume serves as an authoritative reference and guide for anyone looking to study or build a brand in Africa Despite being touted as the last frontier of global brands very little research exists that examines brands and branding in this emerging market Authors cover crucial topics such as the history of branding in Africa branding approaches used by start ups religious organizations political parties and businesses in the informal economies of Africa as well as marketing Africa as a brand using practical cases empirical and critical approaches With the world s youngest population and the second fastest growing economies Africa has quickly become a hotbed for marketing and consumption of local and global brands While past research has mostly focused on examining the brand image of Africa and African countries or on branding Africa as a place for tourist consumption what is missing is a comprehensive guide that

discusses the theory and practice of branding and brands in and from Africa Through theoretical and practical contributions the authors of this book seek to fill the knowledge gap about branding in and from Africa

Dialectic of Pop Agnes Gayraud, 2020-01-28 A philosophical exploration of pop music that reveals a rich self reflexive art form with unsuspected depths In the first major philosophical treatise on the subject Agn s Gayraud explores all the paradoxes of pop its inauthentic authenticity its mass production of emotion and personal resonance its repetitive novelty its precision engineering of seduction and calls for pop in its broadest sense encompassing all genres of popular recorded music to be recognized as a modern technologically mediated art form to rank alongside cinema and photography In a thoroughgoing engagement with Adorno s fierce critique of standardized light popular music Dialectic of Pop tracks the transformations of the pop form and its audience over the course of the twentieth century from Hillbilly to Beyonc from Lead Belly to Drake Inseparable from the materiality of its technical media indifferent and intractable to the perspectives of high culture pop subverts notions of authenticity and inauthenticity original and copy aura and commodity medium and message Gayraud demonstrates that far from being the artless and trivial mass produced pabulum denigrated by Adorno pop is a rich self reflexive artform that recognises its own contradictions incorporates its own productive negativity and often flourishes by thinking against itself Dialectic of Pop sings the praises of pop as a constitutively impure form resulting from the encounter between industrial production and the human predilection for song and diagnoses the prospects for twenty first century pop as it continues to adapt to ever changing technological mediations
