Mannix, Fred Burchsted, 2015-01-14 Profiling more than 1400 print and electronic sources this book helps connect librarians and researchers to the most relevant sources of information in genealogy and biography *Pontifex Maximus - The Popes in History* Ruben Ygua, 2025-08-20 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That's how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day this for now covers from 1789 to 1946 divided into five collections [Catholicism All-in-One For Dummies](#) Rev. struggles How he impacted the Church His approach to world politics The ways he spread his message Pope Francis: The Last Pope? Leo Lyon Zagami, Brad Olsen, 2015-03-05 Pope Francis The Last Pope reveals the possible reasons for the choice of historical abdication of Benedict XVI and traces the process that led to the election of Cardinal Bergoglio the Pope who many have prophesized will be the last and will bring the Catholic Church to its end The book details the history of this prophecy which was hidden away in the Vatican for hundreds of years and predicts that the reign of the last Pope will herald the beginning of great apostasy followed by great tribulation It also explores the recent scandals in the Catholic Church and addresses questions including What pressures decreed the end of the pontificate of Benedict XVI What powers have an interest for the Church to end and What is the relationship between the Vatican and the New World Order Perfect for anyone interested in prophecies about the end times Pope Francis The Last Pope reveals the truth about what numerology says about the last Pope and the darkness that may follow him as well as fascinating investigations into the gay lobby Freemasonry and the Jesuit agenda in the Vatican and how it relates to the first Borgia Pope the legend of the White Pope and the Black Pope and how Benedict's resignation may fulfill an ancient prophecy **The Next Pope** Anura Guruge, 2010-02-16 Papal elections are easily the oldest surviving of electoral processes The current sequestered form i e within a conclave dates back uninterrupted to 1294 The next election will be the seventy fourth in this sequence Historical longevity with its inevitable repertoire of accumulated drama though entralling is but just one of the facets that make papal elections so captivating The dignified pomp as red clad cardinals solemnly congregate in Rome the obstinate obfuscation as to who is in the running to be the next pope and the eagerly awaited color coded smoke signals sfumata are matchless and enduring Even the urn that serves as the ballot box is a bona fide work of art by a well known Italian sculptor in silver and gilded bronze with an abstract depiction of the Good Shepherd gracing the top of the tilting lid Thus to say that papal elections are unique is an understatement of considerable magnitude hence the potential to fascinate That is where The Next Pope comes in It deals unstintingly with the traditions the norms the papabili the rituals the dynamics the politics the mechanics the laws the precedents and the pertinent history of papal elections This handbook will therefore both stoke and satisfy the reader's fascination as to how the next pope will come to be elected Page 4 of cover **THE POPES WHO CHANGED THE WORLD: FROM THE APOSTLE PETER TO POPE FRANCIS** DUKE SOUZA, Throughout the centuries the papacy has played a pivotal role in shaping the history of the Church and the world This book offers an engaging journey through the most influential pontificates from Saint Peter the first Pope and cornerstone of Christian faith to Pope Francis a symbol of renewal and openness to modern challenges With accessible language and solid historical foundation it highlights key moments councils reforms persecutions and the political and spiritual influence of each leader Perfect for scholars believers and those curious about the evolution of the Catholic Church this is a compelling guide to understanding how spiritual authority has shaped empires cultures and minds Watson's Jeffersonian Magazine ,1914
