The Sacred Book of the Ancient Quiché Maya. English Version by Delia Goetz and Sylvanus G. Morley, from the Translation of Andrian Recinos** Delia Goetz,Sylvanus Griswold Morley,Andrian Recinos,1961 Decolonizing Indigeneity Thomas Ward,2016-12-20 While there are differences between cultures in different places and times colonial representations of indigenous peoples generally suggest they are not capable of literature nor are they worthy of being represented as nations Colonial representations of indigenous people continue on into the independence era and can still be detected in our time The thesis of this book is that there are various ways to decolonize the representation of Amerindian peoples Each chapter has its own decolonial thesis which it then resolves Chapter 1 proves that there is coloniality in contemporary scholarship and argues that word choices can be improved to decolonize the way we describe the first Americans Chapter 2 argues that literature in Latin American begins before 1492 and shows the long arc of Mayan expression taking the Popol Wuj as a case study Chapter 3 demonstrates how colonialist discourse is reinforced by a dualist rhetorical ploy of ignorance and arrogance in a Renaissance historical chronicle Agustín de Zárate's *Historia del descubrimiento y conquista del Perú* Chapter 4 shows how by inverting the Renaissance dualist configuration of civilization and barbarian the Nahuatl Aztecs who were formerly considered barbarian can be civilized within Spanish norms This is done by modeling the categories of civilization discussed at length by the Friar Bartolomé de las Casas as a template that can serve to evaluate Nahuatl civil society as encapsulated by the historiography of Fernando de Alva Ixtlilxochitl a possibility that would have been available to Spaniards during that time Chapter 5 maintains that the colonialities of the pre Independence era survive but that Criollo indigenous dialogue is capable of excavating their roots to extirpate them By comparing the discussions of the hacienda system by the Peruvian essayist Manuel González Prada and by the Mayan Quiché eye witness to history Rigoberta Menchú this book shows that there is common ground between their viewpoints despite the different genres in which their work appears and despite the different countries and the eight decades that separated them suggesting a universality to the problem of the hacienda which can be dissected This book models five different decolonizing methods to extricate from the continuities of coloniality both indigenous writing and the representation of indigenous peoples by learned elites **Popol Vuh: The Sacred Book of the Ancient Quiché Maya** Delia and Sylvanus G. Pre-Columbian Landscapes of Creation and Origin John Staller, 2008-03-12 Pre Columbian Andean and Mesoamerican cultures have inspired a special fascination among historians anthropologists archaeologists as well as the general public As two of the earliest known and studied civilizations their origin and creation mythologies hold a special interest The existing and Pre Columbian cultures from these regions are particularly known for having a strong connection with the natural landscape and weaving it into their mythologies A landscape approach to archaeology in these areas is uniquely useful shedding insight into their cultural beliefs practices and values The ways in which these cultures imbued their landscape with symbolic significance influenced the settlement of the population the construction of monuments as well as their rituals and practices This edited volume combines research on Pre Columbian cultures throughout Mesoamerica and South America examining their constructed monuments and ritual practices It explores the foundations of these cultures through both the creation mythologies of ancient societies as well as the tangible results of those beliefs It offers insight on specific case studies combining evidence from the archaeological record with sacred texts and ethnohistoric accounts The patterns developed throughout this work shed insight on the effect that perceived sacredness can have on the development of culture and society This comprehensive and much needed work will be of interest to archaeologists and anthropologists focused on Pre Columbian studies as well as those in the fields of cultural or religious studies with a broader geographic focus
