

An Essay on Man, Alexander Pope

✓ Exclusively available on IvyPanda

In the preface to *An Essay on Man*, Alexander Pope says, "If I could flatter myself that this Essay has any merit, it is in steering betwixt the extremes of doctrines seemingly opposite." The "doctrines" that Pope talks of are the seeming contradiction in human mind that, there exist, "not many certain truths in this world" . In other words, Pope writes of the contradictions that lie in man's imperfect perception of the God's creation.

God created the world, but man's speculations and pride that makes him blind to the perfection with which God has created it. Therefore, the contradictory "doctrines" that Pope refers to are those of Christianity and deism.

In his *Essay*, Pope intended to express a philosophy about the seamless creation that God has made, but Man, blinded in his pride of uncertainty, fails to perceive its full appeal: "the *disputes* are all upon these last, and I will venture to say, they have less sharpened the wits than the *hearts* of men against each other, and have diminished the practice more than advanced the theory of Morality."

Clearly, the "dispute" lies in the heart of Man that, crippled with its own vanity, fails to see the ethereal beauty of God's creation and looks at it with questioning mind: "The pride of aiming at more knowledge, and pretending to more Perfection, the cause of Man's error and misery." Pope in his *Essay* talks of this disconnect and of his belief that the discontent of humanity is not caused by flaws in God's design, but by Man's pride.

This essay discusses the philosophy that Pope brings forth in his *Essay* that Man, in his pride and disbelief, is blinded and fails to realize the beauty and sublimity in the perfect world that God has created, rather it is Man who creates the dissonance and distortion to this seamless creation.

An Essay on Man was written by Alexander Pope in 1733-34 and was published anonymously. The poem presents Pope's most "extensive disquisition on philosophical, cosmic, and social themes" and sparked one of the greatest debates on "beneficence of Nature, and the role of individual society" .
